WebSphere® software

IBM

IBM Transaction & Messaging Technical Conference
June 12-16, Atlanta, Georgia

Update your skills and
expand your knowledge

Explore **critical technology topics**

and do it for less with the
IBM Education Pack – online account!

What will this conference cover?

Attend the 2006 IBM Transaction & Messaging Technical Conference in Atlanta and find out how the new features of CICS® and the WebSphere® MQ family of message-queuing products extend the power and accessibility of your applications. Learn how recent enhancements to these products enable service-oriented architecture (SOA) and support implementation of a robust enterprise service bus (ESB).

- Choose from hundreds of sessions on the latest WebSphere messaging and CICS families of products.

- Build conceptual knowledge through sessions on XML, SOA, ESB, Web services and other emerging technologies.

- Gain practical experience and test-drive new technology with CICS, WebSphere MQ and WebSphere Message Broker hands-on sessions.

Who should go?

The Transaction and Messaging Technical Conference offers a wealth of knowledge and resources for any IT software professional, including:

- Systems programmers, integrators and analysts

- Application developers

- Administrators

- Architects/designers/decision makers
- IBM Business Partners

Key highlights:

- Understand how to maximize the full potential of SOAs

- Get your questions answered at our WebSphere messaging and CICS featured sessions

- Network with IBM Business Partners, IBM product experts and your fellow attendees

- See product demonstrations and talk to the experts at the Product EXPO

- Take certification tests on IBM Software Group products either free or at a reduced rate.
