Portail et suite collaborative IBM Lotus Notes/Domino

Agenda

→ Lotus Notes & Domino 6.5.1 et roadmap

Portail : enjeux et solution IBM Websphere Portal

Valoriser son environnement Domino avec IBM WebSphere Portal

Innovation et continuité dans les solutions collaboratives IBM

Productivité au niveau de l'entreprise

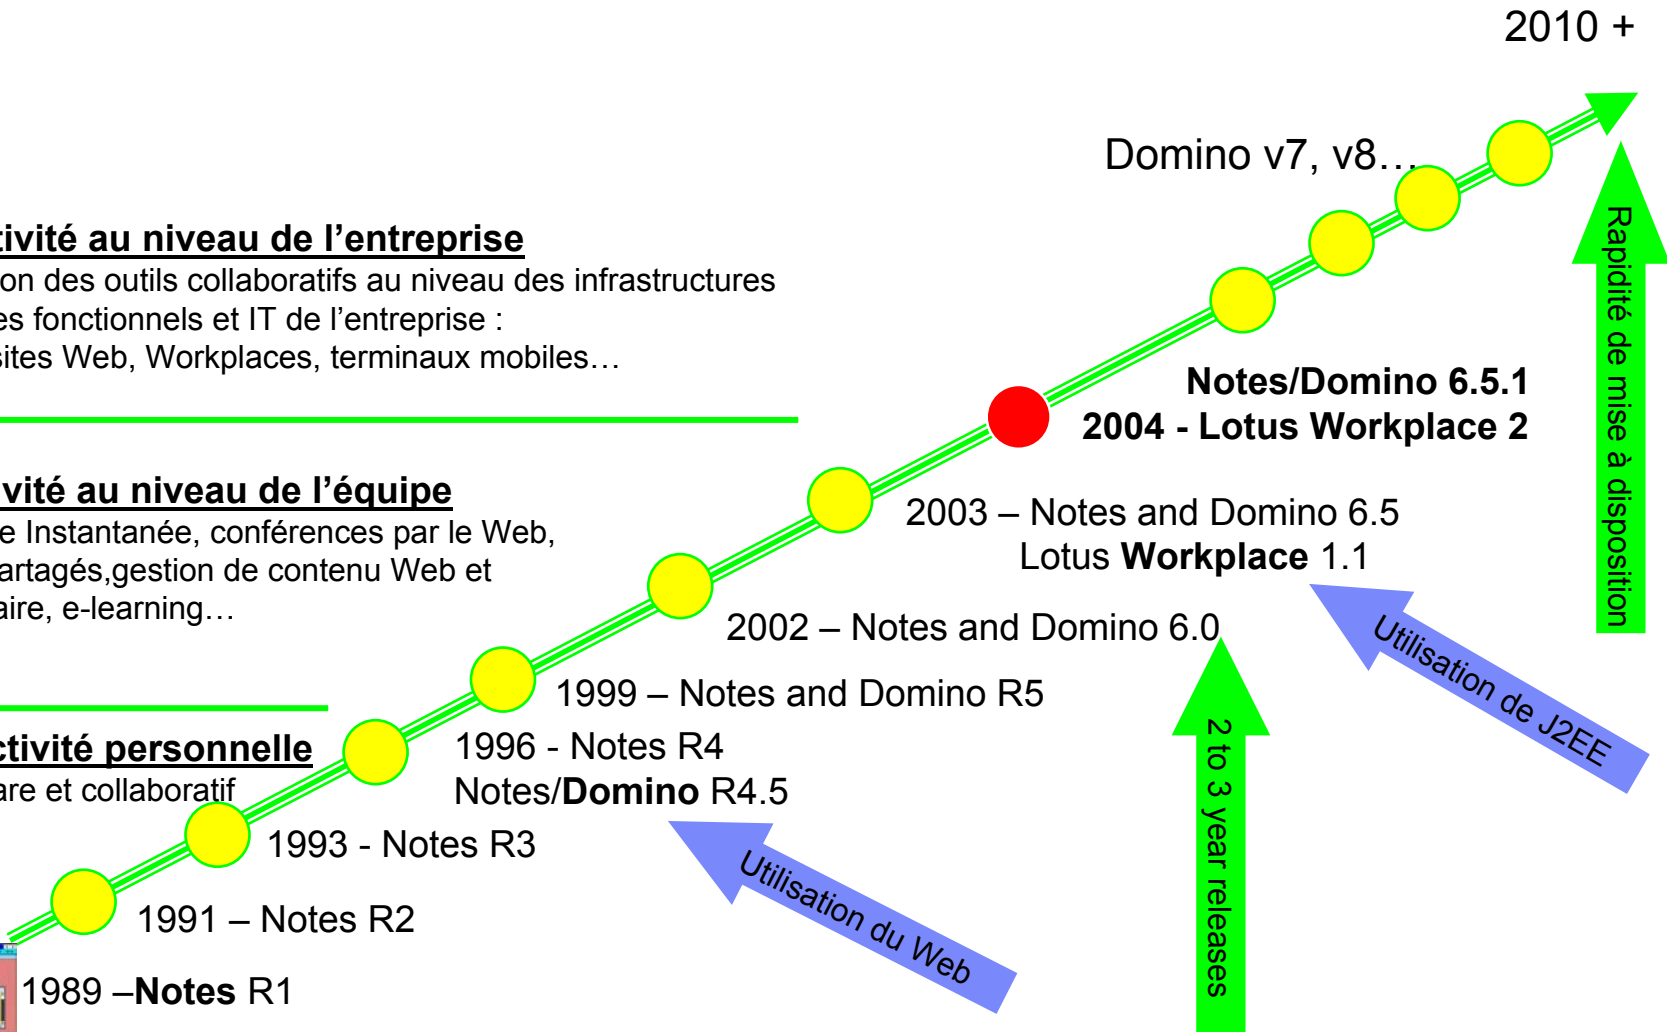

Propagation des outils collaboratifs au niveau des infrastructures de services fonctionnels et IT de l'entreprise :
Portails, sites Web, Workplaces, terminaux mobiles...

Productivité au niveau de l'équipe

Messagerie Instantanée, conférences par le Web, espaces partagés, gestion de contenu Web et documentaire, e-learning...

Productivité personnelle

Groupware et collaboratif

Homogénéisation de la gamme avec la version 6.5.1

- **Notes/Domino components**

 - Lotus Notes and Domino

 - Domino Designer

 - Lotus Domino Toolkit for WebSphere Studio

 - Domino Web Access (iNotes)

 - Domino Access for Outlook **NEW!!!**

- **Extended products**

 - Lotus Instant Messaging and Web Conferencing (Sametime)

 - Lotus Team Workplace (QuickPlace)

 - Lotus Domino Document Manager (Domino.Doc)

 - Lotus Workflow

 - Lotus Enterprise Integrator

 - Lotus Workplace Web Content Management

- **Portlets**

 - New or enhanced portlets for the above products

 - Domino Web Application Portlet

 - Sample pages that integrate the above to resemble Lotus Workplace

From: Arthur Fontaine/AlleCorp **To:** Alan Lepofsky/AlleCorp
Subject: Domino Express is a great solution for the SMB Market **Cc:**

<http://lotus.com/products/product4.nsf/wdocs/dominoexpress>

IBM Lotus Domino Express

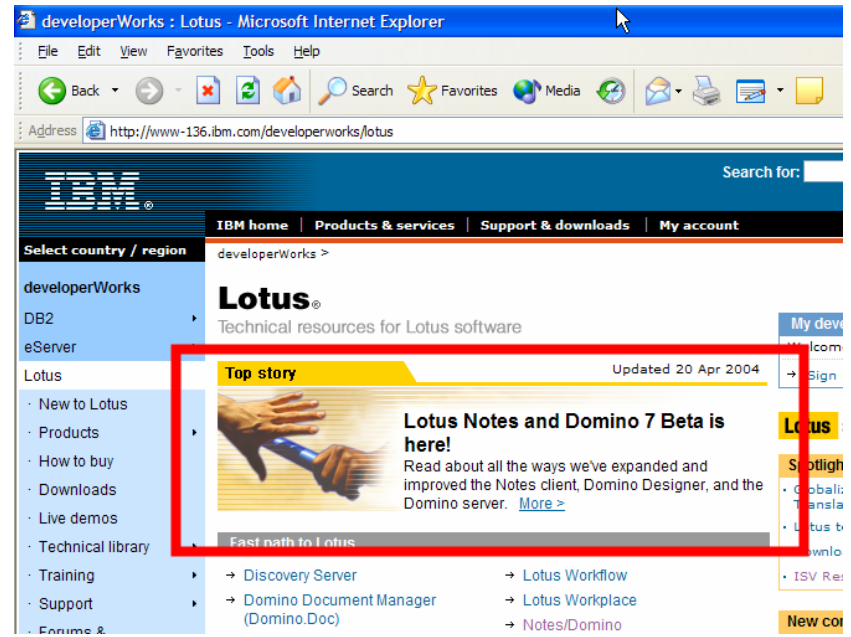

- Offerings designed to make it easy for small and medium business (SMB) organizations to acquire, deploy, and use the same rock-solid messaging, scheduling and solutions leveraged by large organizations.
- Pricing, packaging, and promotion are optimized for small and mid-sized organizations.
- Available only for companies that have 1000 employees or less.

Domino Collaboration Express (purchased per user, 1-1000)

- \$119 per user (SRP US dollars) / \$89.25 per user for competitive trade up (SRP US dollars)
- Allows customers to use both the messaging and collaborative capabilities of Domino.
- Customers can choose to access Domino via any of the Lotus Notes client solutions

Notes Futures – Plans for Release 7

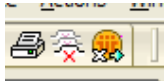

- Productivity enhancements
 - Increased presence awareness (C&S, To Do, Discussion, and TeamRoom)
 - Add e-meeting capability to an existing meeting
 - Asynchronous (non-blocking) on database open
 - Auto processing accept – double book conflicts
- Usability enhancements
 - Archive/Cleanup Utility for Calendar Entries
 - Sort by subject
- Microsoft integration
 - Updated viewers / filters for Office 2003
- Interoperability with Workplace Instant Messaging

MS Office SmartTag support

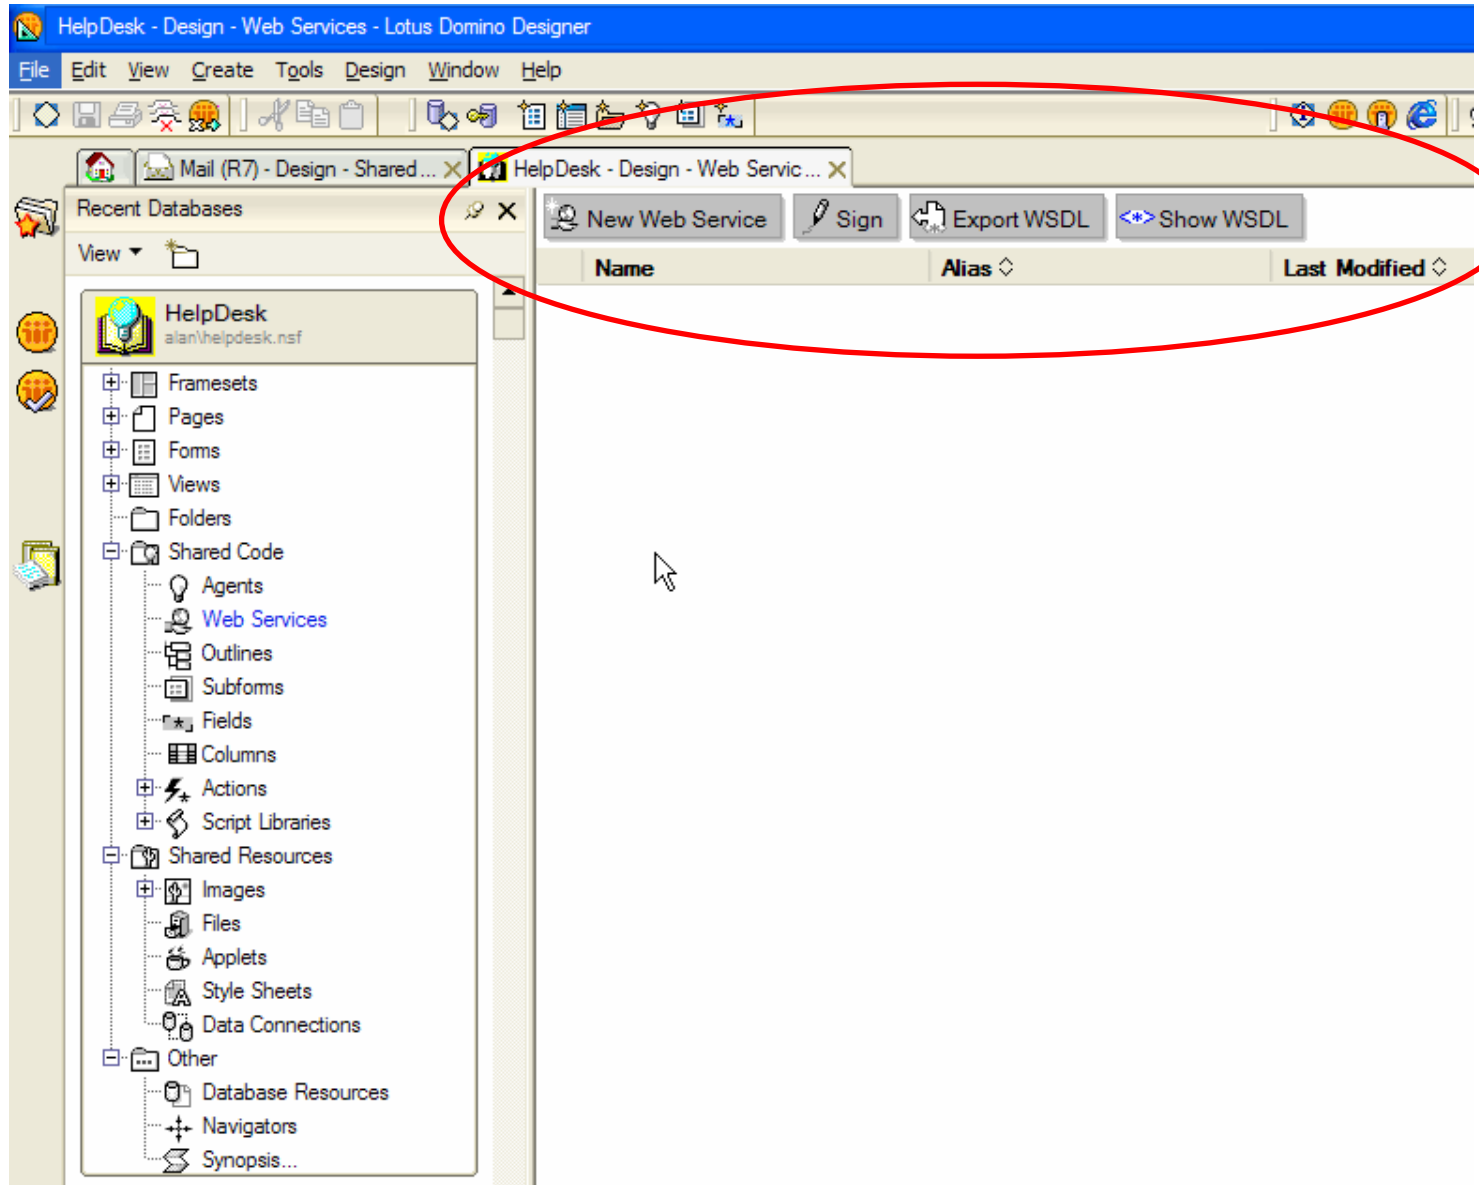

Additional SPAM handling rules

Any information about future releases may change before time of shipping

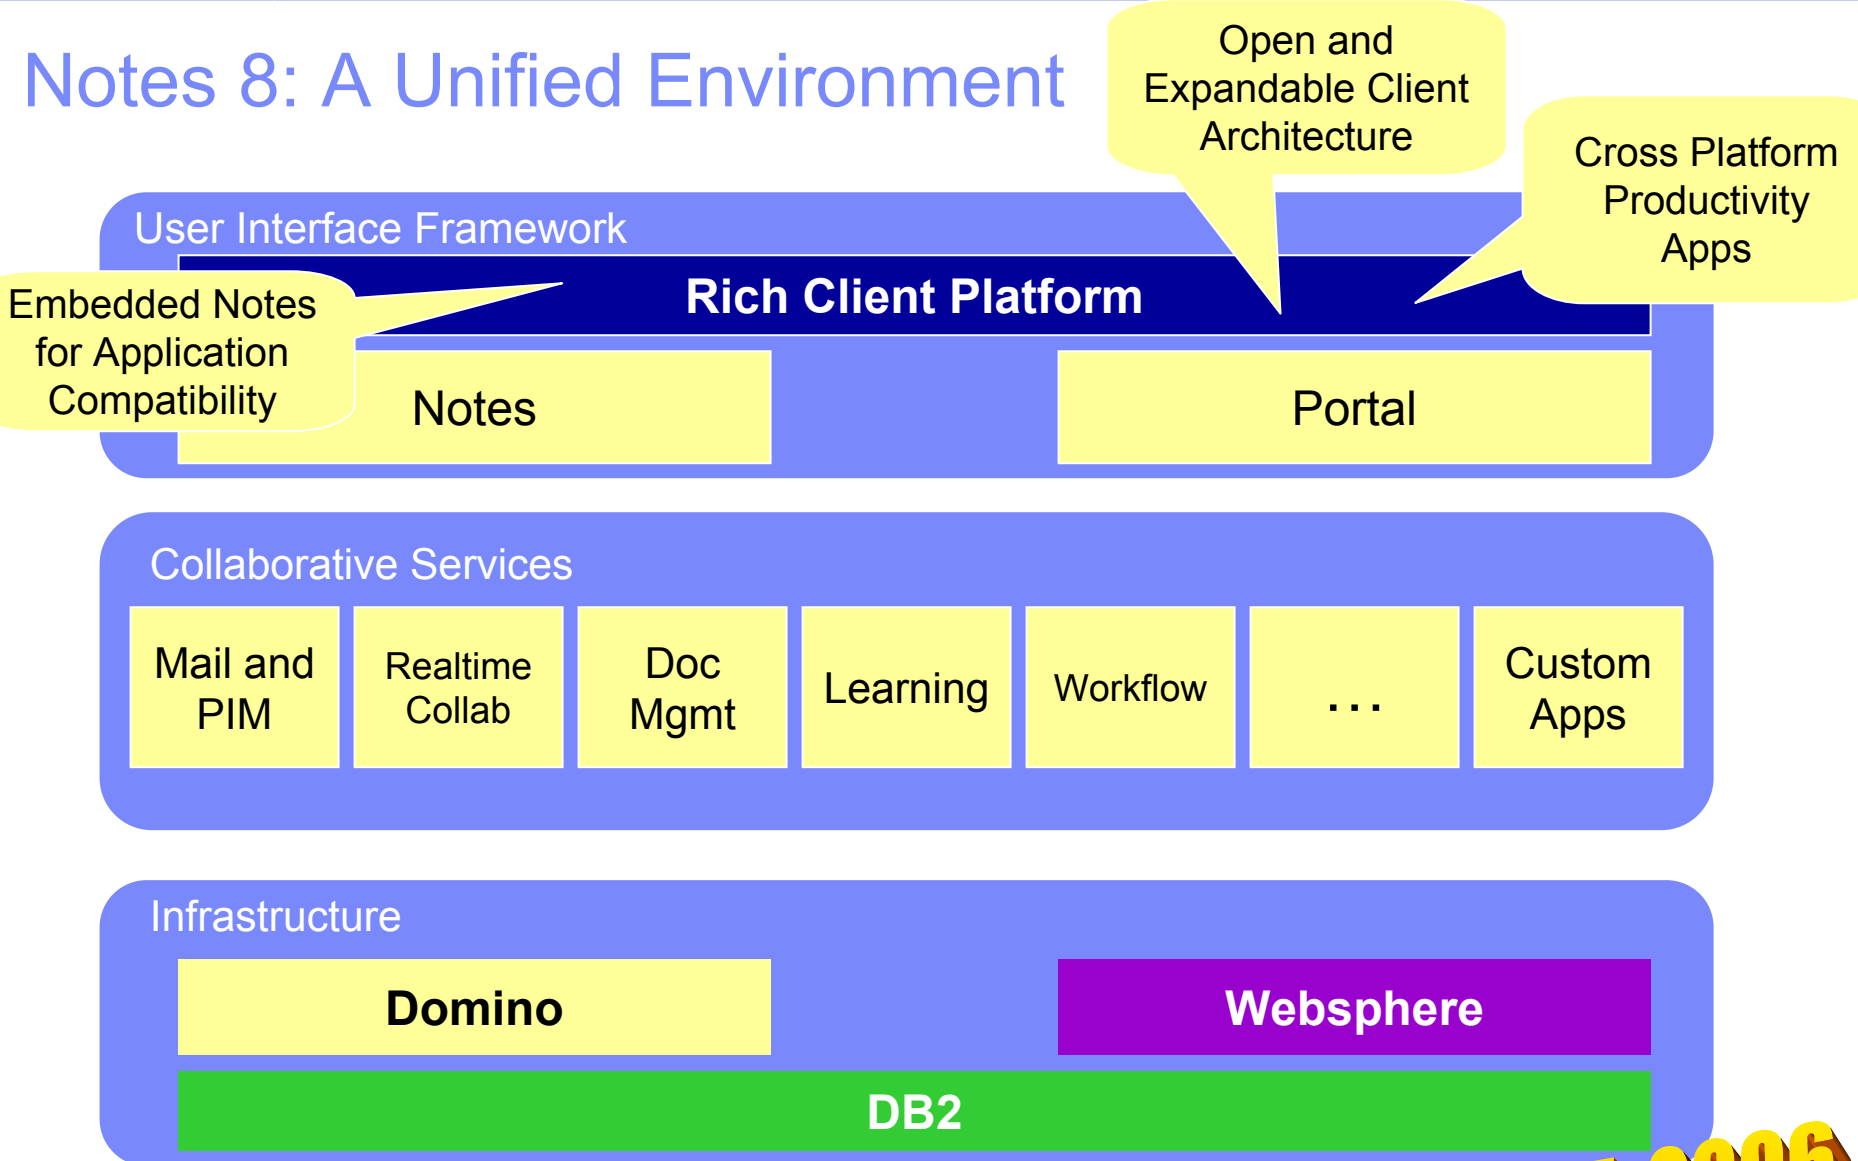

Domino Futures – Plans for Release 7

- Performance Improvements
 - Tuning taking place across code base
 - Goal is to increase capacity by 25-50% on same hardware as D6.5
 - 25% overall CPU utilization reduction
- DB2 available as alternative data store on a per db basis
- Domino Domain Monitoring (DDM) a.k.a “one stop admin”
- Web Admin port to Mozilla
- Smart Upgrade enhancements
- Client policy Administration
- Disclaimers for outbound internet messages
- Improved MIME->CD conversion fidelity
- S/MIME for DWA

Any information about future releases may change before time of shipping

In Conclusion

- The experts agree, IBM delivers the best messaging and collaboration products in the industry.
- 6.5.1 represents a great shift in TCO focused releases
- Lotus is focused on enabling collaboration throughout your organization.
- Start enabling awareness into your Domino applications today!
- Make sure to test ND7 Milestone1

Le portail est un point unique d'accès personnalisé et sécurisé aux applications, processus, personnes et contenu

Employés, clients, partenaires

Optimisation

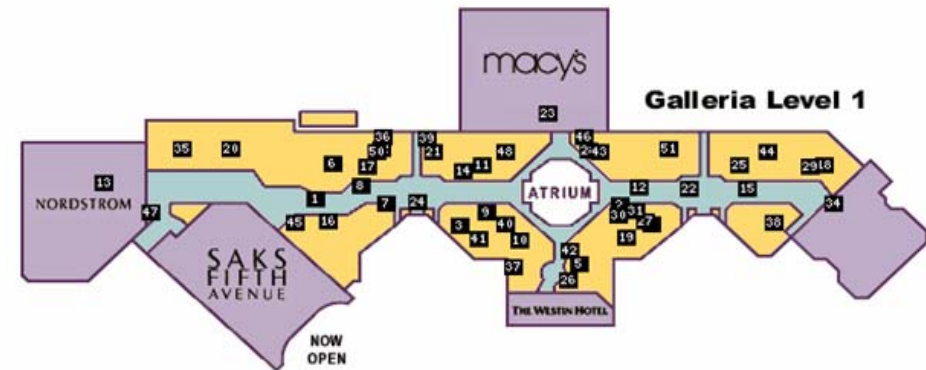

Pourquoi un portail ?

Direction du groupe = IT et fonctionnels

- Comment démarrer ?
- Quel rayon déployer en premier ?
- Quelle organisation du magasin ?
- Phase 2
- Phase 3

Client = Utilisateur final

- Chaque client à des attentes différentes
- Besoin de services communs (ex : facilité d'accès au parking)

Direction du magasin = Business Unit

- Accroître le trafic pour améliorer les ventes
- Mise en oeuvre du Self-service à moindre coûts
- Fournir des services communs : parking, sécurité, caisse...

Interface utilisateur

Navigation simple & intuitive à partir d'onglets / pages

Chaque page est partagée en zones visuelles, appelées **Portlets**, pour séparer les composants fonctionnels

Des fonctions accessibles en permanence

The screenshot shows the IBM On Demand Workplace interface in Microsoft Internet Explorer. The browser window title is "On Demand Workplace Home - Microsoft Internet Explorer". The address bar shows the URL: "https://w3.ibm.com/portal/myportal/cmd/cs/ce/155/s/209/_s_1...".

The interface is divided into several portlets:

- Navigation:** A top bar with tabs for "Home", "Work", and "Career and life".
- Essential links:** A list of links including "About IBM", "About w3", "Aerospace & Defense Industry", "Collaboration Central", "Customer Reference Materials", "Energy & Utilities Industry", "Expense Accounts - Worldwide", "Globalization Central", "IBM Global Campus", "IBM On Demand Community", "IBM SiteServ", "IBM Standard Software Installer", "IBM Travel", "Industrial Products", "IT Tools", "Learning Navigator", "Our Values at Work", "Presentation Central", "Sam's w3 pages", "Software Group Intranet", "Speak Up Program", and "Telecommunications Industry".
- News:** A section titled "News" with a sub-header "7 derniers jours". It features an article titled "Performance & Pay" with a sub-header "Performance metrics for first quarter 2004". Other articles include "Making a world of difference" (More than 13,000 employees from over 55 countries are registered with On Demand Community...), "Anatomy of an on demand business" (No single component can establish an on demand business...), "Alert: Protect IBM from mass mail worms" (Run LiveUpdate and scan your workstation...), "Boeing flies high with IBM" (Rational development tools lets Boeing improve the quality of its applications...), and "Talk with Steve" (How does SWG secure funding for acquisitions?).
- Search:** A portlet titled "Search" with a sub-header "BluePages". It offers search options: "Name only (smith, jo*)" and "Entire profile ('grid computing')". There is a search input field and a "GO" button. Below it, there is an "Advanced search" link. Under "Other searches", there are radio buttons for "w3 intranet", "ibm.com Internet", "IBM news articles", and "IBM discussion forums".
- Market report:** A portlet titled "Market report" with a sub-header "Quoted at 4:05 PM, EDT on 22 Apr." and a "Refresh" link. It displays a table of stock market data:

Symbol	Current	+/-
IBM	90.74	-0.52

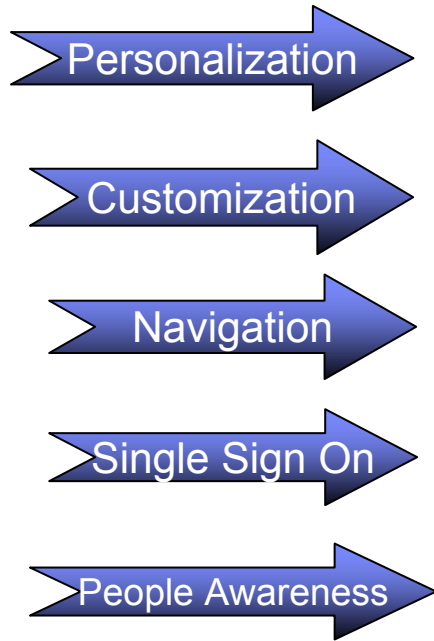

Indices	Last
DOWJONES	10,461.20
S&P 500	1,139.95
AMEX	1,248.19
FTSE	4,571.80
HANG SENG	12,167.70
NIKKEI	12,025.03
NASDAQ	2,032.91

At the bottom of the market report, there are links for "View full market report" and "Go to the scorecard home page".

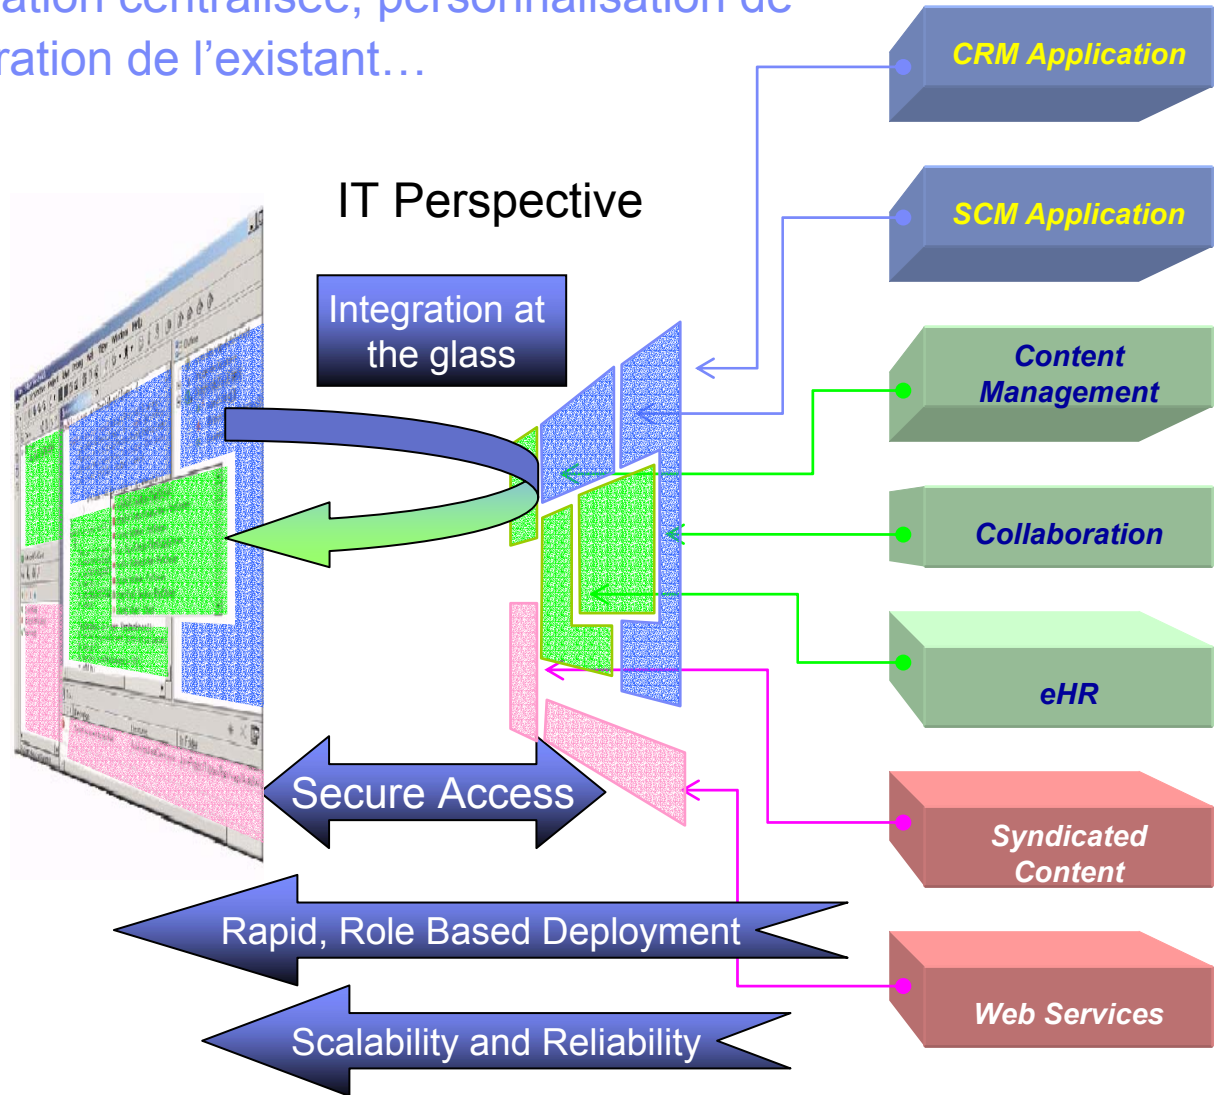

At the bottom of the page, there is a "Raccourci vers talk" link and an "Intranet local" icon.

Bien plus qu'une interface utilisateur, le portail fournit de nombreux services : sécurité, administration centralisée, personnalisation de l'information, rapidité d'intégration de l'existant...

User Perspective

IT Perspective

De nombreuses autres portlets sont disponibles à travers un catalogue de portlets...

Exemples de portlets Domino

Using RSS XML

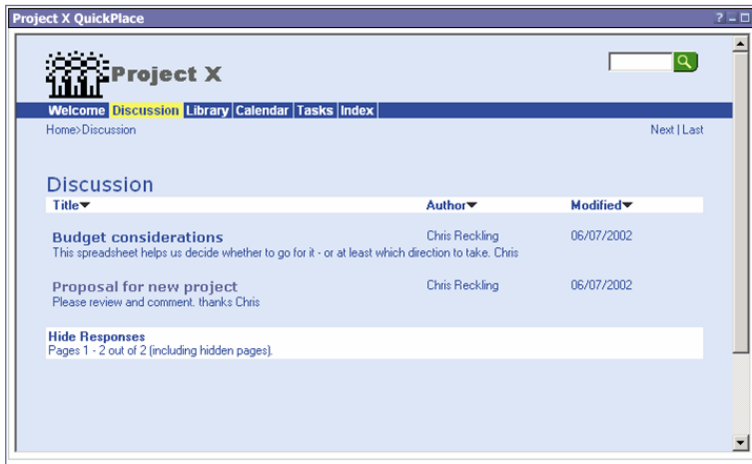

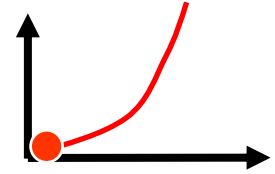

Using JSP Tags

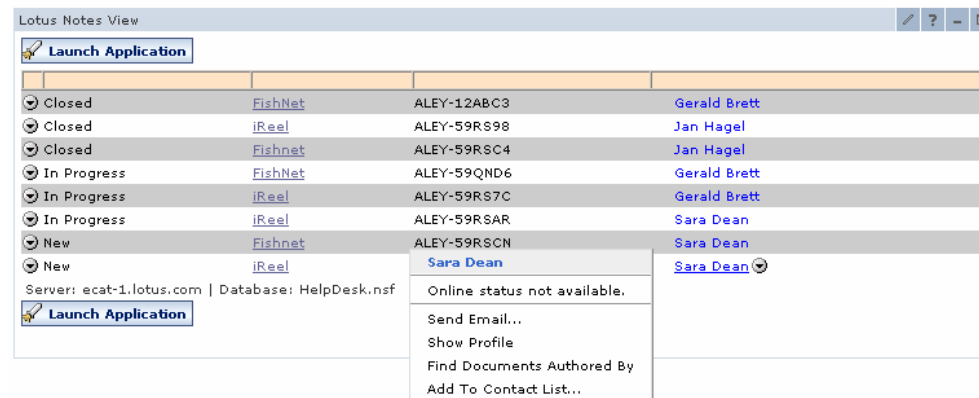

Out of Box Portlet

1. Utilisation de portlets

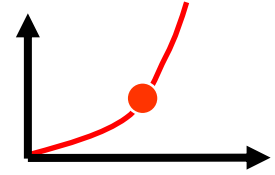

- Fundamental building blocks for WebSphere Portal and Lotus Workplace
- Provide a window into application content and actions
- Dynamically deployed to the server
- Support multiple viewing modes and markup

Portlet pour l'accès à une application Domino de Helpesk

2. Intégrateur d'applications WebSphere Portal (WPAI)

Création simplifiée de portlets (sans développement)

SAP Business Object Builder

Personal data contains the following fields. Choose the fields you want for your portlet by selecting the checkmark next to the desired fields. For each field, you may decide whether it should appear in the summary view (all selected fields will appear in the details view), whether the field can serve as a unique identifier, if the field is searchable, and the behaviour for each field. You may also provide a new field label for each field.

Select markup to configure:

Portlet Builder for Domino

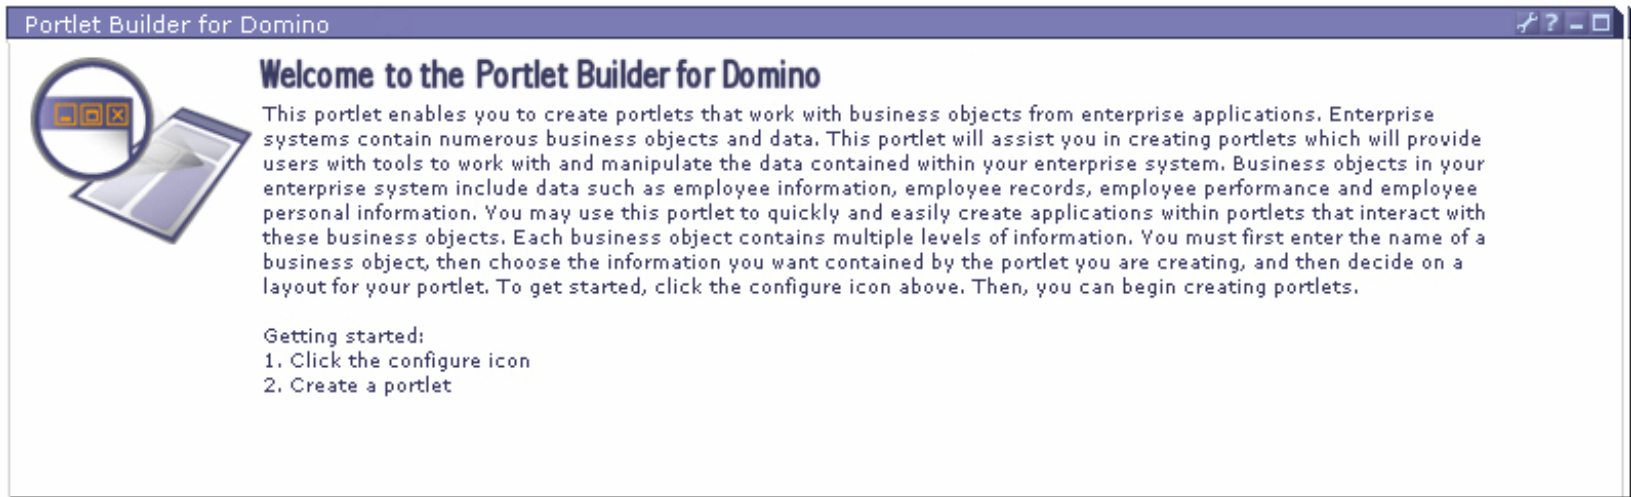

- A portlet to build Domino portlets

Simple Web interface to create portlets that access / manipulate data in Domino

No programming required

Views and documents

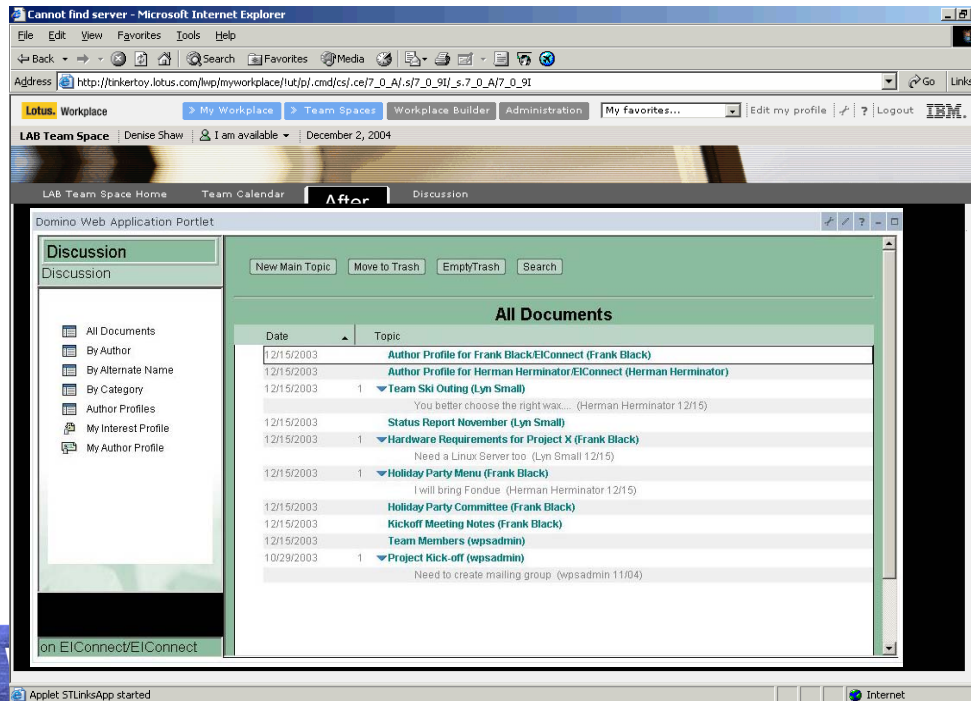

Basic create, edit, delete operations

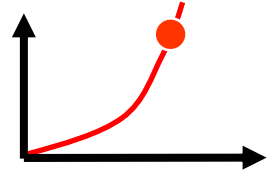

Domino Web Application Portlet

Disponibile avec Domino 6.5.1

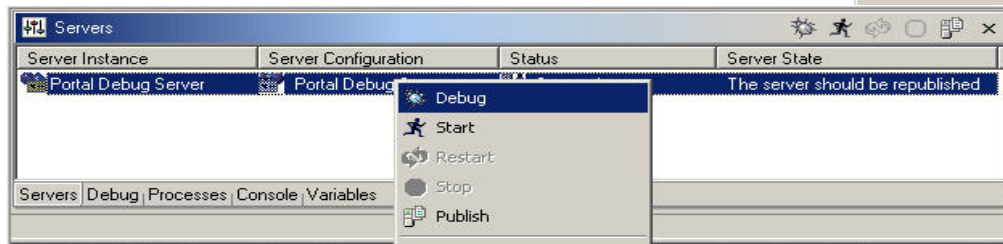

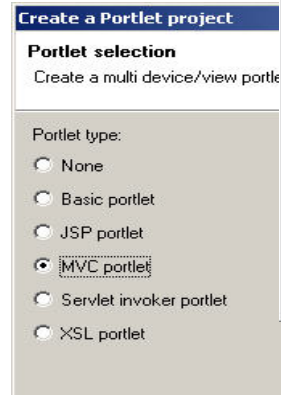

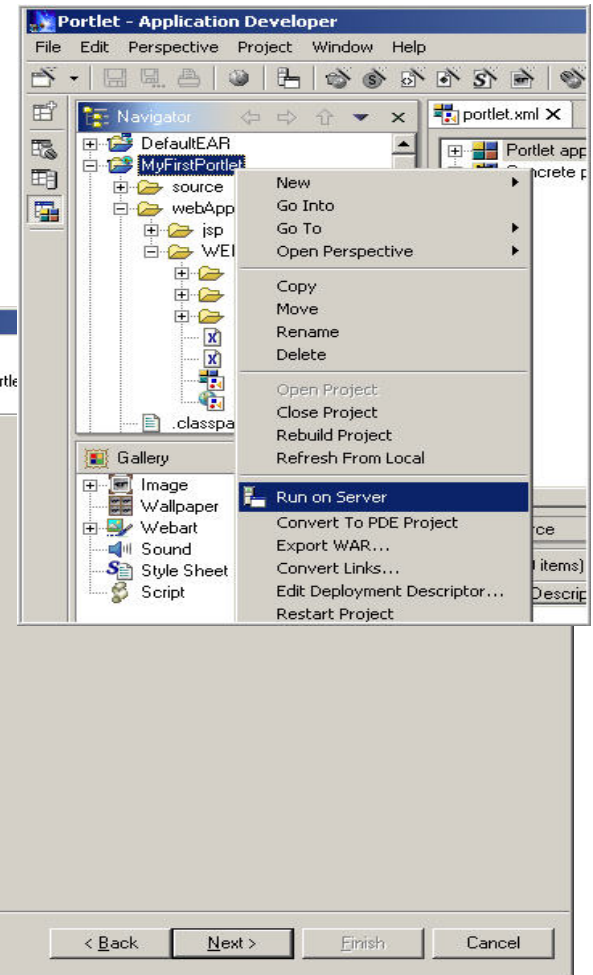

- Designed to allow Domino web apps to be surfaced in a LWP/Portal environment.
- Reverse Proxy – portlet uses a set of rules to map Domino generated URLs to Workplace/Portal such that all requests are channeled through Portal server.
- SSO – supports SSO between Workplace/Portal and Domino
- SSL – support secure transfer of data between Workplace/Portal and Domino
- Delivered as iframe first, web clipper in later releases.

3. Développement spécifique avec WebSphere Studio & Portal Toolkit
