Japanese Font Library Technical Reference

Note!

Before using this information and the product it supports, read the information in "Notices" on page B-1.

Second Edition (March 2003)

This edition of *Japanese Font Library Technical Reference* applies to IBM Infoprint Fonts for z/OS, Version 1 Release 1 Modification 0, program number 5648-E76; to IBM Infoprint Fonts for Multiplatforms, Version 1 Release 1 Modification 0, program number 5648-E77; and to all subsequent releases of these products until otherwise indicated in new releases or technical newsletters. This edition replaces S544-5849-00 and *Technical Reference for AFP™ Font Collection Japanese Fonts*, S544-5685-02.

Requests for IBM publications should be made to your IBM representative or to the IBM branch office serving your locality. If you request publications from the address given below, your order will be delayed because publications are not stocked there. Many of the IBM Printing Systems Division publications are available from the web page listed below.

About this publication

This publication provides information about the IBM Infoprint Fonts Japanese Font Library.

Contents of this publication

This publication contains the following chapters.

- Chapter 1, "Summary information" lists the CMap and CIDFont file names, FGIDs, GCSGIDs, and code pages associated with the fonts.
- Chapter 2, "Font samples" shows you a sample sentence in each font in seven point sizes.
- Chapter 3, "Characters" illustrates all the characters available for printing in the language.
- Chapter 4, "Code pages" shows the code pages used with the fonts.

Chapter 1. Summary information for Japanese font library

Japanese Heisei Kaku Gothic, Japanese Heisei Maru Gothic, and Japanese Heisei Mincho have the characteristics shown in Figure 1-1 and Figure 1-2.

Figure 1-1. Typeface names, styles, FGIDs, weights, and CIDfont files

| Typeface Name | Style | FGID | Weight | CIDFont File |
|----------------------|---------------------------|-------------|---------------|---------------------|
| Heisei Kaku Gothic | Gothic (sans serif) | 53249 | 5 | IBJHKGW5.CID |
| Heisei Maru Gothic | Round Gothic (sans serif) | 53250 | 4 | IBJHMGW4.CID |
| Heisei Mincho | Mincho (serif) | 53248 | 3 | IBJHMNW3.CID |

Note: ss is the code page section number. It is blank for outline fonts.

Summary information for Japanese font library

Printers should have a superset table containing the information in Figure 1-3 so that they can recognize subsets of the Japanese font character sets, which are identified by GCSGID. If a job requests a subset of an available font character set, the printer can substitute the superset.

Figure 1-3 How GCSGIDs are related

| GCSGID | Contains | Contains | Description |
|---------------|-----------------|-------------------------|-----------------------------------|
| 2095 | 2094 | 2093 | Host DBCS JIS X0213 support |
| | | 101 | Latin |
| | | 332 | Katakana |
| | | 1132 | DCF compatibility 2 |
| | | 1187 | PC SBCS |
| | | 1363 | Host extended with box characters |
| | 1398 | Host extended with Euro | |
| 2092 | 2093 | Host DBCS with UDCs | |

Summary information for Japanese font library

Figure 1-4 shows the file names of the sample user-defined character (UDC) files and their attributes.

Figure 1-4. Type 1 UDC font file names

| File Name | 1st Byte | 2nd Byte | UDCs per File | Total UDCs | Typeface | Wrting Direction |

Chapter 3. Japanese characters

This chapter shows all the characters in the IBM Japanese fonts, including the IBM Japanese Graphic Character Set (revised in November 2002), which includes all characters defined by JIS (Japanese Industrial Standards) X0208-1990, JIS X0213-2000, and HYOOGAI KANJI JITAIHYO. The characters are printed in the Heisei Mincho font.

The number under each character is the Adobe character identifier (CID). To find the corresponding IBM graphic character global identifier (GCGID), see the Japanese mapping table in the online information on the *IBM Infoprint Fonts: Type Transformer and Utilities for Windows*, LCD4-5597 (CD-ROM). The CID is in the first column and the GCGID is in the third column.

The characters of CID number 0 through 8719 is equivalent to Adobe's Japanese Character Collection Adobe-Japan1-2.

Figure 3-1. CID characteristics

| CID number | Contents |
|--------------------|---|
| 0 through 8283 | Adobe-Japan1-0 <ul style="list-style-type: none"> • JIS X0208-1983 and JIS X0201-1976 character set standards • JIS83 based Apple, NEC, and Fujitsu corporate character set |
| 8284 through 8358 | Adobe-Japan1-1 <ul style="list-style-type: none"> • JIS X0208-1990 character set standard |
| 8359 through 8719 | Adobe-Japan1-2 <ul style="list-style-type: none"> • Microsoft Windows 3.1J character set contains NEC and IBM extensions |
| 8720 through 18452 | IBM-Japan2-0 <ul style="list-style-type: none"> • IBM extensions |

Attention:

- In this chapter, you will see a number of CIDs without characters assigned to them. The space for a characters image above CID is blank. This is correct.
- In the Japanese mapping table, you will find that some CIDs with characters assigned to them, as well as the CIDs without characters, have no corresponding GCGID. This is correct.

Japanese characters

Chapter 4. Japanese code pages

This chapter illustrates the following Japanese code pages:

- T1H00290
- T1HK0290
- T1H01002
- T1H01027
- T1HK0037
- T1H01041
- T1H01030
- T1H01031
- T10300ss
- T10300ss (characters for vertical writing)

Note: ss is the section number. It is blank when T10300 is used with an outline font.

The characters are printed in the Heisei Mincho font. The alphanumeric identifier under each character is the IBM graphic character global identifier (GCGID). To find the corresponding Adobe character identifier (CID), see the Japanese mapping table in the online information on the *IBM Infoprint Fonts: Type Transformer and Utilities for Windows*, LCD4-5597 (CD-ROM). The GCGID is in the third column and the CID is in the first column.

Attention: In the Japanese mapping table, you will find that some CIDs have no corresponding GCGID. This is correct.

T1H00290 Japanese Katakana Extended

| CPGID | GCSGID | Encoding | Default Character |
|-------|--------|----------|-------------------|

Japanese code pages

Summary of Changes

The following Japanese Heisei Mincho character has been modified in the March 2003 update to IBM® Infoprint® Fonts for z/OS™ and IBM Infoprint Fonts for Multiplatforms and in the second edition of this book:

- CID #8681 (Host Code X'65E8') has been replaced with the correct character shape.

The following Japanese Heisei Maru Gothic characters do not appear in this book, but have been modified in the March 2003 update to IBM Infoprint Fonts for z/OS and IBM Infoprint Fonts for Multiplatforms:

- CID #0072 has been redesigned for improved appearance.
- CID #8505 (Host Code X'5CA9') has been replaced with the correct character shape.
- CID #15049 has been replaced with the correct character shape.
- CID #15591 (Host Code X'D3DE') has been replaced with the correct character shape.

Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property rights may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive
Armonk, NY 10504-1785 U.S.A.

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

IBM World Trade Asia Corporation
Licensing
2-31 Roppongi 3-chome, Minato-ku
Tokyo 106, Japan

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Corporation
Department 11PA Building 002S
PO Box 1900
Boulder CO 80301 USA

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee. The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurement may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrates programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. You may copy, modify, and distribute these sample programs in any form without payment to IBM for the purposes of developing, using, marketing, or distributing application programs conforming to IBM's application programming interfaces.

Each copy or any portion of these sample programs or any derivative work, must include a copyright notice as follows:

© (your company name) (year). Portions of this code are derived from IBM Corp. Sample Programs. © Copyright IBM Corp. _enter the year or years_. All rights reserved.

If you are viewing this information softcopy, the photographs and color illustrations may not appear.

For online versions of this book, we authorize you to:

- Copy, modify, and print the documentation contained on the media, for use within your enterprise, provided you reproduce the copyright notice, all warning statements, and other required statements on each copy or partial copy.
- Transfer the original unaltered copy of the documentation when you transfer the related IBM product (which may be either machines you own, or programs, if the program's license terms permit a transfer). You must, at the same time, destroy all other copies of the documentation.

You are responsible for payment of any taxes, including personal property taxes, resulting from this authorization.

Your failure to comply with the terms above terminates this authorization. Upon termination, you must destroy your machine readable documentation.
