

LOTUS DAY 2009

3 grudnia 2009 r., Warszawa

IBM ECM – synergia pracy grupowej i zarządzania treścią w przedsiębiorstwie

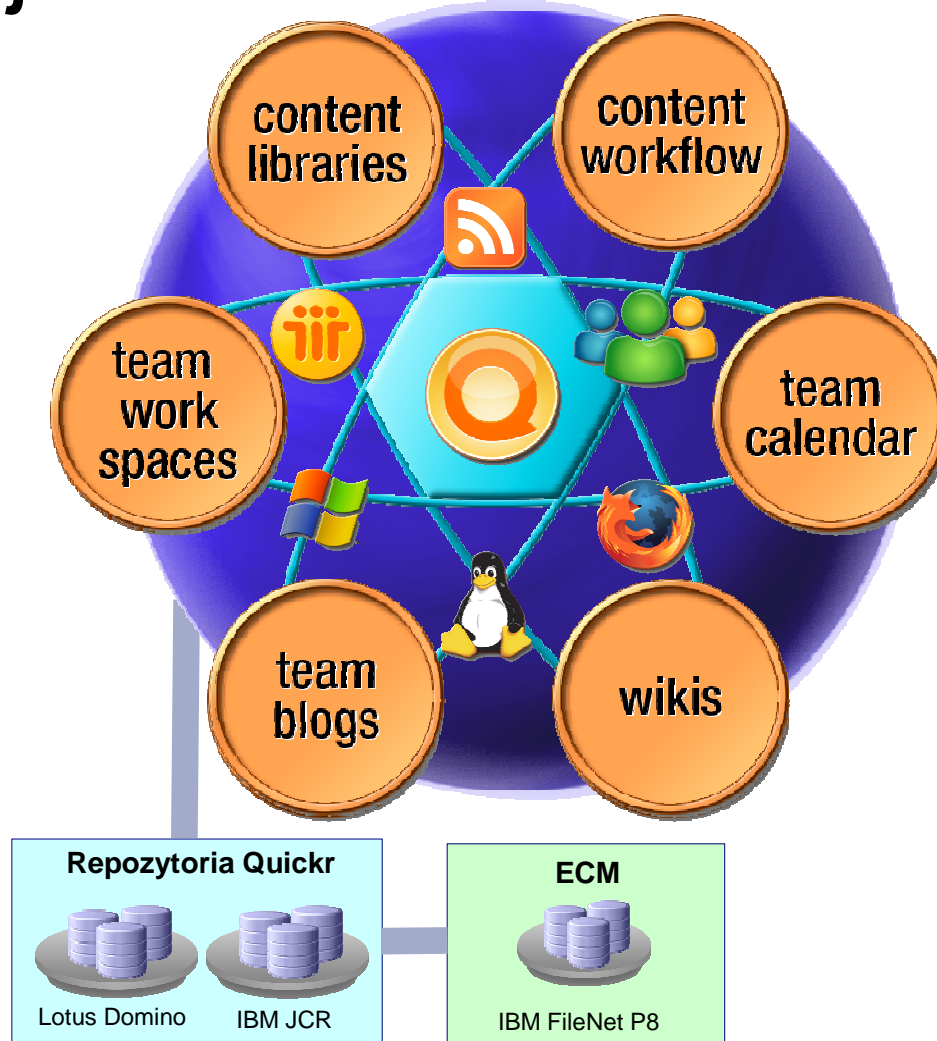

Integracja Quickr z ECM

Lotus Quickr

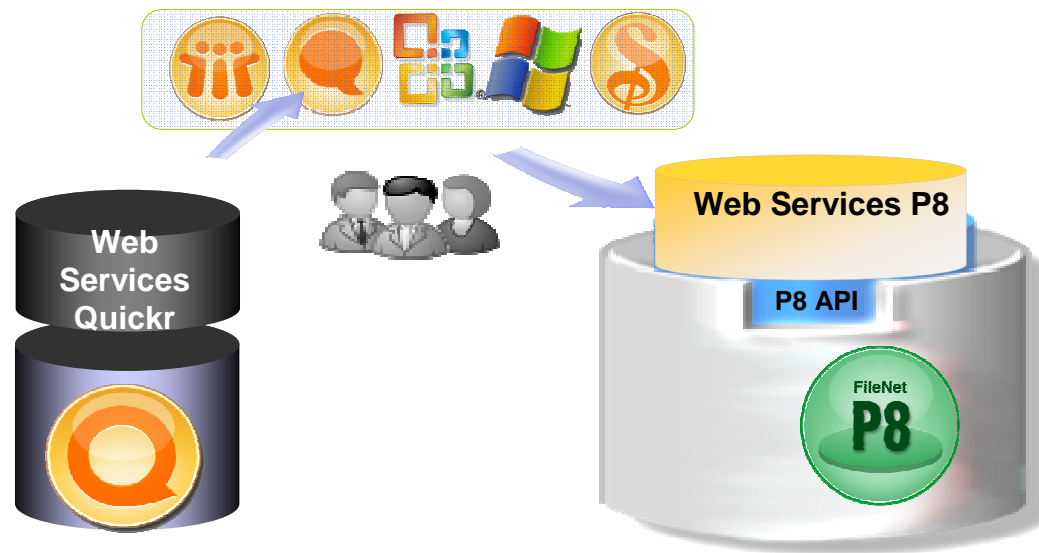

- IBM FileNet Services for Lotus Quickr
- IBM FileNet Collaboration Edition

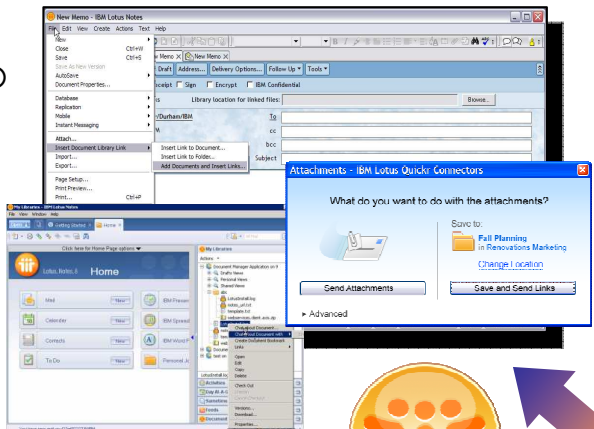

Korzyści płynące z integracji

- Intuicyjny, łatwy do przyswojenia interfejs Web Lotus Quickr
- Nieograniczone możliwości repozytorium
- Pełny audyt i zgodność z wymogami prawnymi – fiskalnymi
- Polityka centralnego repozytorium
- Wsparcie dla procesów biznesowych
- Skalowalność
- Zaawansowane wyszukiwanie informacji

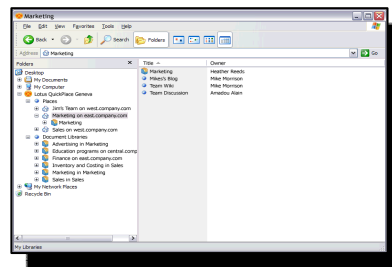

Lotus Quickr - konektory

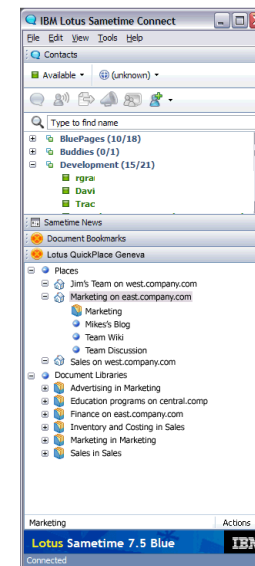

Lotus Notes®

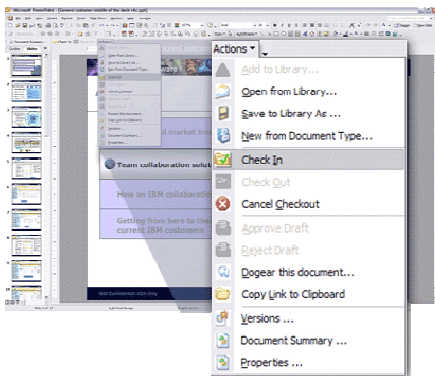

Windows Explorer / "Moje dokumenty"

Lotus Sametime®

Microsoft Office

Interfejs Webowy Quicker

IBM Lotus Quickr

The fastest way to share everyday content across connected teams.

IOD Training Roundtable

Hi Team!

Let's get together over lunch and share what we gathered at IOD!

Thanks,
Jasmine

Begin training plans for HR rollout

Hi team,

Our HR Quickr rollout is scheduled for January, but they are so excited. Let's see if we can roll this out faster. Please add notes to the blog about thoughts for shortening the schedule.

Thanks,
Jasmine.

Legal team Quickr place launched!

Team, the lawyers and the rest of the legal team are so excited about their new 'toy'!
The CEO is so pleased with the lowered response time that he has added an extra bonus to this month's paycheck. Well done!

Project Purpose

IBM® FileNet® P8 and Lotus® Quickr technologies are complimentary solutions that, when used together, provide an environment where business users can easily collaborate on work-in-process documents and tasks, yet comply with content and compliance initiatives across the enterprise.

IBM Quickr Services for P8 and IBM Quickr Services for CM8 give organizations the ability to combine Quickr's familiar interface with the powerful content, process, and compliance infrastructure provided by the IBM FileNet P8 platform.

IBM Quickr Services for P8 and IBM Quickr Services for CM8 leverage the Quickr API web services layer to give organizations the ability to take documents located in Quickr document libraries and import them into an IBM ECM repository. Conversely, it also provides for content found in an IBM ECM repository to be exposed to Quickr users easily via the Quickr UI. This functionality enables administrators to capture vital information assets from Quickr sites and leverage them with the content, process, and compliance infrastructure provided by the ECM platform.

Our goal is to provide seamless product integration that satisfies customer and service requirements and the needs of all the users of the product.

IOD Training Roundtable

Hi Team!

Let's get together over lunch and share what we gathered at IOD!

Thanks,
Jasmine

Begin training plans for HR rollout

Hi team,

Our HR Quickr rollout is scheduled for January, but they are so excited. Let's see if we can roll this out faster. Please add notes to the blog about thoughts for shortening the schedule.

Thanks,
Jasmine.

Legal team Quickr place launched!

Team, the lawyers and the rest of the legal team are so excited about their new 'toy'!
The CEO is so pleased with the lowered response time that he has added an extra bonus to this month's paycheck. Well done!

Lotus Quickr

Would you like to work with the current open document?

Yes - continue working with current document
No - download the file from the server

Yes No

The image shows a screenshot of the Lotus Quickr interface. At the top, there is a title bar with the file name 'Quickr_Services_Overview20070422.ppt' and a 'Drawing To...' window. Below the title bar is a ribbon with tabs for 'Home', 'Insert', 'Design', 'Animations', 'Slide Show', 'Review', 'View', 'Add-Ins', and 'Format'. A custom toolbar is visible below the ribbon, containing 'Bluetooth', 'Lotus Tools', 'Check In', and 'Check Out' buttons. The 'Check Out' button is highlighted with a mouse cursor. The main workspace displays a presentation slide with an IBM logo and a yellow ribbon graphic that says 'Stronger together 2007'. A dialog box titled 'Lotus Quickr' is overlaid on the slide, asking 'Would you like to work with the current open document?' with two options: 'Yes - continue working with current document' and 'No - download the file from the server'. The 'Yes' button is highlighted. The bottom status bar shows 'Slide 0 of 42', the presentation title 'PD_Symposium_2007_presentation', and a zoom level of 52%.
