

Version 6.1

Quick Start Guide

This guide will help you install IBM Tivoli Directory Server.

National Language Version: To obtain the Quick Start Guide in another language, find the file for your language in the quickstart directory. (The files are named tds61_qsg_LL.idd and tds61_qsg_LL.htm, where LL is an abbreviation for the language.)

IBM Tivoli Directory Server Product Overview

IBM Tivoli Directory Server is the IBM implementation of the Lightweight Directory Access Protocol (LDAP) for supported Windows, AIX, Linux, Solaris, and HP-UX operating systems. IBM Tivoli Directory Server provides a server that stores directory information using a DB2 database, a proxy server for routing LDAP operations to other servers, a client, and a graphical user interface (GUI) for managing servers.

1 Step 1: Access your software

If you download your product from Passport Advantage, follow the directions in the download document: [//www.ibm.com/support/docview.wss?rs=767&uid=swg24015906](http://www.ibm.com/support/docview.wss?rs=767&uid=swg24015906)

This product offering includes:

- IBM Tivoli Directory Server
- DB2 Universal Database Enterprise Server Edition
- Embedded WebSphere Application Server
- Global Security Kit (GSKit)
- IBM Tivoli Directory Integrator

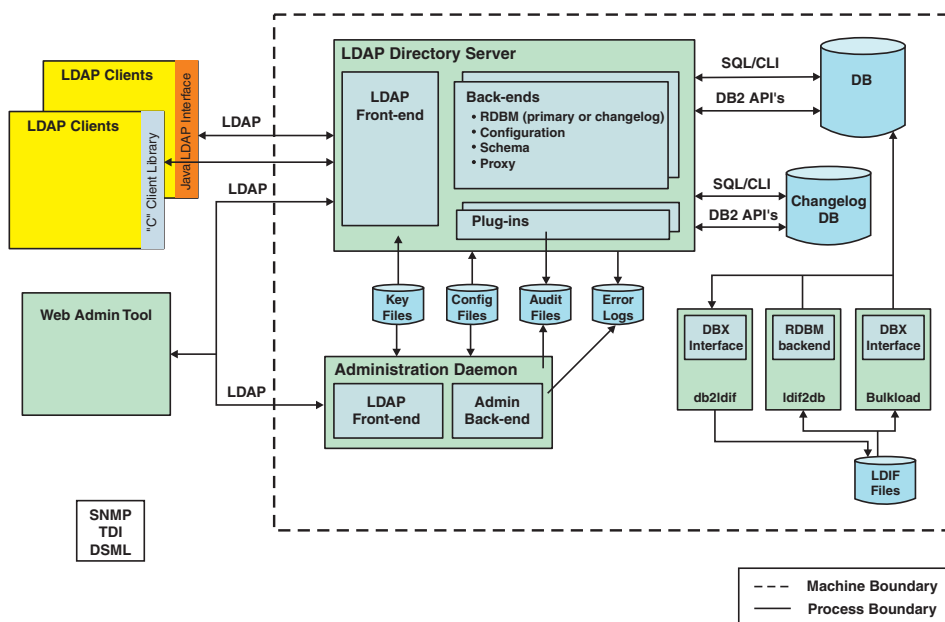

2 Step 2: Evaluate your hardware and system configuration

See *IBM Tivoli Directory Server Version 6.1 System Requirements*:

<http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/index.jsp?toc=/com.ibm.IBMTDS.doc/toc.xml>

3 Step 3: Review the base architecture

4 Step 4: Access your documentation

For complete documentation, including installation instructions, see the IBM Tivoli Directory Server information center:
<http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/index.jsp?toc=/com.ibm.IBMTDS.doc/toc.xml>.

5 Step 5: Install IBM Tivoli Directory Server

See the *IBM Tivoli Directory Server Version 6.1 Installation and Configuration Guide*:
<http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/index.jsp?toc=/com.ibm.IBMTDS.doc/toc.xml>.

Install IBM Tivoli Directory Server using the Typical or Custom installation path.

- Typical installation installs all features.
- Custom installation allows you to select features to install.

You can install all of the prerequisite products with the directory server.

6 Step 6: Create and configure a directory server instance

See the *IBM Tivoli Directory Server Version 6.1 Installation and Configuration Guide*:
<http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/index.jsp?toc=/com.ibm.IBMTDS.doc/toc.xml>.
