

IBM Rational Developer for Power Systems Software

Client Update

© 2011 IBM Corporation

This presentation will describe the steps to update the Rational Developer for Power Systems Software product on your machine.

Client Update

- After a product becomes available, enhancements and corrections are made available by way of fixpacks.
- Fixpacks are always cumulative.
- IBM Installation Manager is used to update your product installation to the latest fixpack.
- The product cannot be running while the update is performed.
- The latest fixpack information can be found at:

<https://www-304.ibm.com/support/docview.wss?uid=swg27021392>

After a product becomes available, enhancements and corrections are made available by way of fixpacks. These fixpacks are always cumulative so you only need to install the latest. IBM Installation Manager is the tool used to update your product installation to the latest fixpack. The product cannot be running while the update is performed. The latest fixpack information can be found at the website shown.

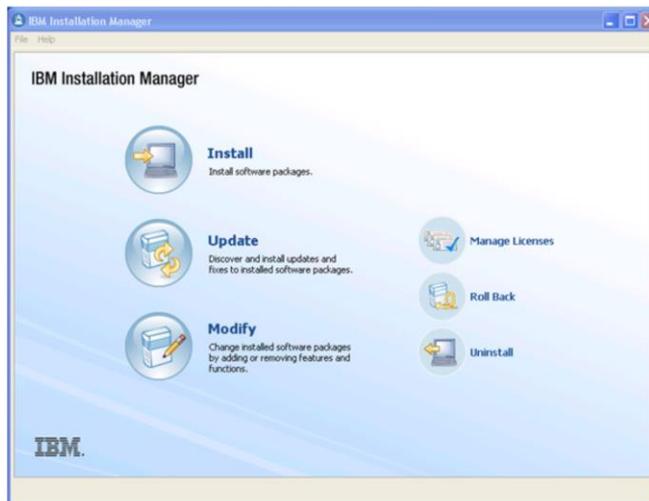

IBM Installation Manager

- IBM Installation Manager can be started from the Start menu on Windows using **All Programs > IBM Installation Manager > IBM Installation Manager**
- On Linux, IBM Installation Manager can be started using **/opt/IBM/InstallationManager/eclipse/IBMIM**
- IBM Installation Manager must be started as administrator or as root.
- Some fixpacks require a higher version of the IBM Installation Manager than the product's version. Installation Manager will search for a newer version and install it if needed.

The IBM Installation Manager must be started as administrator or as root. Using the paths shown, the IBM Installation Manager can be started on Windows or Linux.

Client Update – start Update

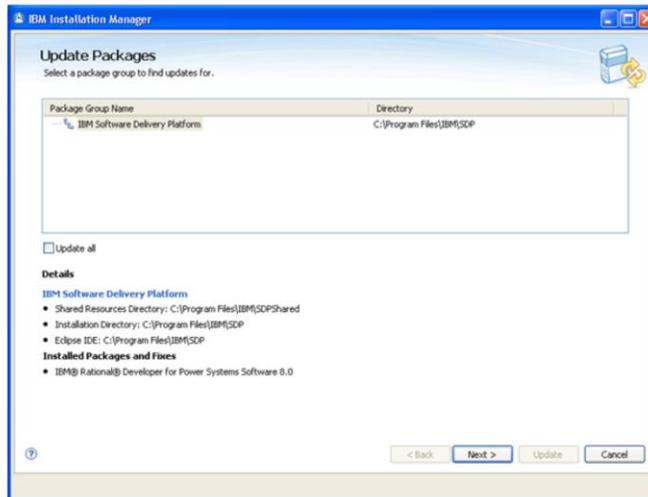

- Start IBM Installation Manager and click Update

With the IBM Installation Manager started, click Update to begin the process.

Client Update – select Package Group

- Select the package group which contains the products you want to update.
- Click Next

5

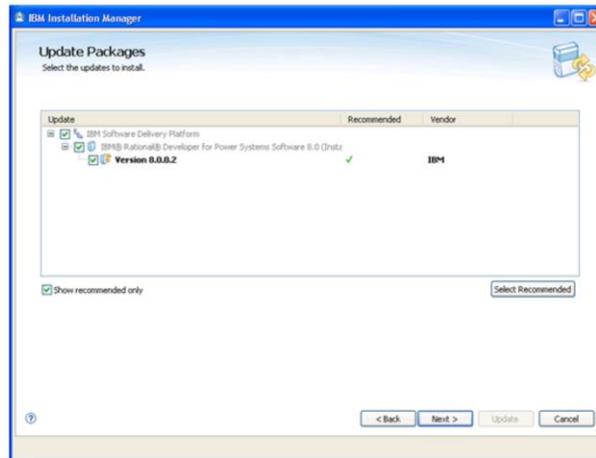

Client Update
