

Optim

Drop-In ID: OPDM-11.03.00.07-006

Product: IBM® InfoSphere® Optim™ Designer

Release: 11.3.0.7

Problem ID: IP24174

Date: February 26, 2018

Description: This iFix corrects the following problem:

- In Optim Designer, when a Column Map contains a HASH_LOOKUP function and the target database is Informix, an error message is generated indicating that the mapping is not valid starting with HAS_LOOKUP. However, the same Column Map can be used successfully in Optim Distributed.
- After applying this iFix, Optim Designer will not flag this scenario as an error.

Prerequisites: IBM® InfoSphere® Optim™ Designer 11.3.0.7.20181027_1629
OPDM-11.03.00.07-005

Co-requisites: None

OS Platforms: Windows

Corrective Actions:

Section I

If more than one iFix is found by Installation Manager, then all of them will be selected by default. Review each iFix and unselect any that you do not wish to install.

Ensure that all Optim components are not running before applying this iFix.

Continue through the Installation Manager Update wizard to apply this iFix.

How to uninstall the test fix:

Ensure that all Optim components are not running before uninstalling any iFix.

Start IBM Installation Manager

Select the Uninstall option from the main Installation Manager window or menu.

Select the iFix you wish to uninstall.

Continue through the Installation Manager Uninstall wizard to remove this iFix.

This iFix will automatically be uninstalled if you upgrade to a new version.
