

IBM Business Process Manager 7.5

An IBM Proof of Technology

IBM Software

YOU'RE INVITED

INTRODUCTION

IBM Business Process Manager 7.5 is designed to make it easy for process stakeholders to collaborate and engage directly in improving their business processes through a unified business process management (BPM) environment. It is very well suited to implement business processes exhibiting a high degree of end user involvement and frequent change.

OBJECTIVE

The primary goal of this session is to provide a hands-on exposure to IBM BPM 7.5. Some technical presentations will be provided, but emphasis will be on labs structured to provide a guided introduction to the IBM BPM. No programming skills are required.

AUDIENCE

The IBM BPM 7.5 Proof-of-Technology is targeted at business analysts, architects, integration developers, project managers and management decision makers who are evaluating IBM BPM for use in their enterprises.
