

The background features a vibrant blue gradient with dynamic, flowing yellow and cyan lines that create a sense of motion and energy. A grid of thin, light blue lines is visible on the right side, adding a technical or digital feel to the design.

LOTUSPHERE[®] **COMES TO YOU 2008**

IBM Lotus Messaging and Collaboration solutions

Darren Adams

Messaging & Collaboration Business Unit
Leader, IBM Lotus

UK, Ireland and South Africa

LOTUSPHERE COMES TO YOU 2008

**Emergence of a
Digital Collaboration Infrastructure**

Drivers for improved collaborative working

- Constant squeeze on expenditure

- ▶ Travel – and the green agenda
- ▶ Communications
- ▶ Education

- Changing face of the workforce

- ▶ More mobile
- ▶ Working from home
- ▶ More technically-adept
- ▶ Home-grown skills

- Requirement for greater effectiveness

- ▶ Access to subject matter experts
- ▶ Making decisions quickly, with the right information
- ▶ Business continuity

- Competing successfully

- ▶ Innovation – to grow and get ahead of the competition
- ▶ Collaborating beyond the enterprise

The challenge we face...

- I was creating a presentation, I was multi-tasking ... also engaged in an instant messaging conversation

- My colleague wrote...

“ You have to laugh... Dave [name changed] asked me to **E-MAIL** him my presentation on ‘improving collaboration’ ”

Collaborative capabilities

- Where and when you need them

Documents, presentations, spreadsheets

Reduction in space taken by file attachments

Notes authentication via Active Directory (optional)

Notes ID credential vault

Modernised HTTP server (Ajax, Dojo)

LOTUSPHERE COMES TO YOU 2008

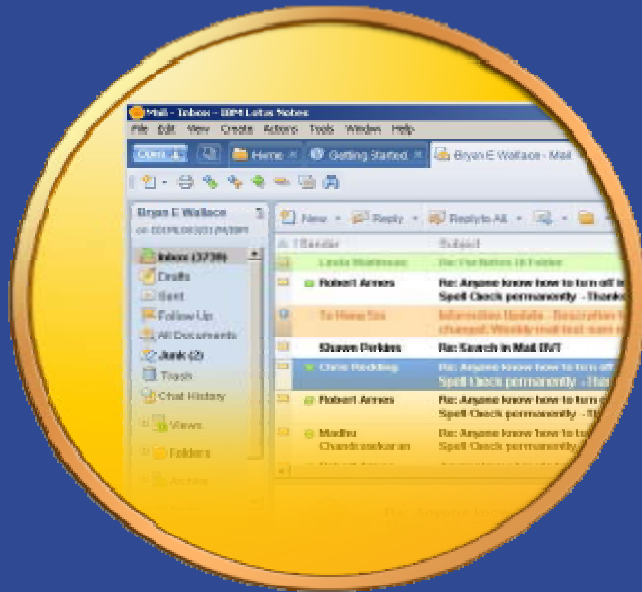

Important direction for Notes 8?

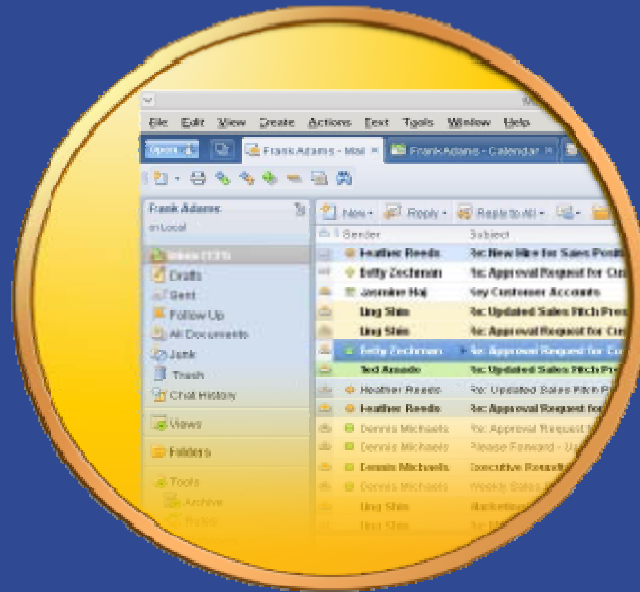

- Greater demand for converging technologies
 - ▶ Instant messaging, presence awareness, Voice over IP, telephony integration
 - ▶ Unified user experience
 - ▶ Composite applications
 - ▶ Role-based dynamic workplaces
 - ▶ Server-managed clients with minimal desktop touch
- Embracing innovations and open standards [Web 2.0]
 - ▶ Contextual collaboration
 - ▶ New ways of working ... activity-centric computing
 - ▶ Extensibility ... mash-ups
- Lowering cost of ownership while allowing people to be more productive
- Providing choice and flexibility

COLLABORATING WITH IBM LOTUS QUICKPLACE 7

QuickPlace value propositions

Instant creation of a collaborative team space

- QuickPlace allows users to instantly create their own team space, modify it for their purpose, and add their own team members... without waiting for action from the IT department.
- Templates (known as PlaceTypes) allow users to create new team spaces which fit their business requirements.

QuickPlace fits into YOUR infrastructure

- QuickPlace is accessed via a web browser, and tightly integrates with Microsoft Office... and not just

- Every item of QuickPlace content can be controlled for reader and editor access, thus providing the content to the right audience.
- A QuickPlace can contain 'rooms' - secure areas which require named access, thus protecting all of the content within.
- QuickPlaces can be used off-line, and the off-line data is fully encrypted.

Collaboration beyond the enterprise

- The pervasive nature of QuickPlace means that partners, suppliers and customers can join the collaborative process. A web browser, a connection to the QuickPlace server and membership in the QuickPlace is all that is required.

LOTUSPHERE COMES TO YOU 2008

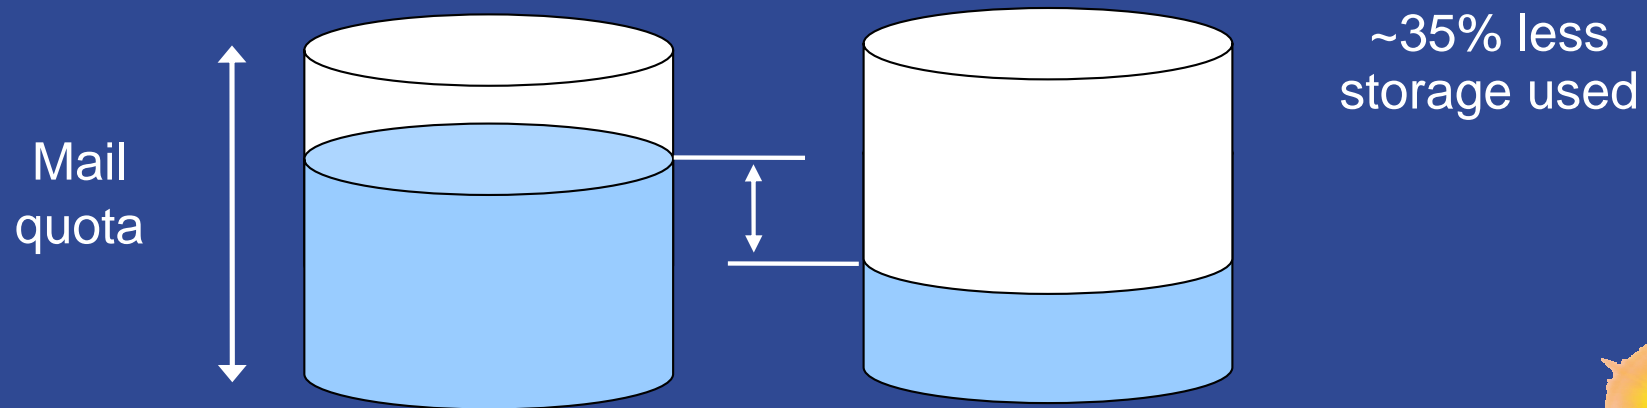

IBM Lotus Notes / Domino 8.0.1

LOTUSPHERE COMES TO YOU 2008

IBM[®]

New capabilities – database / mail box compression

- Brought forward from Domino 8.5
- Compresses databases and mail boxes by around 30 – 40%
- Benefits:
 - ▶ Decrease in storage required, contributes to reduction in cost of ownership
 - ▶ Improvements to server performance due to decreased I/O
 - ▶ Faster opening of mail boxes on client

New capabilities – Lotus Notes Traveler

- Secure mobile e-mail / PIM support
- Free entitlement for maintained Notes and Domino Web Access users
- Initially supports Microsoft Windows Mobile 5 and 6
- Partners contribute to providing full ecosystem
 - ▶ e.g. device management

LOTUSPHERE COMES TO YOU 2008

Integration with Lotus Quickr 8.1

- Drag and drop of file attachments (e.g. from e-mail) into a document library
- When sending e-mail, publish attachments into a library and send the links instead

New calendar and scheduling capabilities

- Conference call details stored in calendar preferences
- Automatically inserted in an invite when required

My Widgets – user-defined content

- Allows users to add the following to their Notes 8 side-bar
 1. Notes views (and documents)
 2. Web pages
 3. Feeds
 4. Google Gadgets
- Benefits to customer
 - ▶ Provides users with the tools and flexibility to make content important to them quick and easy to access
 - ▶ Provides business agility without calling in the developers

LOTUSPHERE COMES TO YOU 2008

My Widgets – side-bar content

Start Configuring Widgets

Configure widgets and put them in the sidebar, or wire widgets so that users can take action on Live Text in a Notes document.

You can configure

- Widgets, using components such as a Notes view or Google Gadget in the sidebar
- Live Text widgets that wire text in a Notes document to components such as:
 - Other Notes Applications
 - Web content such as Web pages, Google Gadgets, and feeds

Configure Live Text by connecting textual "content types" in one Notes document to other Notes or Web applications. Use existing content types (like people's names) or create your own by defining a pattern to recognize.

For example, configure an action to look up someone's name in your corporate directory, or to look up the status of a flight by clicking on an underlined flight number in an email. Simply define the format of a flight number using regular expressions, and then configure wiring to an airline web site that looks up the status of flights.

You can create a widget wherever you see the "Configure a Widget" Toolbar button: 

Then publish it in the Widget catalog for others to use.

Where is the information you want to display?

Notes Views
 Web Page
 Feed
 Google Gadgets

My Widgets – mash-ups

- Create 'recognisers', actions and content types
- Recognised text will be underlined
- Clicking on it will invoke an associated action
- Examples:
 - ▶ Name in an e-mail, click on it for BluePages lookup
 - ▶ Flight number, look up flight details from web site
 - ▶ Part number, click on it for stock status
 - ▶ Order number, click on it for progress
 - ▶ Parcel tracking number, click on it for shipping progress
 - ▶ Postcode, click on it to plot location on Google Map

My Widgets and Live Text demo

LOTUSPHERE COMES TO YOU 2008

New capabilities – Domino Web Access Lite

- A new option for displaying Domino Web Access
- For speedy access generating less traffic than full mode
 - ▶ Benchmarks show it to be 40% quicker than Google Mail
- Log directly into Lite mode or switch from full mode
- Benefits to customer
 - ▶ Quick access to full-functional e-mail over slow connections

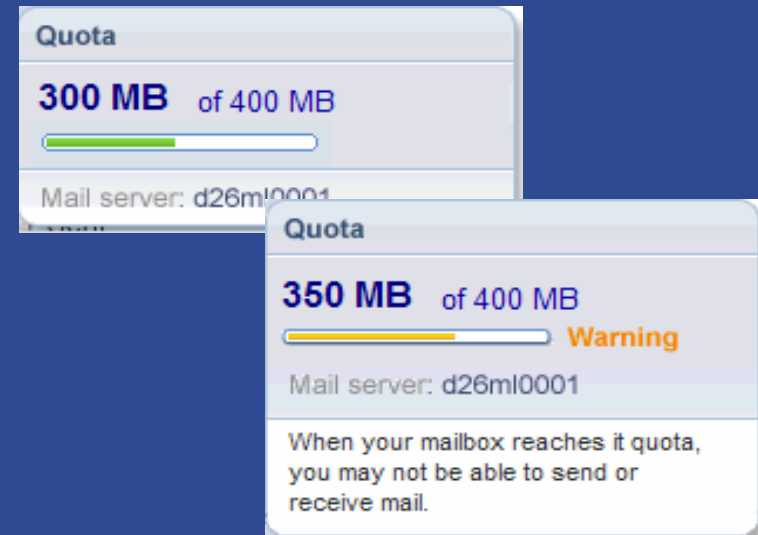

Domino Web Access Lite

The screenshot displays the Lotus Domino Web Access Lite interface within a Mozilla Firefox browser window. The browser's address bar shows the URL <https://greenhouse.lotus.com/mail/darr>. The interface includes a menu bar (File, Edit, View, History, Bookmarks, Tools, Help) and a toolbar with navigation and utility icons. The main content area is titled "Lotus Domino™ Web Access" and features a "Mail-Inbox" view. On the left, a navigation pane shows folders for "Darren.Adams", including "Inbox", "Drafts", "Sent", "Follow Up", "All Documents", "Junk", "Trash", "Views", and "Folders". The central inbox displays a list of messages with columns for Sender, Subject, Date, and Size. The selected message is from Matt Newton, dated 12/14/2007 01:29PM, with a subject of "Re: Presentation req" and a size of 26K. Other messages include one from Andy J Porter about "Project Avalon" and another from Darren Adams about "Re: Presentation req". On the right, a "Day-At-A-Glance" calendar view shows the date "Tue 01/15/2008" and lists events such as "My birthday", "Preparation for 8.0.1 prospecting Staines", "PBC review", and "Call re. 2008 competitive plays". At the bottom, a search bar contains the text "pete" and a status bar shows "Done" and the URL "greenhouse.lotus.com".

Notes / Domino roadmap

Note: Current plans, information is subject to change

Goals for Notes / Domino 8.5

- Simplify Notes identity management and authentication
- Reduce storage costs
- Improve I/O operations
- Improve quality of service
- Modernise Domino web application development

“...the most important Domino version since 5”

Russ Holden

Lotus Domino Chief Architect and Distinguished Engineer

LOTUSPHERE COMES TO YOU 2008

Simplifying identify management

- For users:
 - ▶ Eliminate need to enter Notes password
 - ▶ Simplify “forgotten password” and “lost ID file” recovery
 - ▶ Eliminate need to manually keep multiple ID files consistent

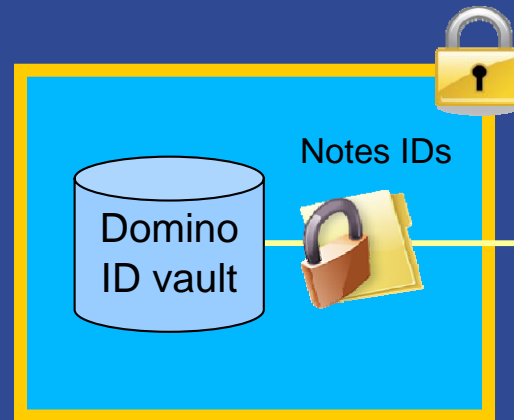

- For IT:
 - ▶ Greatly simplify Notes ID management: manage, update and distribute ID's
 - ▶ Allow Notes user and group information to be stored and managed in non-Domino LDAP directories

Lotus Domino 8.5 - central Notes ID vault

- Eliminates expensive error-prone manual operations
- Automates Lotus Notes ID file provisioning to Notes desktops

Helpdesk

Lotus Notes

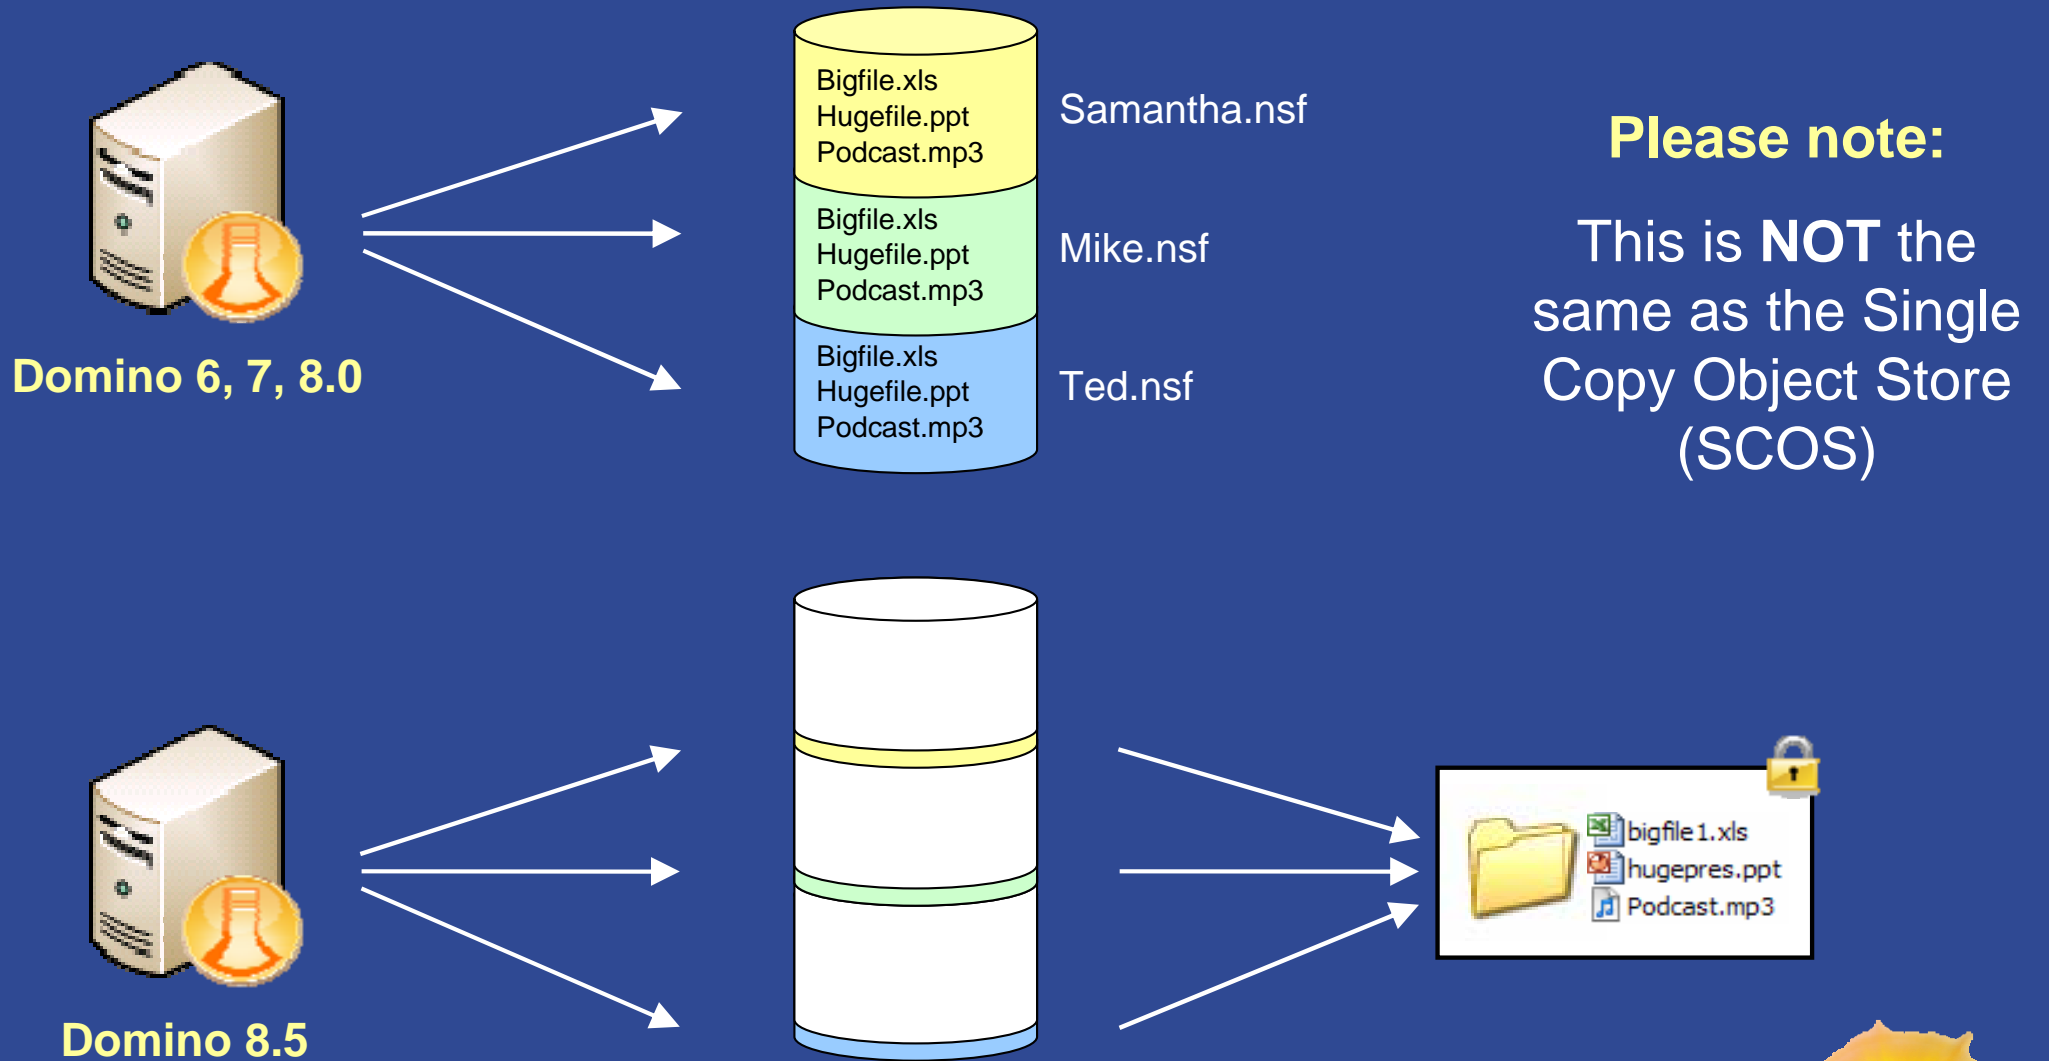

Self-service password change application

LOTUSPHERE COMES TO YOU 2008

Domino 8.5 – optional improvements

- Management improvements to help lower operational costs
- Directory:
 - ▶ Option to replace Domino Directory with LDAP directory
 - ▶ Tools will be provided to migrate Domino person attributes into LDAP
 - ▶ Active Directory will be first target followed by other leading directories
 - ▶ Domino directory continues to be supported as integrated directory – no mandate to change
- Storage:
 - ▶ Domino Attachment Object Store (DAOS)
 - ▶ Provides efficient, file-system storage of large objects
 - ▶ Automatically removes redundant storage of objects via efficient content comparison
 - ▶ Results:
 - Databases greatly reduced in size
 - Substantial disk space savings
 - I/O bandwidth savings

Domino Attachment and Object Store

Please note:

This is **NOT** the same as the Single Copy Object Store (SCOS)

Domino 8.5 – configuration tuner

- Detect misconfigurations
 - ▶ Mistaken settings
 - ▶ Incorrectly published values

- Detect performance and security issues
 - ▶ Recommend best practice performance settings like “Don’t overwrite free space”

- Reduce support costs
 - ▶ Support can use DCT to provide initial assessment
 - ▶ Administrators can perform self-assessment

Modernising Domino web applications

- Updated HTTP server
- True cascading style sheet support
- Eclipse-based Domino Designer
- Tools in new Domino Designer to easily implement Ajax and Dojo elements

Noticeable improvements...

Notes 8.5 - focus on further improvements from Notes 8

- Release focus on usability & reliability
- Features:
 - ▶ Show through calendars
 - ▶ iCal subscriptions and interoperability
 - ▶ Journal user interface update
 - ▶ Return of optional Notes selection model
- Simple and effective meeting workflow
- Improved roaming user support
- General availability of Notes 8.5 for Macintosh 10.5 (“Leopard”) and Ubuntu Linux clients

[Show Details](#)

Yes, it looks wonderful, Simone. In addition to the vertical version, are you planning to make any other market-driven differences? For example, in Ireland, I think our focus will be corporate rather than consumer customers.

IBM Lotus Quickr

LOTUSPHERE **COMES TO YOU** 2008

We asked our customers ...

- What is your greatest challenge (or challenges) pertaining to e-mail?
- Several variations on the same answer:
 - ▶ Too much e-mail
 - ▶ Storage requirements
 - ▶ Managing the size and content
- In other words, the sheer **VOLUME**

What? How can I be over my mail quota again?

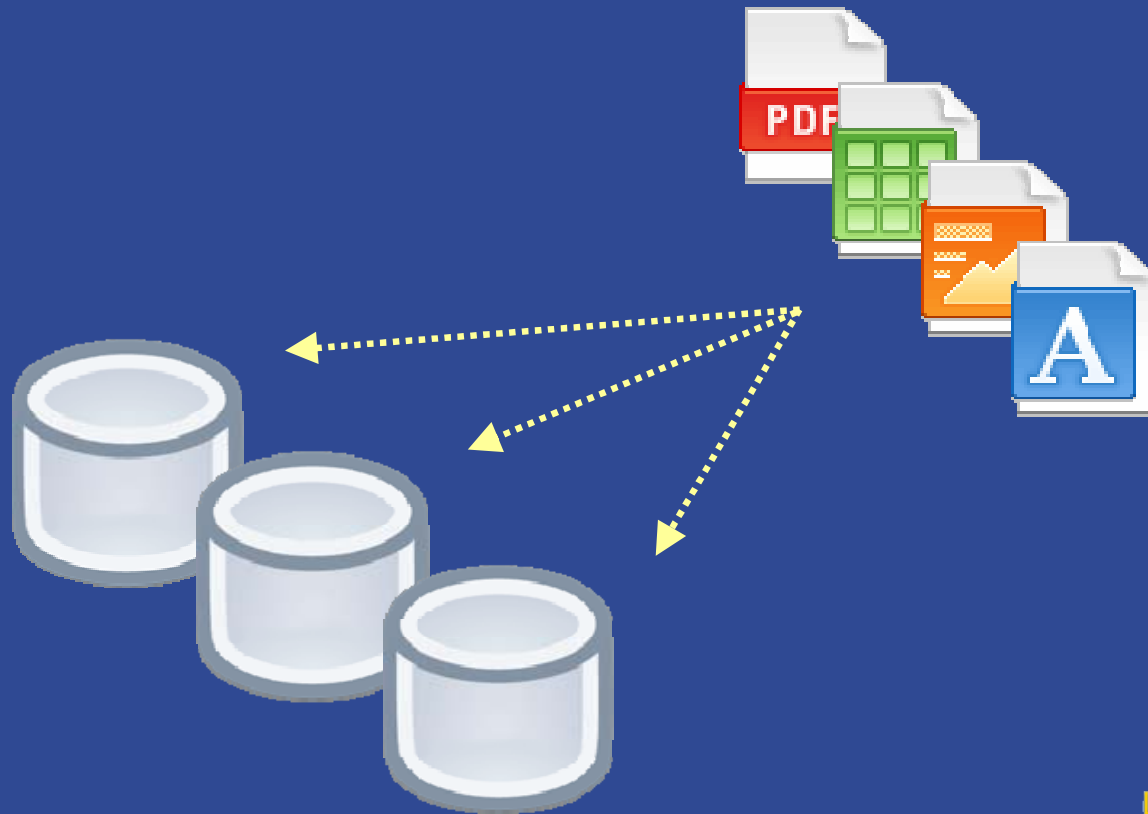

- Well, here's your answer...

Date	Size ▼			
18/03/2008	26.5M	<input type="radio"/>	<input checked="" type="checkbox"/>	
18/03/2008	5.6M		<input checked="" type="checkbox"/>	
18/03/2008	2.9M	<input type="radio"/>	<input checked="" type="checkbox"/>	
18/03/2008	2.3M	<input type="radio"/>	<input checked="" type="checkbox"/>	
18/03/2008	2.3M	<input type="radio"/>	<input checked="" type="checkbox"/>	
17/03/2008	1.6M		<input checked="" type="checkbox"/>	

Too much e-mail, too many file attachments

- Hands up if you think **ARCHIVING** is the answer to this problem

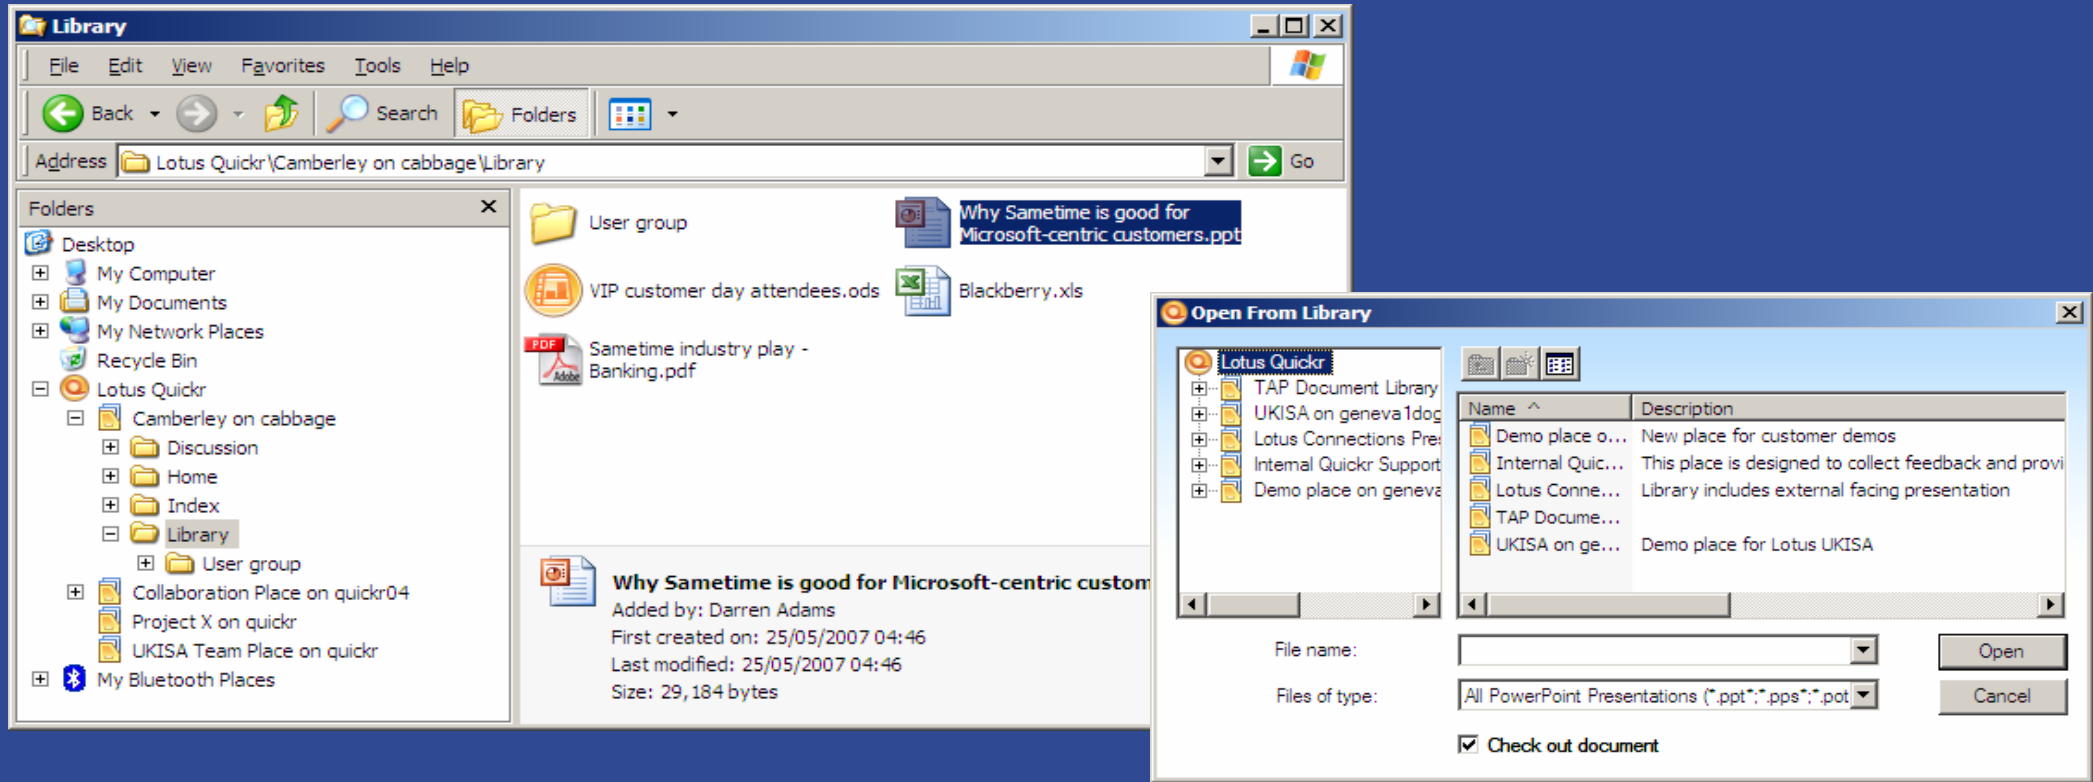

Collaboration requirements

- Organisations need to innovate and share knowledge in order to progress
- The new generation have new ways of working
 - ▶ Organisations must fit in with their ways
 - ▶ ...not force them to work the old way
- Collaboration outside the enterprise is essential to do business
 - ▶ The expectations of working smarter are rising
 - ▶ Where this is not available, the fall-back method is inefficient
- Collaboration is a part of your business processes
 - ▶ It should integrate quickly, efficiently and openly
- Collaboration should be natural for your teams
 - ▶ Built into the tools they use every day

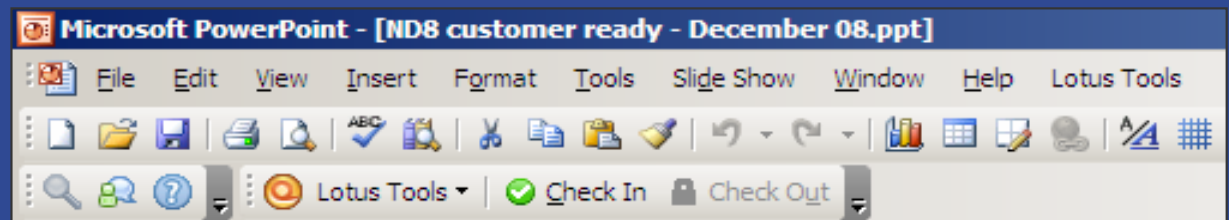

Document sharing... in the context of how people work every day

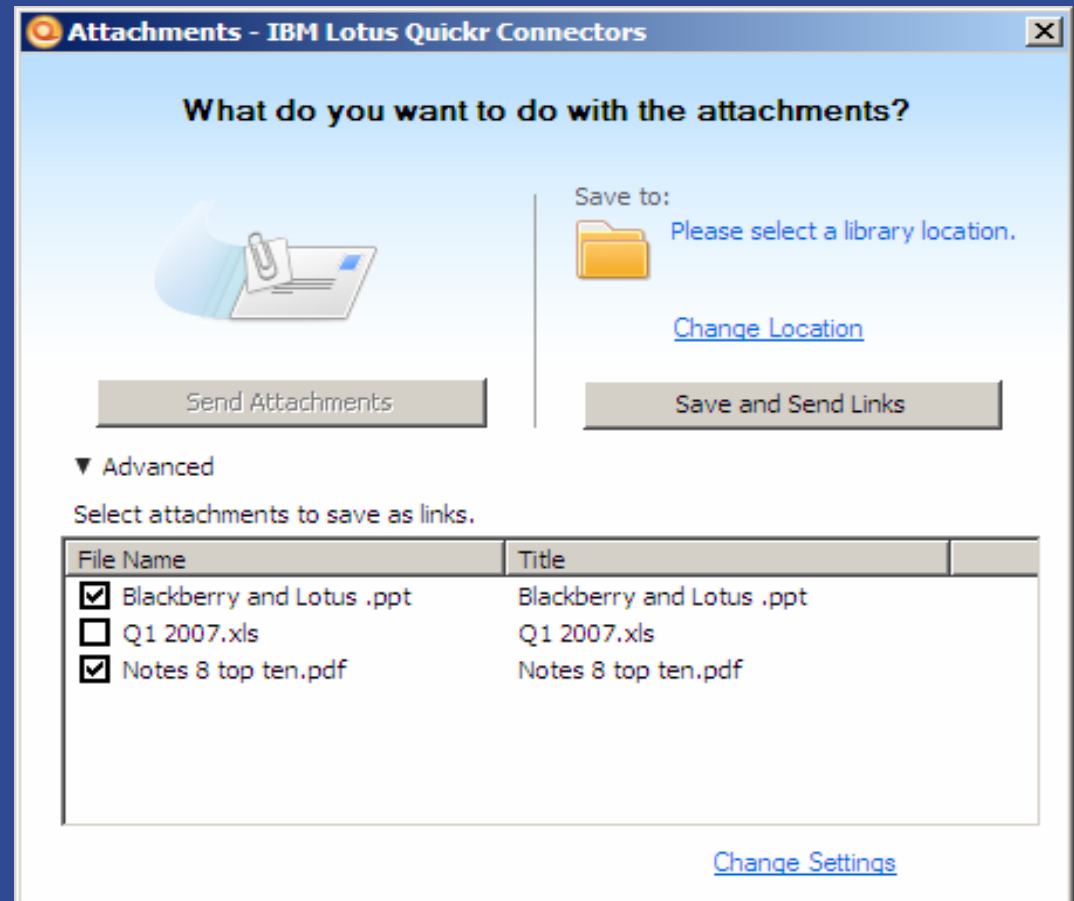

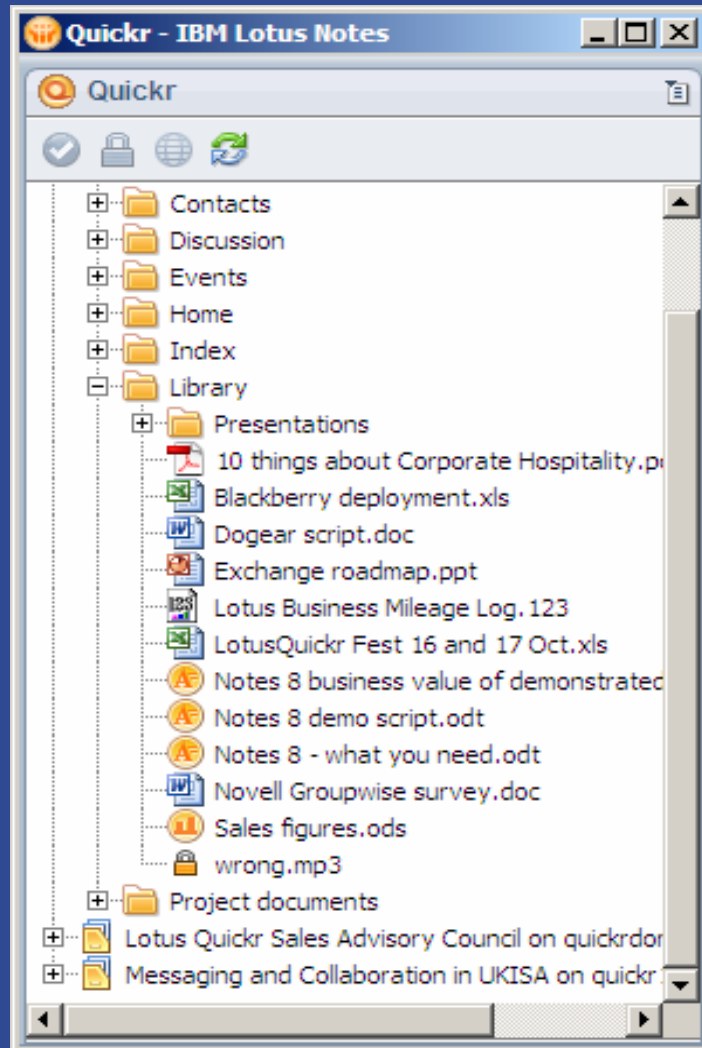

Windows Explorer

Microsoft Office

LOTUSPHERE COMES TO YOU 2008

Key points for line-of-business

- Quickr is quick to deploy and can grow
 - ▶ Should not be any delay in getting up and running
- Quickr is self-service and customisable by Quickr place manager
 - ▶ No IT bottle-neck for getting projects moving
 - ▶ Provide capabilities without asking the developers
 - ▶ Align custom capabilities to business processes
- Securely collaborate with the extended enterprise
 - ▶ Allow partners / supplier / customers to join in with the collaborative business process
 - ▶ More effective than the old common denominator (e-mail)

standard edition

Improvements to Quickr ... version 8.1

- Look and feel
- Navigation
- Ease-of-use
- File type indicators
- Microsoft Outlook support for Connectors
 - ▶ If you're that way inclined
- Improved version control with rollback capabilities

IBM Lotus Quickr - demo

LOTUSPHERE COMES TO YOU 2008

Introducing

Lotus® Quickr™ Content Integrator

IBM Lotus Sametime

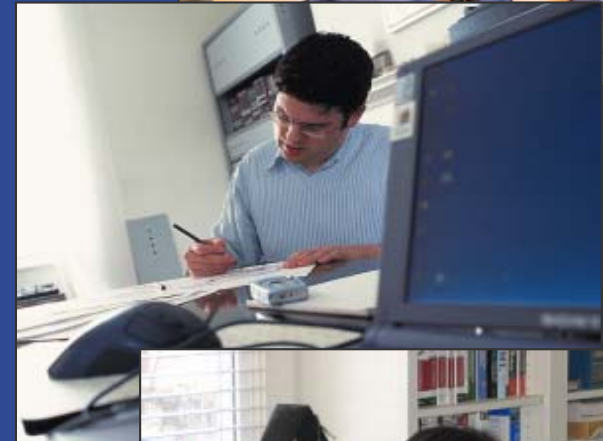

Real-time collaboration and
Unified Communications

LOTUSPHERE COMES TO YOU 2008

The virtual workplace is here already...

- **58%** of IT executives considers their company to be a virtual workplace
- More than **75%** of them report using real-time communications technologies today
- **90%** of employees work in locations other than headquarters
- Between **60%** and **70%** of employees work in different locations from their bosses
- The number of virtual workers has increased by a massive **800%** over the past five years

LOTUSPHERE COMES TO YOU 2008

Gartner estimates...

*IM [instant messaging] can reduce long distance calls by **30%**, reduce e-mail usage by **40%** and lead to a **15%** reduction in voicemail usage.*

But real-time collaboration is not just about instant messaging...

- It can reduce volume of e-mail
- It can reduce cost of travel and education
- It can reduce communication costs
- Allows you to respond to business issues more quickly and efficiently
- Creates a better-connected enterprise
 - ▶ Access to colleagues in disparate locations
 - ▶ Access to subject matter experts
- Adds value to existing applications

LOTUSPHERE COMES TO YOU 2008

Real-time collaboration is relevant to the world we live in

- National / global organisations... national / global commerce
- Challenges in travel
- Demand to react to business problems quicker than the competition
 - ▶ Immediate access to subject matter experts and in-demand contacts
- Collaboration – business processes – beyond the firewall
- Those who can will gain the competitive advantage

Connect multiple vendor PBXs

LOTUSPHERE COMES TO YOU 2008

Capabilities of Lotus Sametime Advanced

■ Persistent chat

- ▶ Keep a continuous chat discussion running on a specific topic with a related community of people - as new users join, they see the chat history

■ Broadcast tools

- ▶ Create interest or team-based “broadcast communities” of people.
- ▶ Send chats, polls, announcements, or “skill tap” questions to all members of the community at once.

■ Instant share

- ▶ Instantly start sharing your screen with one or more contacts

■ Location services

- ▶ Location server – store locations and make them available to others
- ▶ Location-based plug-ins (e.g., Nearby Buddies)

Darren Adams Good afternoon 2:24:02 PM
Andy J Porter Hi Darren. Good Afternoon. 2:24:33 PM
Darren Adams Matt should be joining us in a few minutes. 2:24:53 PM
Andy J Porter Excellent. 2:25:13 PM
Darren Adams Of course, we can discuss things as he can pick up the thread when he joins later. 2:25:43 PM
Andy J Porter I have been getting a great response from my customers when I show them Lotus Quickr. They particularly like the self service aspect. 2:32:19 PM
