

“Mobile Applications – Turning Business Process into ROI.”

Countermind and IBM host a Web Conference on October 8, 2003 at 1pm ET

Please see website for more details – <http://www.countermind.com/events/upcomingevents.htm>

Insight gained in hours puts you ahead for years.

Can you see it?

Online Insight. On Demand.

No matter what your business, Countermind and IBM can help you become an on demand company. One that pleases customers and suppliers while increasing profitability – on demand. Come see how at our upcoming Web event.

At Countermind, our business is dedicated to helping businesses like yours benefit from mobile technology. By automating specific functions such as employee dispatch & routing, facilities management, service calls, package delivery or invoicing, you'll reduce expenses and increase revenue. Our proven approach provides the usability employees demand and flexibility IT requires. Learn more about how our Mobile Intelligence products can help you.
