<p>A portal strategy to deliver a complete portal solution for e-business (15 pages, 359kb) IBM has the strategic vision to see the portal as not just a personalized workplace but as the next generation collaborative workplace that connects the individual with the ebusiness community. Click on the link above to learn more about IBM's portal strategy</p>	<p>IT Analyst Firm Positions IBM's WebSphere Portal in Leader Quadrant In Gartner's report titled "Big Changes Evident in 2H02 Horizontal Portal Market MQ" published on May 1, 2002, Gartner assigned IBM to the leader quadrant. According to Gartner, leaders are performing well today, have a clear vision of market direction and are actively building competencies to sustain their leadership position in the market. Well-informed vendor selection decisions should rely on more than a Magic Quadrant. Gartner research is intended to be one of many information sources including other published information and direct analyst interaction. We recommend customers looking for enterprise portals also consult a variety of research including other analyst reports, customer case studies and product information found in the IBM Portal Information kit.</p>
