IBM Program usage and installation report instructions

Netcool OMNIbus Help Guide

Please see below the instructions for additional help in collecting deployment information for your IBM Software.

Instructions:

"1. Please provide Application Server Diagrams that depict the following information relevant to Tivoli NetCool in your environment:
> a. Instance Names
> b. Server Names
> c. Netcool Product installed
> d. Version Information

2. For each NetCool Omnibus Implementation, please extract the list of events and corresponding devices (along with dates) being managed by Omnibus, from an RDBMS (Such as Oracle, DB2 or MS SQL etc.)."
