maximo
U K   &   I R E L A N D   U S E R   G R O U P

The first Maximo UK & Ireland user group launched 11 June 2008. First user group meeting 12 November, IBM Warwick.

June 11, IBM announced the creation of an independent user group for Maximo EAM users in the UK and Ireland.

The new user group has quickly established itself with over 35 members, access into IBM's European operations including its technical and support functions and a committee of six; four Maximo users and two IBM representatives.

The first user group meeting is planned for 12 November at IBM Warwick. If you have not already done so, please register to be a member of the group at www.tivoli-ug.org and from here you can register for the user group meeting on the 12th. Topics for this and future meetings include Maximo road maps; Knowledge Management; EIS; support; scheduling and much more.

The committee is made up of users from GSH Group, Atkins Global, Northern Ireland Electricity and International Power together with permanent IBM marketing and technical expertise.

Operating independently from IBM, the user group is aimed at Maximo EAM users in the UK, Ireland and Europe. Existing and prospective users are welcome, as are 3rd party vendors.

The group's objective is to create a community for sharing knowledge and experience as well as obtaining access into IBM support and technical expertise and influencing IBM's plans for Maximo.

The more members we have, the greater the benefit to all. Please register as a member at www.tivoli-ug.org and if you want to attend our inaugural user group meeting then register your interest at www.tivoli-ug.org as well.

"I am pleased to announce the launch of the new UK & Ireland user group. I will ensure that the group is run for the benefit of its members. Your feedback and ideas are vital to achieving this aim so please contact us with your thoughts."

Maxwell Segal
Chairman
Maximo UK and Ireland
User Group

Committee:
Maxwell Segal **– GSH Group**
Paul Webb **– International Power**
