U.S. REQUEST FOR DESIGNATION OF A BACKUP IBM MACHINE

Fax Page 1 of this document to ASSET LOSS PREVENTION AND RECOVERY (ALPR) 507-253-4553 (USA), or send via e-mail to RCHALPR@US.IBM.COM

Upon approval by ALPR, the request for keys will be sent to the Key Center who will process and send the keys to the e-mail address of the requester. If not on form, the keys will be sent to the IBM Sales Rep. NOTE: The keys cannot be retrieved from the website.

Key Center Contact:

      Telephone: 1-800-446-8989
      Fax: International 45 48 14 0391
      E-mail: USKEYS@DK.IBM.COM

Terms and Conditions

Upon termination of use of this machine as a backup machine, the customer must complete the following:

1. Send a note to RCHALPR@US.IBM.COM indicating the termination of use as a backup, and the disposition of the machine (put in storage, sold, or now operating as a production machine).

2. All non-Base i5/OS, OS/400 software products must be removed from the machine.

3. If the Version/Release/Modification (VRM) level of i5/OS, OS/400 has been upgraded while the machine was used as a backup (without a software maintenance offering), the i5/OS, OS/400 must be returned to the entitled VRM.

4. Contact the IBM Key Center to inactivate any software keys that were obtained for the machine for back up purposes. If the entitled i5/OS, OS/400 VRM is lower than the installed VRM, request the lower VRM key to be re-activated.
