

The background features a vibrant blue gradient with dynamic, flowing yellow and cyan lines that create a sense of motion and depth. A grid of thin, light blue lines is visible on the right side, adding a technical or digital feel to the design.

LOTUSPHERE[®] **COMES TO YOU** 2008

IBM Lotus Notes & Domino – the road ahead

Darren Adams

Messaging & Collaboration Business
Unit Leader, IBM Lotus

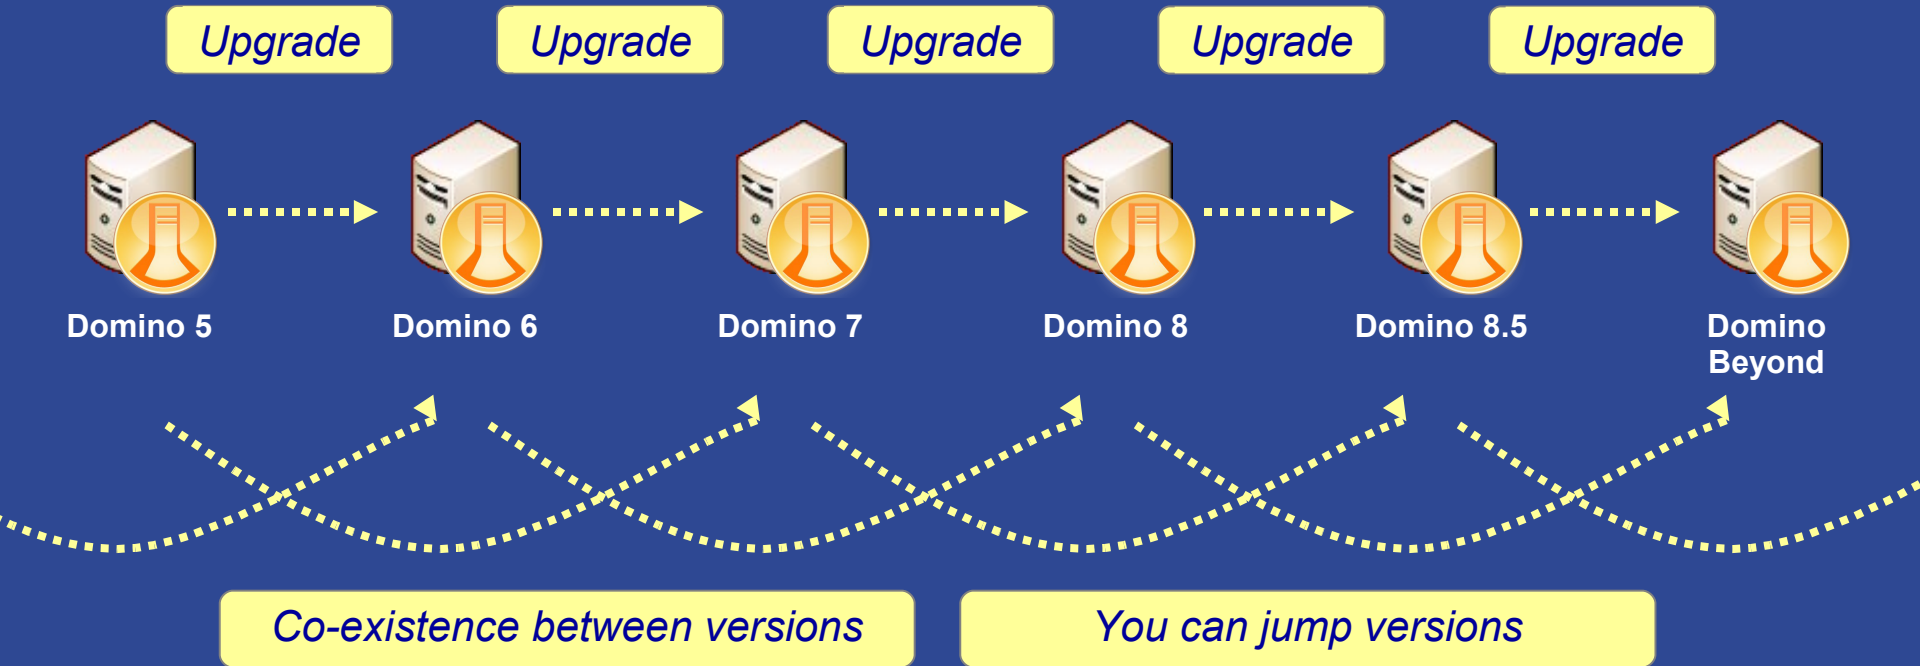

Paul Mooney

Senior Architect,
Blue Wave Technology

LOTUSPHERE® **COMES TO YOU** 2008

Protection of investment

- Continued evolution + consistent architecture =
 - ▶ Protection of investment
 - ▶ Lower cost of ownership
 - ▶ Shorter time to business value

Consistent architecture, continuous improvements

6

Policy-based administration

Scalability improvements

7

50 – 80% scalability improvements

Reduced CPU usage

Domain monitoring

8.0.1

~ 35% mail box compression

Further reduction of CPU usage

Reduction in I/O

Traveler – e-mail for mobile devices

Message recall

64-bit servers

Domino Web Access Lite

8.5

Reduction in space taken by file attachments

Notes authentication via Active Directory (optional)

Notes ID credential vault

Modernised HTTP server (Ajax, Dojo)

LOTUSPHERE COMES TO YOU 2008

New capabilities – database / mail box compression

- Brought forward from Domino 8.5
- Compresses databases and mail boxes by around 30 – 40%
- Benefits:
 - ▶ Decrease in storage required, contributes to reduction in cost of ownership
 - ▶ Improvements to server performance due to decreased I/O
 - ▶ Faster opening of mail boxes on client

New capabilities – Lotus Notes Traveler

- Secure mobile e-mail / PIM support
- Free entitlement for maintained Notes and Domino Web Access users
- Initially supports Microsoft Windows Mobile 5 and 6
- Partners contribute to providing full ecosystem
 - ▶ e.g. device management

*
+

*
+

+

+

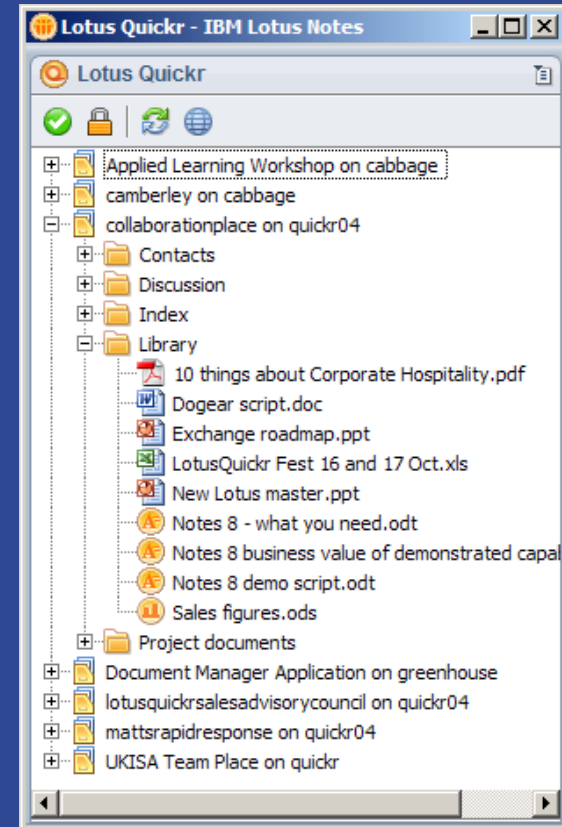

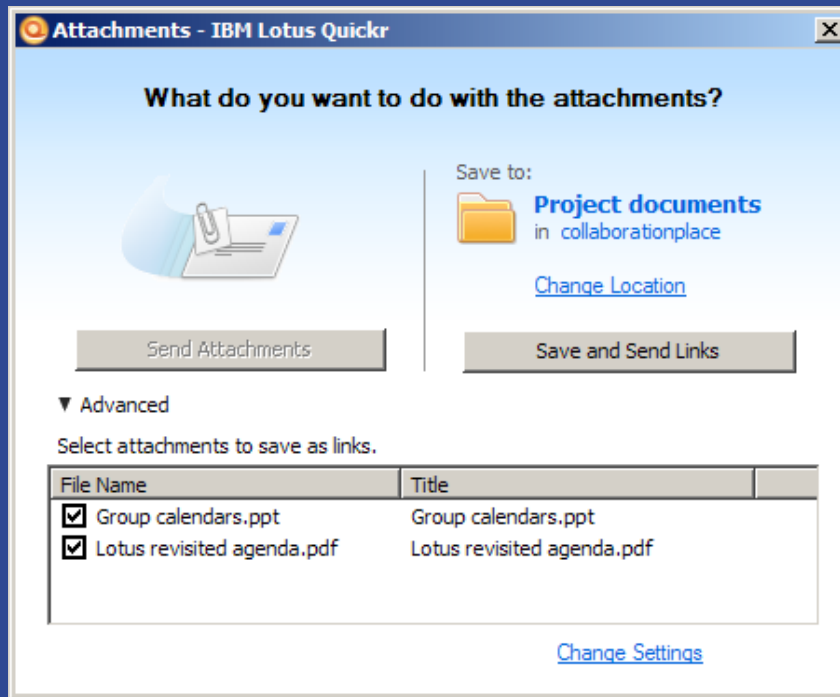

* IBM Lotus Notes & Domino Design Partner
 + Offered for wireless hosting via IBM Global Technology Services

Integration with Lotus Quickr 8.1

- Drag and drop of file attachments (e.g. from e-mail) into a document library
- When sending e-mail, publish attachments into a library and send the links instead

LOTUSPHERE COMES TO YOU 2008

New calendar and scheduling capabilities

- Conference call details stored in calendar preferences
- Automatically inserted in an invite when required

My Widgets – user-defined content

- Allows users to add the following to their Notes 8 side-bar
 2. Notes views (and documents)
 3. Web pages
 4. Feeds
 5. Google Gadgets
- Benefits to customer
 - ▶ Provides users with the tools and flexibility to make content important to them quick and easy to access
 - ▶ Provides business agility without calling in the developers

LOTUSPHERE **COMES TO YOU** 2008

My Widgets – side-bar content

Start Configuring Widgets

Configure widgets and put them in the sidebar, or wire widgets so that users can take action on Live Text in a Notes document.

You can configure

- Widgets, using components such as a Notes view or Google Gadget in the sidebar
- Live Text widgets that wire text in a Notes document to components such as:
 - Other Notes Applications
 - Web content such as Web pages, Google Gadgets, and feeds

Configure Live Text by connecting textual "content types" in one Notes document to other Notes or Web applications. Use existing content types (like people's names) or create your own by defining a pattern to recognize.

For example, configure an action to look up someone's name in your corporate directory, or to look up the status of a flight by clicking on an underlined flight number in an email. Simply define the format of a flight number using regular expressions, and then configure wiring to an airline web site that looks up the status of flights.

You can create a widget wherever you see the "Configure a Widget" Toolbar button: 

Then publish it in the Widget catalog for others to use.

Where is the information you want to display?

Notes Views

Web Page

Feed

 [Gadgets powered by Google](#)

My Widgets – mash-ups

- Create 'recognisers', actions and content types
- Recognised text will be underlined
- Clicking on it will invoke an associated action
- Examples:
 - ▶ Name in an e-mail, click on it for BluePages lookup
 - ▶ Flight number, look up flight details from web site
 - ▶ Part number, click on it for stock status
 - ▶ Order number, click on it for progress
 - ▶ Parcel tracking number, click on it for shipping progress
 - ▶ Postcode, click on it to plot location on Google Map

New capabilities – Domino Web Access Lite

- A new option for displaying Domino Web Access
- For speedy access generating less traffic than full mode
 - ▶ Benchmarks show it to be 40% quicker than Google Mail
- Log directly into Lite mode or switch from full mode
- Benefits to customer
 - ▶ Quick access to full-functional e-mail over slow connections

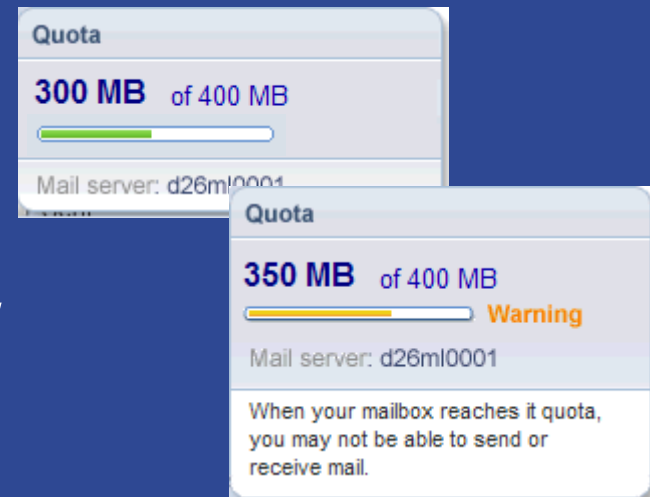

Domino Web Access Lite

The screenshot displays the Lotus Domino Web Access Lite interface within a Mozilla Firefox browser window. The browser's address bar shows the URL <https://greenhouse.lotus.com/mail/darr>. The interface includes a navigation menu on the left for folders like 'Inbox', 'Drafts', and 'Sent'. The main area features an email list with columns for 'Sender', 'Subject', 'Date', and 'Size'. The search bar at the bottom contains the text 'pete'. On the right, a 'Day-At-A-Glance' calendar view shows the date 'Tue 01/15/2008' and lists events such as 'My birthday' and 'Preparation for 8.0.1 prospecting Staines'.

IBM Lotus Domino

LOTUSPHERE COMES TO YOU 2008

Lotus Protector

- Spam control and content inspection
 - ▶ Antivirus and antispam – stop spam before it gets to your Domino servers or Notes users
 - Multi-level message analysis on every e-mail message
 - Sophisticated and granular policy management
 - Multiple built-in spam analysis modules
 - ▶ Fully customisable content analysis modules
 - Helps manage compliance in e-mail
- Preemptive protection
 - ▶ Industry-leading intrusion prevention system (IPS)
 - ▶ Signature and behavioral antivirus
 - ▶ Specialized content inspection for phishing and spyware

Lotusphere 2008 announcement – 'Atlantic'

- 'Atlantic' provides access to the SAP Business Suite through the familiar Lotus Notes client
 - ▶ Includes workflows, reporting and analytics for managers, a set of scenarios (e.g., leave approval, trip request approval) for employees
 - ▶ Limited ability to customize scenarios in version 1.0
- SAP and IBM partnership
 - ▶ Joint development effort, shared marketing, advertising & product support
 - ▶ Each company will sell the product
- Initial shipment planned for Q4, 2008

Notes / Domino roadmap

Note: Current plans, information is subject to change

Lotus Notes & Domino
"Beyond"

Lotus Notes & Domino 8.5

Lotus Notes & Domino 8.0.1

Lotus Notes & Domino 8.0

Today

Q1 2008

2008

2009

2010

LOTUSPHERE COMES TO YOU 2008

Goals for Notes / Domino 8.5

- Simplify Notes identity management and authentication
- Reduce storage costs
- Improve I/O operations
- Improve quality of service
- Modernise Domino web application development

“...the most important Domino version since 5”

Russ Holden

Lotus Domino Chief Architect and Distinguished Engineer

LOTUSPHERE COMES TO YOU 2008

Simplifying identify management

- For users:
 - ▶ Eliminate need to enter Notes password
 - ▶ Simplify “forgotten password” and “lost ID file” recovery
 - ▶ Eliminate need to manually keep multiple ID files consistent

- For IT:
 - ▶ Greatly simplify Notes ID management: manage, update and distribute ID's
 - ▶ Allow Notes user and group information to be stored and managed in non-Domino LDAP directories

Lotus Domino 8.5 - central Notes ID vault

- Eliminates expensive error-prone manual operations
- Automates Lotus Notes ID file provisioning to Notes desktops

Helpdesk

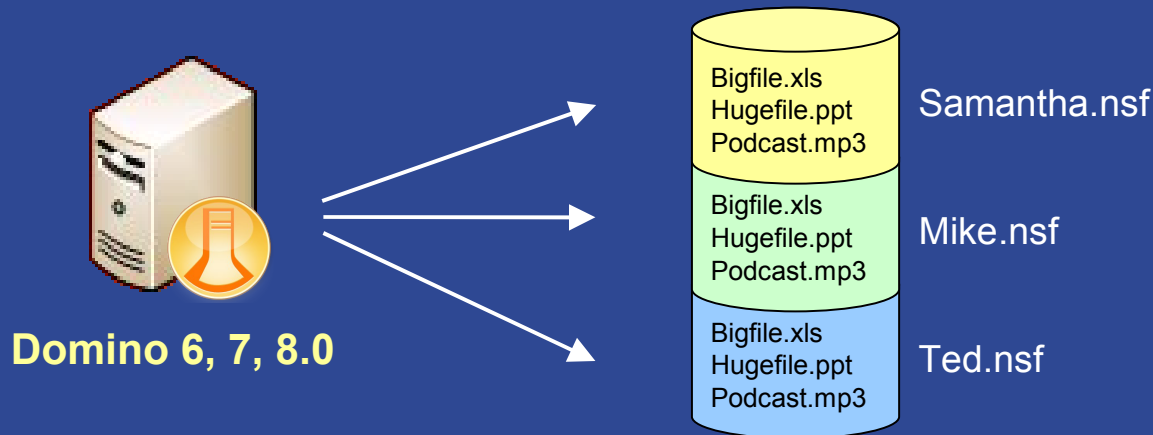

Self-service password change application

Domino 8.5 – optional improvements

- Management improvements to help lower operational costs
- Directory:
 - ▶ Option to replace Domino Directory with LDAP directory
 - ▶ Tools will be provided to migrate Domino person attributes into LDAP
 - ▶ Active Directory will be first target followed by other leading directories
 - ▶ Domino directory continues to be supported as integrated directory – no mandate to change
- Storage:
 - ▶ Domino Attachment Object Store (DAOS)
 - ▶ Provides efficient, file-system storage of large objects
 - ▶ Automatically removes redundant storage of objects via efficient content comparison
 - ▶ Results:
 - Databases greatly reduced in size
 - Substantial disk space savings
 - I/O bandwidth savings

Domino Attachment and Object Store

Please note:

This is **NOT** the same as the Single Copy Object Store (SCOS)

LOTUSPHERE COMES TO YOU 2008

Domino 8.5 – configuration tuner

- Detect misconfigurations
 - ▶ Mistaken settings
 - ▶ Incorrectly published values

- Detect performance and security issues
 - ▶ Recommend best practice performance settings like “Don’t overwrite free space”

- Reduce support costs
 - ▶ Support can use DCT to provide initial assessment
 - ▶ Administrators can perform self-assessment

Modernising Domino web applications

- Updated HTTP server
- True cascading style sheet support
- Eclipse-based Domino Designer
- Tools in new Domino Designer to easily implement Ajax and Dojo elements

Noticeable improvements...

Done

Notes 8.5 - focus on further improvements from Notes 8

- Release focus on usability & reliability
- Features:
 - ▶ Show through calendars
 - ▶ iCal subscriptions and interoperability
 - ▶ Journal user interface update
 - ▶ Return of optional Notes selection model
- Simple and effective meeting workflow
- Improved roaming user support
- General availability of Notes 8.5 for Macintosh 10.5 ("Leopard") and Ubuntu Linux clients

[Show Details](#)

Yes, it looks wonderful, Simone. In addition to the vertical version, are you planning to make any other market-driven differences? For example, in Ireland, I think our focus will be corporate rather than consumer customers.

Thank You
