

Global Technology Services

A collage of business meeting photos with a grid overlay and a green square. The photos show people in a meeting, a man pointing at a screen, and a woman sitting at a table. A silver thermos is visible in the foreground.

## Unified Communications, Empowering Your Best Assets

Alan MacArthur IBM  
UC08 Olympia

# Collaboration is a key enabler of innovation and business growth

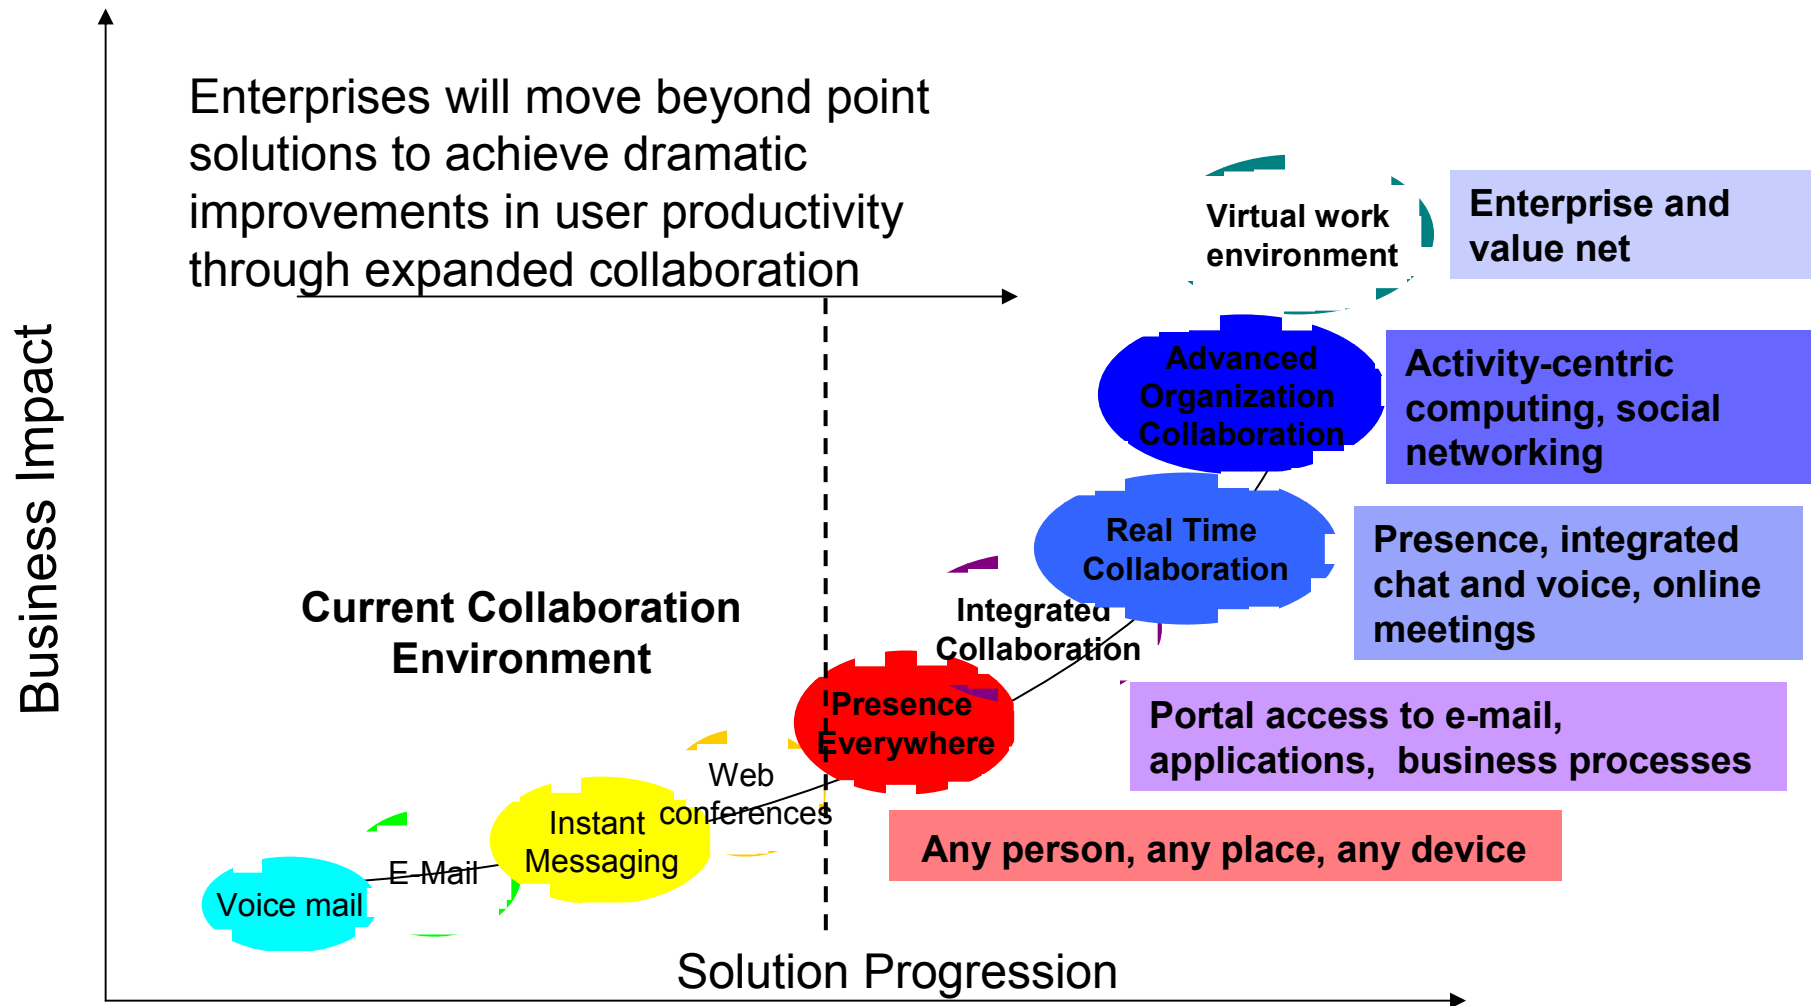

## The IBM Global CEO Study 2006 showed ...

- CEOs view employees as the top source of innovative ideas
- Of the business leaders interviewed, 75 percent ranked collaboration as very important to innovation
- Companies that collaborated extensively outperformed their peers in both revenue growth and average operating margin

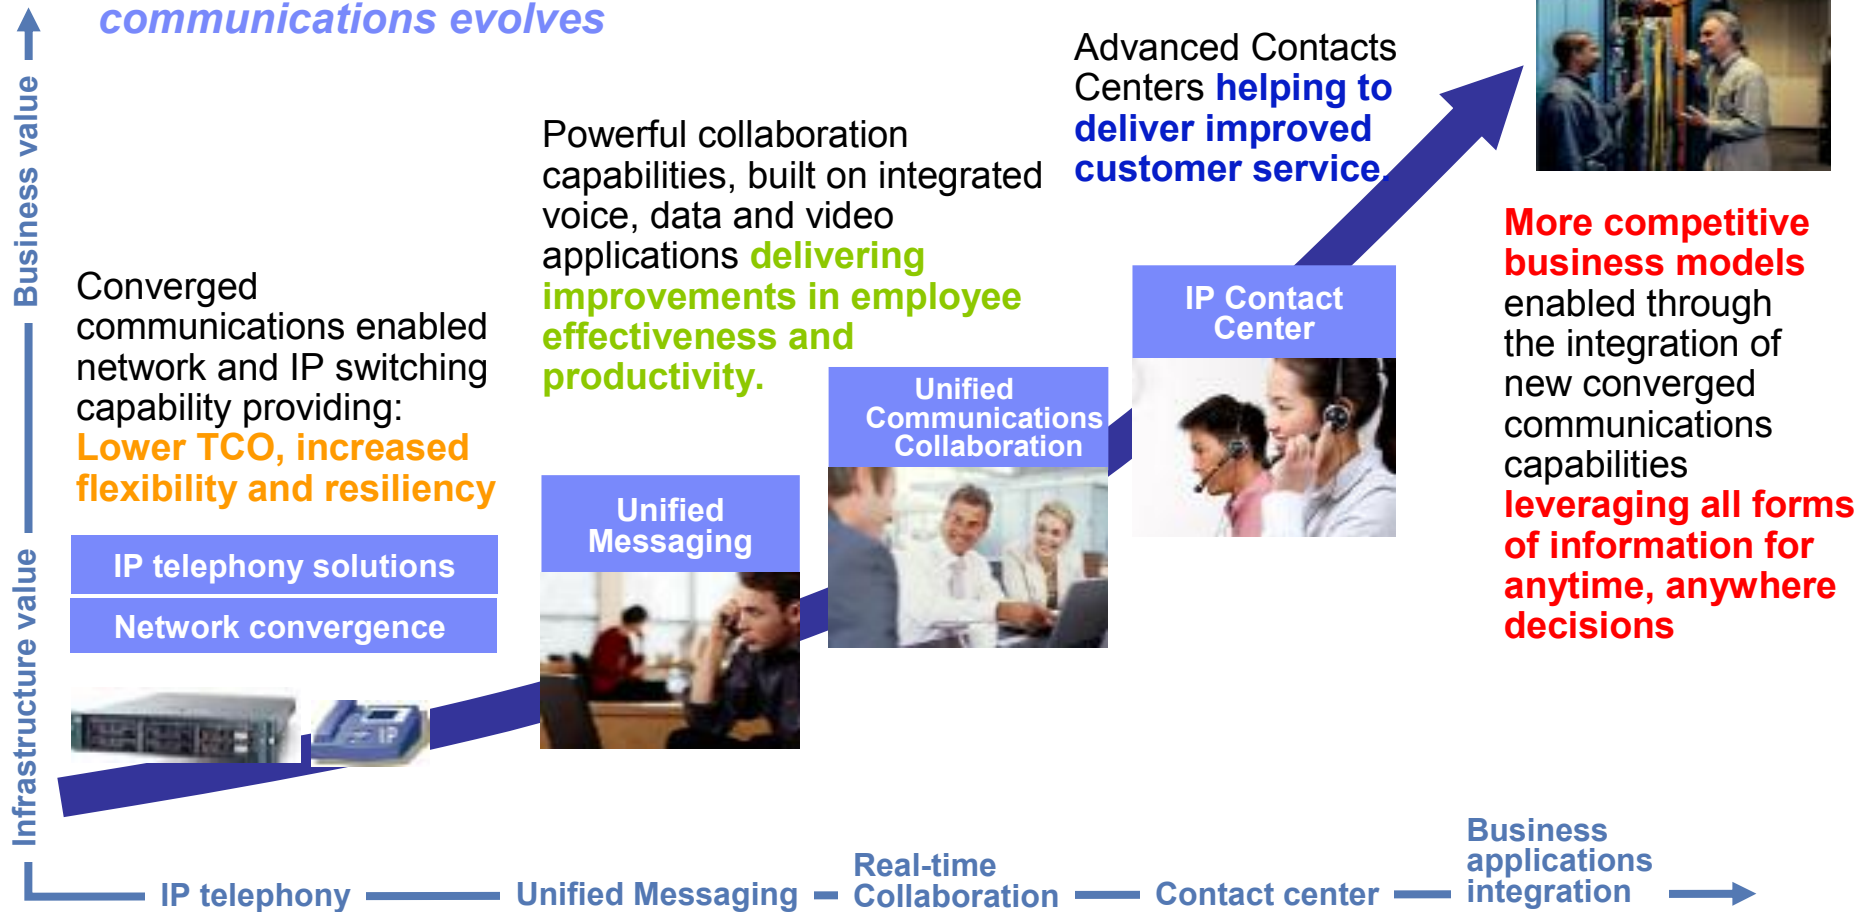

\* Respondents could select up to three choices.

# User Effectiveness – Improving Business Processes/workflow through enhanced Collaboration Strategies

# Unified Communications and Collaboration services are helping clients to move towards innovative solutions

- Organizations will derive increasingly greater value as their implementation of converged communications evolves

# What unified communications and collaboration can do for your business

## Immediate cost savings

- No more expensive third-party conferencing services
- Consolidated audio, video and Web conferencing capabilities
- Lower travel expenses

## Greater operational efficiency

- Cost-effective, enterprise wide dissemination of critical information
- Effective teaming across time zones and business segments
- Flexible team structures, capable of rapid self-organization to meet changing needs

## Higher productivity

- More employees working from home
- A more effective, responsive mobile workforce
- Faster communication and less time wasted

## What would unified communications and collaboration mean for employees?

- **Instant, spontaneous communication** with anyone on the network
- **Faster responsiveness** to customers and business partners
- **Rapid resolution of problems** and questions using clear, high-quality communications
- **An intuitive user experience** with little training required
- **Ability to share** presentations, applications or the entire desktop in real time
- **Ability to brainstorm ideas** from anywhere in the world on a virtual whiteboard
- **Easier meeting administration** with integration to calendar, e-mail and corporate directory systems
- **More effective presentations** and training sessions with rich media capabilities
- **At-a-glance view** of who is online and how they can be contacted
