Chapter 4. Parts listing

Field Replaceable Unit (FRU): FRUs must be installed only by trained service technicians.

IBM will perform On-Site install for FRUs, at no additional charge.

All Consumables (components, such as batteries), Structural parts (components such as chassis assembly, top cover, bezel), and Tier 1/Tier 2 parts listed in the Problem Determination and Service Guide for IBM System x3550 M4 Type 7914 are delegated as FRUs for your IBM InfoSphere Guardium Appliance Type 3840.

Chapter 5. Removing and replacing server components

See Chapter 4. Parts listing above.

Appendix A. Getting help and technical assistance

Using the documentation

Guardium Quick Start Guide is included with your appliance in CD format.
Guardium Help Book is available in the application Software pre-installed on the appliance.

Software and Hardware service and support

When calling IBM for service please select the Software Service Option as the Product type for your Guardium Appliance. You are required to provide your IBM Customer Number for Support.

All Service Support calls should be directed to the ISM Software Support Line. The Software support team owns the engagement with the customer and will engage the hardware support team when necessary.
