IBM social software products are being used by more than 6 million people around the world

- Lotus Connections debuted in 2007 as the the **fastest growing** organic software product in IBM history
- IBM is the first and only vendor to provide an integrated social software platform for business
- Wainhouse Research:
enterprise social networking market is expected to **grow 40%** each year
- Almost **70%** companies are seeing E2.0 value according to recent McKinsey, citing more innovative products and services, better access to knowledge, higher revenues & more

Forrester ranks IBM among top of the Collaboration Platforms

“IBM Lotus Connections marked an early entry into enterprise social tools, and that has helped keep the **IBM Lotus offering at the head of the pack in functionality.** IBM’s modular approach will allow it to continue to introduce new functionality aggressively.”

--The Forrester Wave™: Collaboration Platforms, Q3 2009, Forrester Research, Inc., August 6, 2009.

Connections 2.5

Early rave reviews of Lotus Connections

nothing like it to get a pulse of what is going

on...
the Lotus Connections demo is genuinely impressive

Lotus Connections is kind of really awesome

the profile board is simply awesome. I get value every day; multiple times a day - both from things I post that are responded to as well the 'intentional serendipity' I experience seeing what others are saying/doing/learning

Lotus Connections is your Social Intranet Solution

I love keeping file sharing out of the inbox

I'm liking the updates...particularly in community forums

as a twitter addict I love being able to quickly share information internally about what I am working on, and being able to include more specifics than twitter allows

Microblogging and Files - the two just increase my productivity in incalculable ways

Social file sharing changed how I work

talking with IBM lotus about advances in lotus connections, quickr, et al. Lots of great stuff

Lots of good serendipitous connections made and **it's making me less reliant on email**

Activities ... just in time venue to work collaboratively ... outside of endless email
