## Application Security and Compliance Track

With over 400 technical sessions at the IBM Rational Software Conference, you won't want to miss this training and educational event of the year!

### Sessions you can't afford to miss!

- Staying ahead of cybercrime: the importance of managing Web application security
- Web Services Security Testing
- Security In a Web 2.0 Era
- Application Security as a Service: PCI Compliance
- Maintaining Security With Automation
- The Pro's and Con's of Whitebox vs. Blackbox Testing
- Hacking 101: A Hands On Workshop
- Malware. It's Everywhere!

### Application Security and Compliance Track and Conference Highlights:

- 16 sessions dedicated to Web application security and compliance
- 1 hands-on technical workshop showcasing IBM® AppScan® and how it supports Web application security automation through every phase of the software lifecycle
- Interactive 'birds-of-a-feather' sessions
- Networking opportunities with IBM executives and security industry thought leaders
- Executive Summit 2009
- Free IBM Certification testing
- Rational Labs: A look into the future of the IBM AppScan emerging capabilities

### This 3 1/2 day Application Security and Compliance Track is a 'must attend' event for any security manager, auditor, IT or development professional interested in:

- The current state of Web application security
- Emerging new threats
- Best practices to defend against an attack
- Strategies to improve IT efficiencies with reduced resources
