### **Users of XDE Modeler Whose Entitlements Are to Rose XDE Modeler**

Summary: if you use XDE Modeler your replacement product will be Rational Software Modeler. (Optionally, you could pay to trade up to Rational Software Architect) Rational Software Modeler is already available to you via Anticipatory Access and you may begin to adopt it at any time. You do not have to worry about migrating any of your Rose XDE Modeler or Rose Modeler entitlements because over time, the entitlement issues will resolve themselves as part of the maintenance renewals process.
