

Turn services into solutions

z Systems @InterConnect

Connect and empower your systems of engagement
with the data & capabilities from your z Systems.

Hors d'Oeuvres

A little taste of what's in store

- z Systems: Redefining digital business through integration of cloud, mobile, and analytics (#6441)
- Maximizing your Mainframe Investment (#1154)

Main Course

Hearty servings of knowledge from top IBMers and our clients

- Discovery of Enterprise (z) Assets for API Management (#5418)
- Maximizing Business Agility with a Pattern-Enabled On Premise Cloud (#4470)
- Developing mobile solutions for connecting back end systems to mobile devices (#1777)
- Connecting to your systems of record on your mainframe from Bluemix (#3235)
- The Fiserv story: Mainframe application testing with zero MIPS cost using RIT & CICS TG (#2741)
- WAS Liberty z/OS Connect - a technical introduction (#1670)
- Leveraging z Assets with API Management at Humana (#3456)
- CICS and the new SOA (#2825)

Dessert

Still not full? Try something a little different

- Achieving availability across datacenters with z Systems (#4485)
- Bluemix integration and modernising distributed CICS deployments (#3945)

Sides

Dev@InterConnect

Hack, make, break, and shake.
Talks, workshops, hands-on
activities and so much more

zLabs and the Solution Suite

Hands-on labs and demos on various
topics including how to employ z/OS
Tools to mobilize your mainframe assets
