

# 2015 IBM CICS Lunch & Learns: Get more out of CICS

*Join us online for our free monthly webinar series*

**Want to learn more about the latest features of the IBM® CICS® portfolio but just don't have the time?** This Lunch & Learn series may be just what you're looking for! Join us for a 30 minute session each month covering various CICS topics.

**What topics are covered?** This series will focus on best practices and cover topics of interest and importance to you; we will also invite you to submit topics that matter to you.

## Who is the call series for?

- Application architects
- Application programmers
- Any customer interested in learning more about CICS

**What does it cost?** These events are free of charge to attend.

## Announcing July, August, and September 2015 Webinars

### Automatic application deployment to CICS, z/OS and other platforms using UrbanCode Deploy
