---

Abstract: Put your IBM Software Subscription and Support to work. Sign in to Passport Advantage Online to download new versions and releases of your entitled software. Take advantage of the performance and usability improvements, security enhancements and new functionality built into the latest versions and releases of your entitled software. [learn how]

---

Today I'm going to show you how to upgrade your software to take advantage of

- performance and usability improvements
- security enhancements
- and the new functionality built into the latest versions and releases of your entitled software

All you'll need is

- active IBM Software Subscription and Support
- access to Passport Advantage Online
- and permission from your Primary Contact to download software for your Site

Let's get started. Go to [ibm.com/software/passportadvantage](http://ibm.com/software/passportadvantage)

Select *Passport Advantage Online*, and click *Customer Sign in*. If you are a new customer, you will need to create an IBM ID and password and complete a short online self-nomination form requesting Passport Advantage Online access and download privileges. Your request will be forwarded to your Site's Primary Contact for approval. For the sake of this demo, let's assume you have both. Enter your IBM ID and Password. Click *Sign in*.

Select *Software download & media access*. Choose the Passport Advantage Agreement number governing the software you wish to download from the 'Your program offerings' drop down. Click *Continue*.

On the next screen, you can search your entitled software by part number or part description... Browse "All products" available for download "Your preferred products" or "Products by brand."

In this instance, we have only two products. If we had more than 20, we'd see an alpha navigator. Choose the product you want to download. Select your operating system and language. Click *Go*.

Here you can review or change Version, Operating System and Language View and download associated products... Or, select individual files for download. You can also estimate download time based on your selections. Click *Download*.

Confirm or change your download location and download method. Agree to the terms and conditions. Click, *Download now*.

If you experience problems downloading software, please ensure you're using the latest version of your preferred browser. If problems persist, you may want to try an alternate browser.

Before leaving the *Download & media access* screen, take a few minutes to review your Preferences.

Confirm or change your Download and eNotification email settings.
