

Here goes. I talk  
the talk. It types  
the type. Hey, not  
bad for \$99.

My PC is writing down what I say. I'm talking about  
VoiceType™ Simply Speaking, the new \$99\* dictation soft-  
ware from IBM. Words of wisdom appear in a PC window.  
You can print from there or move them into most popular  
Windows® applications. Or e-mail them away. Bigger vocab-  
ulary, better speller than my college kid. Almost always  
knows to write what you say the right way, and learns  
from its mistakes. Unlike some people I could mention.

Beat the rush! Order here for immediate delivery. Call  
1 800 IBM-7235, ext. 5296, or visit [www.voicetype.ibm.com](http://www.voicetype.ibm.com).  
Included is an ultralight headset mike that folds flat for travel.  
Nice little stocking stuffer from IBM.

Solutions for a small planet™ **IBM**

\*SRP. System requirements include: Pentium® processor 100MHz or above, Windows 95 and a CD-ROM drive.
