Installing IBM File Manager® plug-in for Eclipse into CICS Explorer™

The following steps are required in order to install IBM File Manager® plug-in for Eclipse into CICS Explorer™ environment:

Installation into CICS Explorer V1.1.1

1. Download and install [IBM CICS Explorer™](#)
2. Download a zip file containing IBM File Manager® plug-in for Eclipse. Find the latest version from [IBM z/OS Problem Determination Tools](#) site. The zipped file is called **FM_plugin_V12100.zip**.
3. Start CICS Explorer™
4. Click **Help > Install New Software...**
5. Click on **Add...**
6. In **Add Repository** dialog, click **Archive...** button and select the zipped file.
7. Select **IBM File Manager® plug-in (Required)** feature from the list. You may need to also select **IBM File Manager® plug-in EMF runtime** if your CICS Explorer™ environment does not have a version of the EMF runtime environment installed.
8. Click **Finish** button to install IBM File Manager® plug-in for Eclipse. Upon successful installation, the CICS Explorer™ should prompt you to restart the CICS Explorer™. Select **Yes** to re-start your CICS Explorer™.

After following the installation steps above, you should be able to start using IBM File Manager® plug-in for Eclipse. Follow the steps below to bring up the **File Manager** perspective:

1. Select **Window > Open Perspective > Other...**
2. From a list of available perspectives, select **File Manager** perspective.

Technical support

This plug-in is available at no charge to all licensed users of IBM File Manager® for z/OS V12, or later. It is supplied under the standard terms and conditions of the IBM International Program License Agreement (IPLA) and of the associated License Information and other documentation, and provides a defect correction entitlement for those licensed users entitled to service for IBM File Manager® for z/OS V12, or later. Service is available

for this plug-in for as long as the IBM File Manager® for z/OS product with which the plug-in is to be used is generally supported by IBM. In addition, IBM reserves the right to discontinue service on this plug-in when it is withdrawn from marketing by IBM. Please reference "IBM File Manager for z/OS" as the entitled product when contacting IBM and requesting support for this plug-in.
