## Installing Workload Simulator Plug-in for Eclipse V1.1.0.1 into CICS Explorer or IMS Explorer

Complete the following steps to install the Workload Simulator Plug-in for Eclipse V1.1.0.1 into CICS Explorer or IMS Explorer.

1. Check with your system programmer that the components in WSIM\_server\_v1101.zip have been installed according to the included server readme.txt.
2. If setup for WSim Test Manager has not already been performed for this user, complete the tasks in "Setting up a New WSim Test Manager (WTM) User" in Chapter 1 of the WSim Test Manager User's Guide and Reference.
3. Extract all the contents of WSIM\_plugin\_v1101.zip to any writable directory of your choice, for example, C:\WSIM\_install.
4. Copy the help plugin, from the above example, C:\WSIM\_install\com.ibm.wsim.doc\_1.1.jar to your CICS Explorer or IMS Explorer dropins directory. For example, C:\CICS\_Install\CICS\_Explorer\dropins
5. Start CICS Explorer or IMS Explorer.

6. In the action bar click "Help" -> "Install New Software".
7. If a previous version of the Workload Simulator Plug-in is installed, click on "already installed" to display the list of current plugins. Select the existing "Workload Simulator Plugin for Eclipse", click "Uninstall" then "Finish". Allow CICS Explorer or IMS Explorer to restart. When CICS Explorer or IMS Explorer has restarted, select "Help" -> "Install New Software" again.
8. Click "Add".
9. An "Add Respository" window should open.
10. Click "Local".
11. Navigate to the directory storing the extracted files.
12. Click "OK".
13. Click "OK".
14. CICS Explorer or IMS Explorer displays a list of features you can install. Select the "WSim Plugin -> WSim Plugin for Eclipse".
15. Click "Next".
16. Click "Next".
17. Accept the feature license agreement and click "Finish". There may be a security warning for unsigned content. Click "OK" if this message appears.
18. CICS Explorer or IMS Explorer installs the Workload Simulator Plug-in for Eclipse V1.1.0.1. You will be asked if you want to restart CICS Explorer or IMS Explorer. Click "Restart Now"

After CICS Explorer or IMS Explorer restarts, read "Getting Started Using WSIM Plug-in for Eclipse V1.1.0.1" for instructions on how to display the "Getting Started" help topic, which has instructions on how to start debugging your applications.

## **Technical Support**

This plug-in is available at no charge to all licensed users of IBM Workload Simulator for z/OS and OS/390 V1, or later. It is supplied under the standard terms and conditions of the IBM International Program License Agreement (IPLA) and of the associated License Information and other documentation, and provides a defect correction entitlement for those licensed users entitled to service for IBM Workload Simulator for z/OS and OS/390 V1.1, or later. Service is available for this plug-in for as long as the IBM Workload Simulator for z/OS and OS/390 product with which the plug-in is to be used is generally supported by IBM. In addition, IBM reserves the right to discontinue service on this plug-in when it is withdrawn from marketing by IBM. Please reference "IBM Workload Simulator for z/OS and OS/390" as the entitled product when contacting IBM and requesting support for this plug-in.
