The Wisdom of Crowds

A mechanism that:

accelerates information gathering and encourages the sharing of that information

can increase the likelihood of finding solutions to difficult business problems

helps an organization unite its knowledge of the market, capabilities and delivery

allows ALL stakeholders (employees, customers, partners etc.) to become leaders in change initiatives

Technology trends are lowering barriers

Web technology and Social Networks

Mobile availability

Geographically dispersed teams

Organizations are becoming more engaged with their stakeholders (agility)

Cloud technology and SaaS models make deployment and adoption easier

The *vox populi* will only take you so far

- Provides an agile and low cost way to gather (and impart) information

- Indicates an alignment (or validation) to strategy

Needs a supporting and complementary infrastructure

- Prioritization and Portfolio Management

- Enterprise Architecture (EA) with ArchiMate*

- Solution Delivery

- Linked information

Strategic planning needs knowledge of Capability, of Market and of Delivery to succeed

Collaboration

Usually based on cost and resource availability

No formal techniques to assess impact and true value

Stakeholders with differing requirements are not always involved

Difficult to assess impact of initiatives on existing project portfolio

Diversity and disconnect

Diverse teams

Diverse tools

Diverse vocabularies

Diverse repositories

What's needed is a framework to handle and prioritize the demands of the organization whilst embracing

Enterprise Architecture

Programme Management

Systems delivery

Demonstration

The collage features several overlapping screenshots of digital interfaces:

- Yammer:** Two screenshots showing a user profile for 'YourCorp' with a 'Share something with Your Corp:' text box and a feed of messages.
- Corso:** A 'Corso Software as a Service (SaaS)' registration form with fields for Name, Email, Company, Address, and City.
- Google Docs:** A screenshot of the Google Docs interface showing 'Create new' options like Document, Presentation, and Spreadsheet.
- WUFOO:** A red banner with the text 'WUFOO Making forms easy + fast + fun.' and several overlapping form cards for 'Mortgage Application', 'Buy a T-Shirt!', 'Customer Satisfaction Survey', and 'Workshop Registration'.
- Twitter:** A screenshot of a Twitter profile for '@twitter/team' showing tweets and a search dropdown menu with results like '@twitter/team', '@ev/sanfrancisco', and '@vl/entrepreneurs'.

Summary

- Effectively manage initiatives and change
- Deliver a systematic approach to manage change
- Improve efficiency by aligning systems with capabilities
- Engage all stakeholders
- Co-ordinate different lifecycles and tribes
 - e.g. defines the 'what' and 'why' of solutions rather than the 'how' and 'who' of ALM
- Utilise new technology trends
 - Mobile
 - Jazz
 - Business Intelligence
 - Federated data sources
- Inclusive of IBM technology but allows integration with other technologies
