Optim

Drop-In ID: OPDM-11.03.00.07-010

Product: IBM® InfoSphere® Optim™ Runtime Services

Release: 11.3.0.7

Problem ID: JR61150

Date: May 29, 2019

Description: This iFix corrects the following problem:

- If you attempt to run an insert process from Optim Designer using an Optim Server from Embedded Manager, and the always call create option is selected, the process remains with a status of "in-progress" and never completes.

- After applying this iFix, the process runs normally and completes.

Prerequisites: IBM® InfoSphere® Optim™ Runtime Services 11.3.0.7.20181106_1133

Co-requisites:

Supersedes: None

Special Notes:

OS Platforms Corrected: Windows

Corrective Actions:

Section I

If more than one iFix is found by Installation Manager, then all of them will be selected by default. Review each iFix and unselect any that you do not wish to install.

Ensure that all Optim components are not running before applying this iFix.

Continue through the Installation Manager Update wizard to apply this iFix.

How to uninstall the test fix:

Ensure that all Optim components are not running before uninstalling any iFix.

Start IBM Installation Manager

Select the Uninstall option from the main Installation Manager window or menu.

Select the iFix you wish to uninstall.

Continue through the Installation Manager Uninstall wizard to remove this iFix.

This iFix will automatically be uninstalled if you upgrade to a new version.

Section II

If you have any questions about or problems with these procedures, contact IBM Optim Support.
