## **O08 Linux Installation Part 1 of 2**

**by Matilde L. Valdez**

(lecture/lab)

Come and experience a Linux installation! Learn how to create a dual boot configuring GRUB (GRand Unified Bootloader) and understand the primary functions of the main file systems in Linux.

Objectives:

- Install your choice of Linux Distribution
- Understand the Linux file system structure
- Become familiar with GRUB (GRand Unified Bootloader)
