# Preface

This document describes how to install and run the Rational Unified Process®, or RUP®, on Unix machines.

This release includes the published Classic RUP website and RUP Builder, which allows project managers to create customized configurations of RUP suitable for their projects.

## Audience

This guide is intended for project managers, process content developers, process engineers and anyone installing RUP on the machines of those individuals.

## Other Resources

For more information on configuring RUP for your project, see the RUP activity Tailor the Process for the Project, RUP Builder tool mentors in RUP, RUP Builder on-line help and discussion groups at the RUP Plug-in Exchange on the Rational Developer Network (<http://www.rational.net/rupeexchange>).

For more information on training opportunities, see the Rational University Web site: <http://www.rational.com/university>.

## Contacting Rational Technical Publications

To send feedback about documentation for Rational products, please send e-mail to our technical publications department at [techpubs@rational.com](mailto:techpubs@rational.com).

## Contacting Rational Technical Support

If you have questions about installing, using, or maintaining this product, contact Rational Technical Support as follows:

Your Location	Telephone	Facsimile	E-mail
North America	(800) 433-5444 (toll free) (408) 863-4000 Cupertino, CA	(781) 676-2460 Lexington, MA	support@rational.com
Europe, Middle East, Africa	+31 (0) 20 4546 200 Netherlands	+31 (0) 20 4546 202 Netherlands	support@europe.rational.com
Asia Pacific	+61 2 9419 0111 Australia	+61 2 9419 0123 Australia	support@apac.rational.com
World Wide Web	www.rational.com		

**Note:** When you contact Rational Technical Support, please be prepared to supply the following information:

- Your name, telephone number, and company name
- Your computer's make and model
- Your operating system and version number
- Product release number and serial number
- Your case ID number (if you are following up on a previously-reported problem)

## Hardware and Software Requirements

---

### System Requirements

Table 1

Item	Requirements and Recommendations
<b>Operating Systems</b>	<ul style="list-style-type: none"><li>• Solaris 9</li><li>• Solaris 8</li><li>• Solaris 7</li><li>• Solaris 2.6</li><li>• HP-UX 11.11</li><li>• HP-UX 11.0</li></ul>
<b>Browsers</b>	<ul style="list-style-type: none"><li>• Netscape Navigator 7.0</li><li>• Netscape Navigator 4.72 - 4.78</li><li>• Mozilla 1.0</li></ul>
<b>Hardware</b>	<ul style="list-style-type: none"><li>• 500-600 MHz or higher</li><li>• 256-512+ MB RAM;</li><li>• more memory generally improves performance</li><li>• Swap space: 2 x physical memory</li><li>• 1024 x 768 X 256-color video resolution, or higher; high color or true color recommended</li><li>• Microsoft mouse or compatible pointing device</li></ul>
<b>Disk Space to Install</b>	<ul style="list-style-type: none"><li>• 100 Mb</li></ul>

# Installing the Rational Unified Process

---

The Rational Unified Process is installable from the Unix CD v2003.06.00 that came with your RUP or Rational Suites package.

- 1 Create a directory for Rational products.
- 2 Run the rs\_install batch file from the CD
- 3 A set of preliminary instructions for navigating through the installation is provided. Press "Enter" to continue.
- 4 Details on install location is given. Press "Enter" to continue.
- 5 If previous Rational products has been installed, their location will be displayed. Select "0" to choose a new install location, and provide the full path to the directory created in step 1, e.g. "/space/home/username/Rational"
- 6 The Rational License agreement is displayed. After reading through the agreement, press "Yes" to continue with the installation, and "No" to quit the installation.
- 7 Press "Yes" if you wish to see this license agreement next time you install a Rational Product. Press "No" otherwise.
- 8 The Third Party License agreement is displayed. After reading through the agreement, press "Yes" to continue with the installation, and "No" to quit the installation.
- 9 Select from the list of products, "Rational Unified Process". Note, Rational Unified Process is also installed when you select the Rational Suite Development Studio for Unix product.
- 10 Once everything has been installed go to the top level directory (in our case Rational) and type either:
  - ¶ "source rs\_setup.csh" (for csh) OR
  - ¶ ". rs\_setup.ksh" (for ksh)

This will set the environment for running the Suite and will enable commands that can be used with the Rational applications.

The above instructions apply primarily when installing RUP and RUP Builder from a Rational Suite UNIX CD. For instructions of how to install RUP and RUP Builder from a point product CD, please refer to the README file included on that CD.

## Release Notes

---

View the file `rup_readme.html`, which will appear in the `RationalUnifiedProcess` folder in the directory you created in step 1.
