Looking for business growth?
Mobilize your CICS applications!

- **CICS Mobile Test Drive** provides a System z environment for mobile application development and testing. **60 days free of charge**.

- ISV can use this environment to develop mobile app to interface with IBM Worklight Server and access applications running under CICS.

  IBM Worklight Studio is available for download from
  http://www.ibm.com/developerworks/downloads/ws/worklight

- Includes a z/OS system and a Linux on System z

  The z/OS system is based on z/OS V2.1 with CICS TS 5.1 and the CICS Mobile Extension Feature Pack installed (to be updated to CICS TS V5.2 within three months of GA).

  The Linux on System z can be **Red Hat Enterprise Linux (RHEL) Server 6 System z** or **SUSE Linux Enterprise Server (SLES) 11 System z** with IBM Worklight Server V6 installed
