

The IBM Cúram Solution for Child Welfare

Configuration Capabilities

December, 2014

Configuration – What is it?

Configuration – What is it?

Configuration - “Using the System to Change the System”

Configuration - “Using the System to Change the System”

- **System Administration:** Users, Access Control, Programs, Provider Services
- **System Setup:** Code Tables, Properties, Document Templates
- **System Configuration:** Workflow, Scripted Questions, Assessments, Rules, Outcome Management, Dynamic Data Definitions, Milestones, Verifications, etc...

Configuration - “Using the System to Change the System”

- **System Administration:** Users, Access Control, Programs, Provider Services
- **System Setup:** Code Tables, Properties, Document Templates
- **System Configuration:** Workflow, Scripted Questions, Assessments, Rules, Outcome Management, Dynamic Data Definitions, Milestones, Verifications, etc...

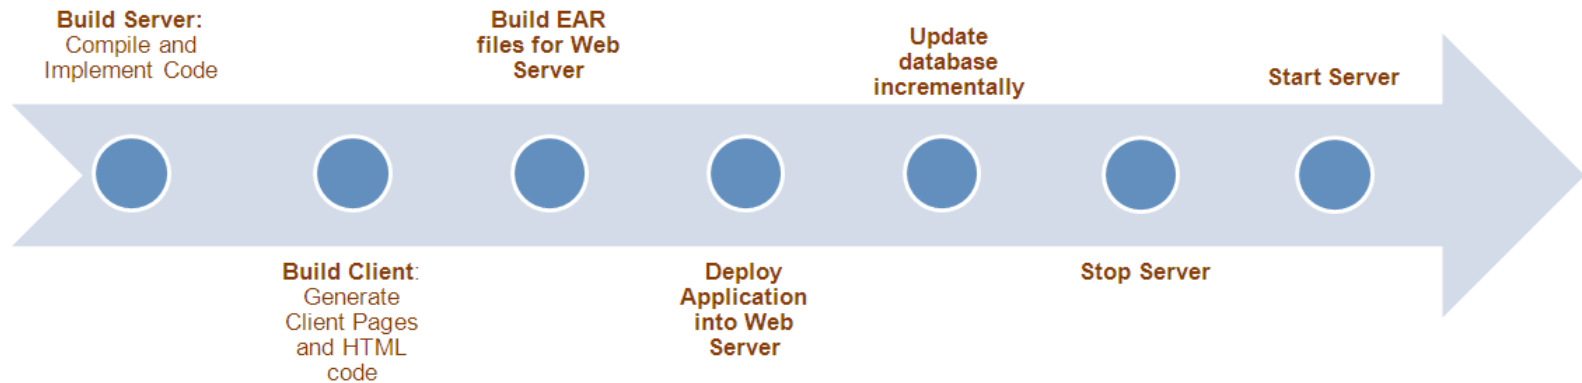

Versus

Customization - “Coding and Development”

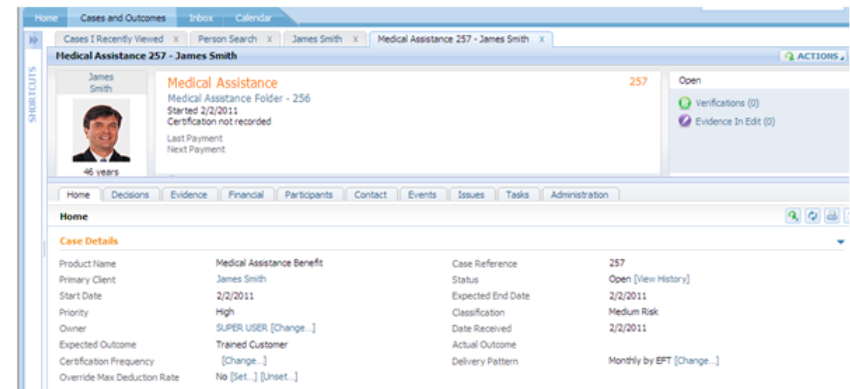

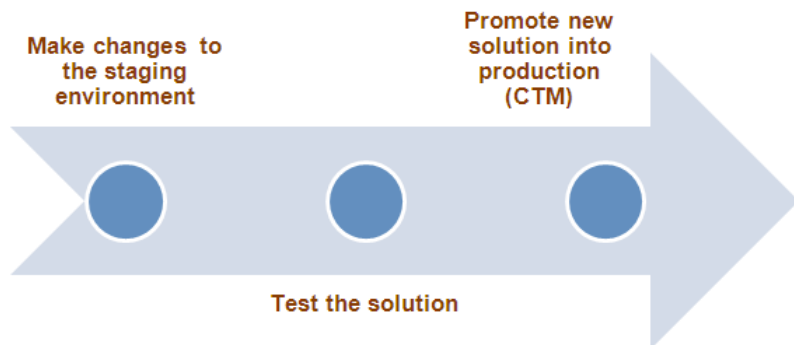

- System Customization: UML Model, Eclipse, Ant, Tomcat...
- Requires System Redeploy

Cúram offers streamlined configuration compared to traditional development

Traditional Development

Dynamic Configuration

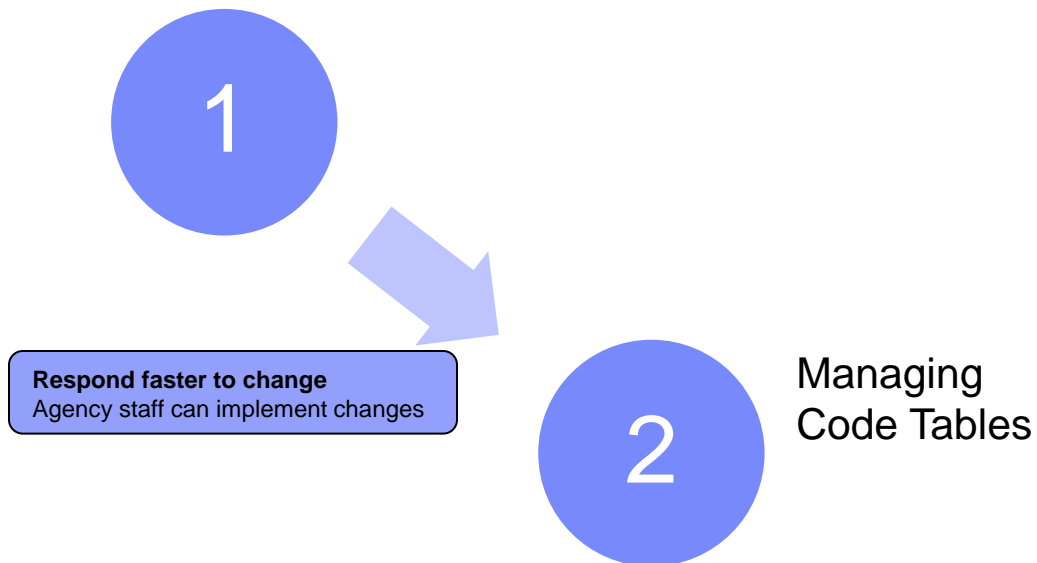

Configuration – What is it?

Respond faster to change
Agency staff can implement changes

Configuration – What is it?

Employees can contact (405) 425-3477 for updates on office closures or reduced services

SDM® Safety Assessment ? x

Safety Threats

Allegations

Were there allegations? * Yes ▼

Child Vulnerability Factors

Age 0-5 yrs <input checked="" type="checkbox"/>	Significant diagnosed medical or mental disorder <input type="checkbox"/>
School age, but not attending school <input type="checkbox"/>	Diminished mental capacity (e.g., developmental delay, non-verbal) <input type="checkbox"/>
Diminished physical capacity (e.g., non-ambulatory, limited use of limbs) <input type="checkbox"/>	

Safety Threats

Assess household for each of the following safety threats. Indicate whether currently available information results in reason to believe safety threat is present. Mark all that apply.

1. Caregiver caused serious physical harm to the child or made a plausible threat to cause serious physical harm in the current investigation, as indicated by: *

Serious injury or abuse to child other than accidental <input type="checkbox"/>	Caregiver fears he/she will maltreat the child <input type="checkbox"/>
Threat to cause harm or retaliate against the child <input checked="" type="checkbox"/>	Excessive discipline or physical force <input type="checkbox"/>
Drug exposed infant <input type="checkbox"/>	

2. Current circumstances, combined with information that the caregiver has or may have previously maltreated a child in his/her care, suggest that the child's safety may be of immediate concern based on the severity of the previous maltreatment or the caregiver's response to the previous incident. *

No ▼ ?

3. Child sexual abuse is suspected, and circumstances suggest that the child's safety may be an immediate concern. *

--Please Select-- ▼ ?

4. Caregiver fails to protect the child from serious harm or threatened harm by others. This may include physical abuse, sexual abuse, or neglect. *

SDM@ Risk Assessment

Neglect/Abuse Index

The risk assessment form is composed of two indices: the neglect assessment index and the abuse assessment index. Each answer provided during the assessment has an associated score which will be used to determine the total score for that index. The family's overall risk level is based on the highest score on either the neglect or abuse risk index.

R1. Current Report Is for* Help ?

R2. Prior Investigations* Help ?
 Prior Neglect
 Prior Abuse

R3. Household previously had an open family services or foster care case due to child abuse and/or neglect (voluntary or court-ordered).* Help ?

R4. Number of children involved in the current child abuse and/or neglect incident.* Help ?

R5. Prior injury to any child in the household resulting from child abuse and/or neglect.* Help ?

R6. Age of youngest child in the home.* Help ?

SDM@ Risk Assessment

Risk Levels

Neglect Risk Level: Medium
 Abuse Risk Level: Medium
 Overall Risk Level: Medium

Overrides

If there are no overrides, select "No Overrides"; risk level will remain the same. If there is a Policy Override, select the appropriate override; the risk level will become very high. If you select a Discretionary Override, the risk level will increase one level, and you must enter a reason in the box provided.

Page Title:	SDM@ Risk Assessment	Page Title ID:	QuestionPage.AssessmentDetails.Title

CONFIGURATION

The screenshot displays the IBM Cúram configuration tool interface for editing the RiskAssessment schema. The main window is titled "RiskAssessment" and includes tabs for "IEG Editor" and "Datastore Editor". The breadcrumb path is "SCRIPT: RiskAssessment - CERAssessment - 1" and "SCHEMA: RiskAssessment".

The interface is divided into several sections:

- Schema Outline:** A tree view on the left showing the hierarchy of entities and attributes. The "Assessment" entity is expanded, and "initialAssessmentInd" is selected.
- Schema Documents:** A central pane showing the "RiskAssessment" schema document. It includes buttons for "Add Entity", "Add Attribute", and "Add Child Entity". The "initialAssessmentInd" attribute is selected, and its details are shown in the right pane.
- Attribute Details:** A pane on the right showing the configuration for the "initialAssessmentInd" attribute. It includes fields for "Name" (initialAssessmentInd), "Description" (Indicates if this is the first time this assessment is being executed), "Domain Type" (IEG_BOOLEAN), and "Default Value".
- Problems:** A table at the bottom of the main pane, currently empty, with columns for "Description" and "Document".

The URL at the bottom of the browser window is: `//localhost:9044/Curam/en_US/DAAssessmentConfiguration_resolveOpenIEGEditorForCerAssPage.do?scriptVersion=1&o3ctx=4096&...o3rpu=AssessmentPlanningAdmin_listCERTSpecificationPage.do?o3ctx=4096`

CONFIGURATION

The screenshot displays the IBM Cúram configuration interface for a RiskAssessment rule. The main window is titled "RiskAssessment" and shows a "SCRIPT: RiskAssessment - CERAssessment - 1" and "SCHEMA: RiskAssessment". The interface includes a menu bar (File, Edit), a toolbar with "New Section" and "New Page", and a "Condition" dropdown set to "R1. Current Report Is for".

Below the main window, there are several panels:

- Schema Outline:** Shows a tree view of the schema structure, including "Application", "Assessment", and "initialAssessment".
- Schema Documents:** Shows the "RiskAssessment" schema document.
- * RiskAssessmentRuleSet:** A panel for configuring rules, with tabs for "Business" and "Technical". It shows a list of attributes for the "Neglect:posit...Score" rule, including "reference", "score", "classification", "finalFactor", "Factor", "FactorList", "Final", "Group", "Neglect", "reference", "score", "totalScore", "currentReportScore", "priorInvestigationsScore", "priorNeglectScore", "previousCaseScore", "numChildrenInvolvedScore", "ageYoungestChildScore", "medicallyFragileScore", "positiveToxicologyScore", "physicalDisabilityScore", and "pcConsistentPhysicalCareScore".
- Rule Configuration:** A diagram showing the configuration of the "medicallyFragileScore" rule. It includes a "Choose" dropdown, a "When" condition, a "Test" block with an "Equals" operator, and a "Result" block with a value of "1". The "Test" block contains a "medicallyFragile" attribute and a "group" attribute, both with a "True" value. The "Result" block contains a "1" value.
- Technical Panel:** A panel on the right side of the rule configuration, showing a list of technical actions and operators, including "Create", "Search", "Fixed List", "Property", "Custom Expression", "Existence Timeline", "Timeline", "Interval", "Combine Success", "Call", "Period Length", "ALL", "ANY", "This", and "Sort".

The bottom status bar indicates "Properties, Validations and Search Results".

BEFORE

The screenshot displays the IBM Cúram software interface for a client named Felicia Crowley. The interface includes a navigation bar with tabs for Home, Cases and Plans, Inbox, and Calendar. Below this, there are tabs for Child Welfare Case Search, Felicia Crowley, and Transitional Independent Living. The main content area shows the client's profile, including a placeholder for a photo, the name Felicia Crowley, address (307 W, Johnson Street, Madison, Wisconsin, 53703), gender (Male), and age (17 years). There are also status indicators for 'Not Recorded' and a list of actions: No Intake cases, No Investigation cases, and Ongoing. Below the profile, there are tabs for Home, Evidence, Care and Protection, Issues and Proceedings, Contact, Medical, Financial, Referrals, and Administration. The Evidence tab is selected, showing a table of evidence items. A 'New...' button is highlighted in a red box.

CONFIGURATION

The screenshot displays the IBM Cúram Social Program Management Administrator interface. The top navigation bar includes the title 'IBM Cúram Social Program Management Administrator', a user welcome message 'Welcome ADMINISTRATION USER', and links for 'Preferences' and 'Log out'. Below the navigation bar, there are tabs for 'Home', 'Administration Workspace', 'Inbox', and 'Calendar'. The main content area is titled 'Runaway Risk - 1/1/2014' and is divided into two sections: 'Model' and 'User Interface'. The 'Model' section shows a list of attributes for 'Runaway Risk':

- participant : Participant Attribute
- runawayRisk : Boolean
- fromDate : Date
- toDate : Date

The 'User Interface' section shows the 'Evidence Properties' configuration for 'Runaway Risk'. The 'General' tab is active, displaying the following settings:

- Evidence Type Name: Runaway Risk
- Options:
 - Read Only:
 - Correction Only:
 - Save and New:
 - Related CP Attribute: participant
 - Business Start Date: fromDate
 - Business End Date: toDate
 - Create Dialog Width: [Empty field]
 - Modify Dialog Width: [Empty field]
- Online Help: [Link]
- Calculated Attributes: [Link]
- Description: [Link]

The left sidebar contains a navigation menu with categories such as 'Users', 'Organization', 'Event Adaptor', 'Participants', 'Case', 'Rules and Evidence', 'Intelligent Evidence Gathering', 'Dynamic UIM', 'Verifications', 'Service Plans', 'Case Audits', 'Workflow', 'Process Monitoring', 'Configuration Transport Manager', 'User Interface', 'Financial', 'Provider Management', 'Decision Assist', and 'Social Enterprise Collaboration'.

CONFIGURATION

The screenshot displays the IBM Cúram Social Program Management configuration interface. The top navigation bar includes the application name, user role (Administrator), and user information (Welcome ADMINISTRATION USER). The main interface is divided into several sections:

- Navigation and Shortcuts:** A left sidebar contains a 'Shortcuts' menu with categories like Users, Organization, Event Adaptor, Participants, Case, Rules and Evidence (highlighted), Intelligent Evidence Gathering, Dynamic UIM, Verifications, Service Plans, Case Audits, Workflow, Process Monitoring, Configuration Transport Manager, User Interface, Financial, Provider Management, Decision Assist, and Social Enterprise Collaboration.
- Case Context:** The main area is titled 'Runaway Risk - 1/1/2014'. It features tabs for 'Model' and 'User Interface', and a list of clusters including Data Attribute Fields, Calculated Attribute Fields, Address Clusters, Related Participant Clusters, Related Employment Cluster, and Comments Cluster (highlighted).
- Participant Configuration:** A section titled 'Participant' contains a text prompt: 'If the is a case participant, please select from the list of case participants below.' Below this is a dropdown menu labeled 'Name Participant'.
- Runaway Risk Configuration:** A section titled 'Runaway Risk' includes a date range selector with 'From' and 'To' fields, and a checkbox labeled 'Is Runaway Risk?'.
- Comments Cluster Properties:** A bottom section titled 'Comments Cluster Properties' has tabs for 'Properties' and 'Online Help'. It contains fields for 'Title' (with value 'Comments') and 'Title ID' (with value 'Comments.Cluster.Title.ID5').

CONFIGURATION

The screenshot displays the IBM Cúram Social Program Management Administrator interface. The top navigation bar includes the title 'IBM Cúram Social Program Management Administrator', the user 'Welcome ADMINISTRATION USER', and links for 'Preferences' and 'Log out'. Below the navigation bar, there are tabs for 'Home', 'Administration Workspace', 'Inbox', and 'Calendar'. The 'Administration Workspace' tab is active, showing a 'Shortcuts' sidebar on the left and a main content area on the right.

The 'Shortcuts' sidebar lists various configuration areas, with 'Rules and Evidence' highlighted. The main content area is titled 'Dynamic Evidence' and contains a list of evidence types. The 'Runaway Risk' item is highlighted with a green border.

AFTER

The screenshot displays the IBM Cúram Social Program Management interface. The user is Paula Archer, a Child Services Caseworker. The main window shows the profile for Felicia Crowley, a 17-year-old male living at 307 W, Johns. A 'New Evidence' dialog box is open, prompting the user to 'Select an evidence type for creation'. The dialog contains a table with the following data:

Type	Description
Addresses	Record addresses for the client such as their private and mailing address.
Bank Accounts	Record details of any bank accounts held by the client.
Contact Preferences	Records the preferred contact type when corresponding and language.
Email Addresses	Record email addresses that can be used when communicating with the client.
Gender Details	Record the gender of the client.
Identifications	Record different types of identification for the client such as passport.
Names	Record any names the client uses such as registered name or alternative names.
Phone Numbers	Record phone numbers such as personal and mobile numbers.
Relationships	Participant Relationships.
Runaway Risk	Record if this person is a Runaway Risk.

The 'Runaway Risk' row is highlighted in green, and a yellow 'Add...' button is visible next to it. The background interface shows a navigation menu with 'Home', 'Cases and Plans', 'Inbox', and 'Calendar'. The 'Evidence' section is active, and the 'Latest Activity' panel on the right shows several entries: 'Applied by Paula Archer on 11/5/2014'.

AFTER

The screenshot displays the IBM Cúram Social Program Management interface. The user is Paula Archer, a Child Services Caseworker. The main window shows the profile for Felicia Crowley, a 17-year-old male resident of Madison, Wisconsin. A 'New Runaway Risk' dialog box is open, allowing the user to record a runaway risk event. The dialog includes the following fields and options:

- Received Date ***: 11/5/2014
- Participant**: Felicia Crowley (17)
- Runaway Risk**: (checked)
- From ***: 11/1/2014
- To ***: (empty)
- Is Runaway Risk?**:
- Comments**: Felicia is considered a Runaway risk

The dialog box has 'Save' and 'Cancel' buttons at the bottom. The background interface shows a navigation menu with 'Home', 'Cases and Plans', 'Inbox', and 'Calendar'. The 'Evidence' section is active, showing a list of evidence types. The 'Latest Activity' section on the right shows a list of actions performed by Paula Archer on 11/5/2014.
