

The background features a dynamic composition of wavy, overlapping lines in shades of blue and yellow. On the right side, a grid of thin, light blue lines is visible, creating a sense of depth and perspective. The overall effect is a vibrant, futuristic aesthetic.

LOTUSPHERE[®] **COMES TO YOU** 2008

Collaboration in context

Darren Adams

Messaging & Collaboration Business Unit
Leader, IBM Lotus

John Goodman

Operations Director, LAN 2 LAN

LOTUSPHERE COMES TO YOU 2008

Technology & culture are evolving the way we work

Situational applications

Virtual teams

Generational impacts

Open flexible components

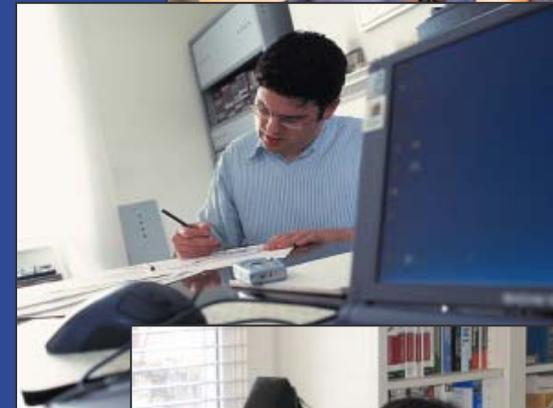

**Emergence of a
Digital Collaboration Infrastructure**

contact management to dos
group calendaring documents
email documents web browsers search
offline support spreadsheets personal journal
to dos web conferencing
composite applications
instant messaging personal journal
collaborative applications news readers
activities team rooms activities presentations
search content libraries file sharing encryption
spreadsheets email

The virtual workplace is here already...

- **58%** of IT executives considers their company to be a virtual workplace
- More than **75%** of them report using real-time communications technologies today
- **90%** of employees work in locations other than headquarters
- Between **60%** and **70%** of employees work in different locations from their bosses
- The number of virtual workers has increased by a massive **800%** over the past five years

LOTUSPHERE COMES TO YOU 2008

Collaboration requirements

- Organisations need to innovate and share knowledge in order to progress
 - ▶ Source: IBM CEO Survey, 2006
- The new generation have new ways of working
 - ▶ Organisations must fit in with their ways
 - ▶ ...not force them to work the old way
- Collaboration outside the enterprise is essential to do business
 - ▶ The expectations of working smarter are rising
 - ▶ Where this is not available, the fall-back method is inefficient
- Collaboration is a part of business processes
 - ▶ It should integrate quickly, efficiently and openly
- Collaboration should be natural for teams
 - ▶ Built into the tools they use every day

Drivers for improved collaborative working

- Constant squeeze on expenditure

- ▶ Travel – and the green agenda
- ▶ Communications
- ▶ Education

- Changing face of the workforce

- ▶ More mobile
- ▶ Working from home
- ▶ More technically-adept
- ▶ Home-grown skills

- Requirement for greater effectiveness

- ▶ Access to subject matter experts
- ▶ Making decisions quickly, with the right information
- ▶ Business continuity

- Competing successfully

- ▶ Innovation – to grow and get ahead of the competition
- ▶ Collaborating beyond the enterprise

The challenge we face...

- I was creating a presentation, I was multi-tasking ... also engaged in an instant messaging conversation

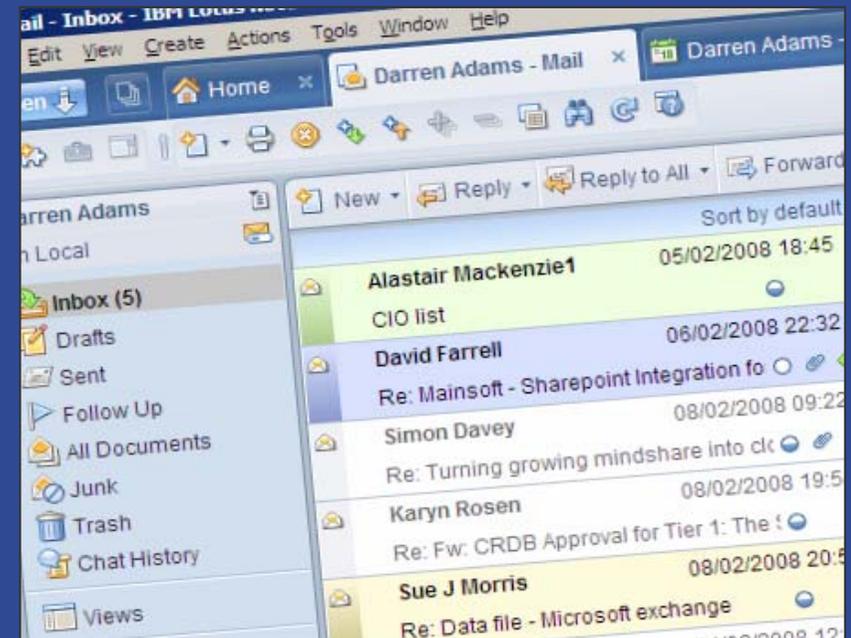

- My colleague wrote...

“ You have to laugh... Dave [name changed] asked me to **E-MAIL** him my presentation on ‘improving collaboration’ ”

No-one is employed by their company to read e-mail

- Yet most people base their working day around it
- We've become very reactive, often responding to something that's just arrived rather than our true priorities
- 20 years ago, before e-mail, people based their working day on business activities
- If we get back to this mentality...
- ...it has to embrace the potential of true collaboration, not what we've come to rely on

We asked our customers ...

- What is your greatest challenge (or challenges) pertaining to e-mail?

- Several variations on the same answer:
 - ▶ Too much e-mail
 - ▶ Storage requirements
 - ▶ Managing the size and content

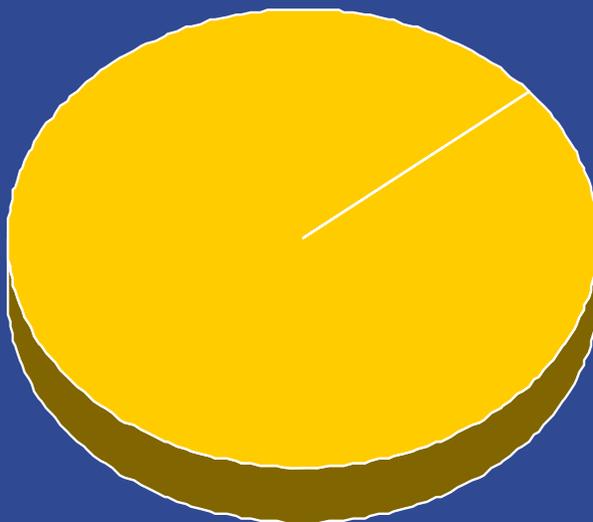

- In other words, the sheer **VOLUME**

We asked our customers ...

- Have you seen the amount of e-mail your organisation sends increase or decrease in the last 5 years?
- 100% of respondents said **"INCREASE"**
- The word **"significantly"** was used in over 75% of responses

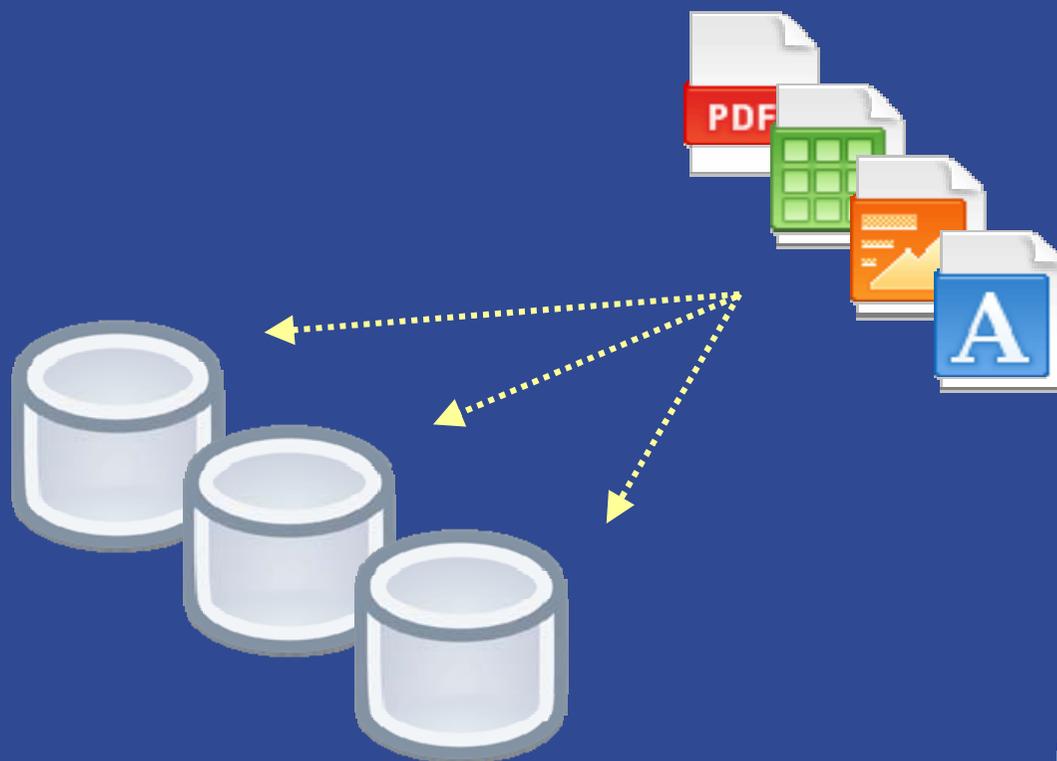

■ Increase
■ Decrease

LOTUSPHERE COMES TO YOU 2008

Too much e-mail, too many file attachments

- Hands up if you think **ARCHIVING** is the answer to this problem

LOTUSPHERE COMES TO YOU 2008

What? How can I be over my mail quota again?

- Well, here's your answer...

Date	Size ▼			
18/03/2008	26.5M	<input type="radio"/>	<input checked="" type="checkbox"/>	
18/03/2008	5.6M		<input checked="" type="checkbox"/>	
18/03/2008	2.9M	<input type="radio"/>	<input checked="" type="checkbox"/>	
18/03/2008	2.3M	<input type="radio"/>	<input checked="" type="checkbox"/>

LOTUSPHERE COMES TO YOU 2008

What you are about to see

- A day-in-the-life scenario
- Constructed and presented by IBM Premier Partner
LAN 2 LAN
- Solutions utilised:
 - ▶ IBM Lotus Notes 8
 - ▶ IBM Lotus Sametime 7.5
 - ▶ IBM Lotus Quickr 8
 - ▶ IBM Lotus Connections 1.0

LAN 2 LAN

- IBM Premier Partner specialising in Lotus solutions
- Integrating Lotus solutions with other key IT systems
- First world-wide IBM Lotus Connections deployment
- BlackBox offer for Lotus Connections and Quickr

Demo

John Goodman

Operations Director, LAN 2 LAN

LOTUSPHERE COMES TO YOU 2008

Summary of demo

- Collaboration on internal projects using:
 - Lotus Notes and Lotus Sametime as communication environments
 - Lotus Connections as an expertise locator, including activities, blogs, and information dissemination
 - Lotus Quickr as a document repository, both internal and external collaboration
 - ▶ Control over access to content
- Lotus Sametime web conference for visual external collaboration

Since the demo was created...

- We have released...
- Lotus Notes 8.0.1
- Lotus Quickr 8.1
- Lotus Sametime 8.0
- And we have previewed Lotus Connections 2.0

Lotus Notes 8.0.1

- Two major capabilities to embellish this business activity
 1. Quickr document libraries added to the Lotus Notes 8 sidebar
 2. 'Live text'
 - Text becomes context-sensitive and associated with actions

Text is recognised and made 'live'
Names and e-mail addresses are recognised by Notes 8.0.1 by default
We have taught Notes 8.0.1 to recognise UK postcodes using a simple 'recogniser'

Plotting the location on a Google Map, based on the postcode, is the default behaviour for clicking on the live text

Right-clicking on the live postcode reveals other possible associated actions

You can set a default action...

Or pick another action...

Or build a dashboard from the three actions, like SO...

IBM Lotus Sametime

- We saw presence-awareness
- And context-sensitive access to instant messaging
- We could have carried out 'click to call' using telephony integration

Lotus Connections 2

- Home page to aggregate content from the five components
- Widget-based openness allows other capabilities to be plugged in
- Better integration with Lotus Quickr
 - ▶ e.g. Quickr places associated with Communities
- Major developments in Activities
 - ▶ More flexible
 - ▶ Create custom forms and data types
 - ▶ Off-line support in Notes client

Darren Adams Good afternoon 2:24:02 PM

Andy J Porter Hi Darren. Good Afternoon. 2:24:33 PM

Darren Adams Matt should be joining us in a few minutes. 2:24:53 PM

Andy J Porter Excellent. 2:25:13 PM

Darren Adams Of course, we can discuss things as he can pick up the thread when he joins later. 2:25:43 PM

Andy J Porter I have been getting a great response from my customers when I show them Lotus Quickr. They particularly like the self service aspect. 2:32:19 PM

Send

Darren Adams joined the chat.

Summary

- Cure your e-mail habits
- Focused business activities are the way forward
- Discover knowledge, and who has the knowledge
 - ▶ And who knows those people
 - ▶ And their knowledge
 - ▶ And so on...
- Collaborate in context with integrated solutions
- Define a corporate standard (or standards)
 - ▶ Ensure your people understand how they should collaborate
 - ▶ ...and what are the right tools

Thank You
